THE REVOLT IN RUSSIA.

SERIOUS EVENTS IN SEVERAL PROVINCES.

Startling Crime at Helsingfors Overshadows Critical Situation.

Disorders in Smaller Towns Result in Many More Persons Being Killed and Conditions in Caucasia are Becoming Worse—Socialists Issue Violent Proclamation, Threatening Retaliation for Events of January.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, Feb. 8, 12:15 a.m.—[By Atlantic Cable.] For the moment, the startling crime in Helsingfors has withdrawn attention from the strike situation throughout Russia. Today's events in Poland and the Caucasus, however, are serious enough in themselves.

Disorders in the smaller industrial towns of Poland have added many to the total of the killed and troops have been sent to Warsaw and Kutno, eighty-three miles west of Warsaw, to quell uprisings there.

Strike conditions in the Caucasus are becoming worse and traffic on the trans-Caucasian railway is interrupted.

The men employed in three St. Petersburg factories threatened to walk out yesterday, but the grievance in this instance, which was over strike pay, was settled at a conference.

The Central Committee of the Russian Social Democrat Workmen's party has issued a violent proclamation which has been widely circulated in the factories of St. Petersburg, calling on the authorities to array themselves under the red flag of the Social Democracy and prepare for an armed renewal of the January demonstrations. The proclamation bitterly assails church and state and the higher classes and concludes:

"In order to gain victory we must organize a vast workmen's army. Then again we will start for the palaces to present our demands, not with ikons and not with supplications, but with arms in our hands, under the blood-red standard of the Russian Social Democratic party."

HELSINGFORS ASSASSINATION.

[BY THE ASSOCIATED PRESS—P.M.]

HELSINGFORS (Finland) Feb. 7.—The assassination of Procurator-General Soininen, the latest political crime, following the January demonstration, has caused the police to redouble their precautions. The Journal Bjornsbergs Tidings was suspended today, but this had no direct connection with the assassination.

Hohenthal's father was a pastor of Laiha. The assassin left Helsingfors University a couple of years ago without terminating the medical course, and took up massage as a means of livelihood. He recently returned here from Stockholm and went to St. Petersburg, where, it is believed, he formed revolutionary ties. The uniform worn by the assassin in order to avert suspicion was an imitation of a Russian naval officer's.

The correspondent of the Associated Press met a friend of Hohenthal, who spoke in the highest terms of him. He was popular among his fellow-students on account of his good nature, winning ways and predilection for sport.

The office of Procurator-General is one of the highest in Finland. The Procurator-General is head of the Department of Justice of the Finnish Senate. The Finns have the right to petition the Procurator-General in the case of any grievance in connection with the administration of justice and the Procurator-General can order a new trial.

Soininen was forty-eight years old. His father was a pastor of Pedisbarvi. Young Soininen studied law, was appointed Secretary of the Department of Economy in 1892. Senator of the Department of Justice in 1900 and Procurator-General in 1901.

GORKY'S WIFE VISITS HIM.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, Feb. 7, 11:30 p.m.—Maxim Gorky's wife has been permitted to visit him in the Fortress of St. Peter and St. Paul. Gorky is suffering from a slight indisposition, due to imprisonment. He is receiving every attention, a high officer having been specially detailed to look after him.

GOPON IN SWITZERLAND.

ACADEMIC ANARCHY MUSTERED.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, Feb. 7.—[By Atlantic Cable.]—Father Gopon, the leader of the workmen of St. Petersburg in the affair of January 22, is now known to be in Switzerland.

The police have discovered at the residence of Municipal Councillor Kedrine the draft of a proclamation inciting the army to revolt.

Gov.-Gen. Trepoff has ordered the Curator of Education to instruct all Professors in universities and teachers in schools of St. Petersburg to inform their students that academic anarchy must cease. Students must resume their studies by February 26, and those refusing to do so will be expelled. If the majority refuse or the professors associate themselves with the movement, the universities and schools, Trepoff announces, will close and education in St. Petersburg will cease.

Proposals for dealing with the labor problem have been framed by Finance Minister Kokovsoff and approved by the Emperor. They will be debated by the Commi tee of Ministers, with a view to legislation on the subject.

POLISH STUDENTS REBELLIOUS.

[BY THE ASSOCIATED PRESS—P.M.]

WARSAW, Feb. 7.—The Roman Catholic Bishop of this diocese has issued an appeal to the strikers to attend the Cathedral tomorrow and definitely state their claims.

The pupils of all the schools here, except two, refused today to return to their classes until the Polish language shall have been introduced.

The general strike situation is unchanged.

SITUATION GROWING WORSE.

STRIKE IN BATOUM, CAUCASIA.

[BY THE ASSOCIATED PRESS—A.M.]

BATOUM, Caucasia, Feb. 7.—[By Atlantic Cable.] The strike situation here is growing worse. Business is practically at a standstill, although some steamers have succeeded in getting away. Food is becoming more scarce. The military governor has issued a proclamation warning the inhabitants against assembling in crowds.

CZAR GOT BAD LETTER.

ASSASSINATION THREATENED.

[BY THE ASSOCIATED PRESS—A.M.]

BERLIN, Feb. 7.—[By Atlantic Cable.]—The Tageblatt today prints a report to the effect that Emperor Nicholas recently found in his study a letter threatening him with assassination. An investigation of the report elicited a semi-official statement that it was unfounded.

RELIEF OF VICTIMS' FAMILIES.

[BY THE ASSOCIATED PRESS—A.M.]

ST. PETERSBURG, Feb. 7.—A special commission has been appointed under the presidency of Gen. Litwinoff to distribute the $25,000 contributed by Emperor Nicholas and the Empress to the relief of the families of the workmen killed or wounded January 22.

MANY STRIKERS KILLED.

GRAVE DISORDERS IN POLAND.

[BY THE ASSOCIATED PRESS—A.M.]

WARSAW, Russian Poland, Feb. 7.—[By Atlantic Cable.] According to a report from Radom, twenty workmen have been killed or wounded in strike disorders there today, while at Skarzysko, twenty-four have been killed and forty wounded.

Grave trouble is also reported at Kutno today. Troops have been sent to Kutno from here.

Several men were killed here by strikers in bakeries and elsewhere, where attempts were made to resume work. Many arrests have been made.

The price of provisions has gone up. The peasants are afraid to bring in their produce.

Strikers today attempted to bring out the employés of the electrical plant of the asylum for lunatics, but the doctors succeeded in pacifying the men.

GETTING WORSE AT LODZ.

CRISIS EXPECTED THURSDAY.

[BY THE ASSOCIATED PRESS—A.M.]

LODZ, Russian Poland, Feb. 7.—[By Atlantic Cable.] The factories were opened today, but scarcely any of the workmen appeared. At one factory, the men worked until lunch time and then left and refused to return, saying they did not want to be killed by a bullet from the street fired through the door. Another factory abruptly ended work.

The situation appears to be growing worse and a critical time is expected February 9, the date on which some of the largest manufacturers have decided to pay their employés the balance of their wages, dismiss them and shut down the mills indefinitely. The strikers are becoming more aggressive. This morning, they forcibly entered a mill and destroyed the machinery.

ASSASSIN IS IDENTIFIED.

STUDENT KILLED SOININEN.

[BY THE ASSOCIATED PRESS—A.M.]

HELSINGFORS, Finland, Feb. 7.—[By Atlantic Cable.]—The assassin of Soisalon Soininen, Procurator General of Finland, who was shot and killed yesterday at his residence by a young man dressed in an officer's uniform, has been identified as Earl Lenard Hohenthal, formerly a student at the Imperial Alexander University. Hohenthal, who lately had lived in Stockholm, returned to Finland January 13. He maintains obstinate silence under examination.

ACCIDENT REVIVES FAITH.

Death of Young Hawaiian on Altar in Museum Makes Natives Believe in Pagan Gods Again.

[BY DIRECT WIRE TO THE TIMES.]

HONOLULU, Feb. 7.—[Exclusive Dispatch.] The peculiar death of Kukahiku, a young Hawaiian, has revived among the natives the old belief in Pagan gods. Kukahiku fell from staging in Bishop Museum, and expired on the altar of the model of an ancient heiau, or temple, devoted to human sacrifice.

It seems that the young Hawaiian arranged to go to sea, but his mother objected so strenuously that the captain refused to accept the boy. Kukahiku was angry. He slapped her face and cursed her in the name of Ku, Hinu and other old Hawaiian gods.

Then he apprenticed himself to a carpenter, and while employed at the Bishop Museum he lost his balance and fell, striking upon the heathen altar. His body actually assumed the position of those who were sacrificed, and the illusion was strengthened by his blood, which flowed from the altar.

The natives recalled how he cursed his mother, and his death is believed by them a punishment for his impiety.

ULTIMATUM TO SULTAN.

Decision to Borrow Money from Germany Impels France to Demand Satisfaction of Claims.

[BY THE ASSOCIATED PRESS—P.M.]

LONDON, Feb. 8.—[By Atlantic Cable.] The Daily Telegraph's correspondent at Constantinople reports that owing to the Sultan's decision to borrow money from a German group of financiers for rearming of the Turkish artillery, M. Constans, the French Ambassador, has delivered an ultimatum demanding the instant satisfaction of the various outstanding French claims, failing which he will leave today (Wednesday) to consult his government.

The German conditions of the loan, the correspondent says, were that all guns should be ordered from Germany. A French syndicate has been competing for the loan.

LIMITED DERAILED.

Santa Fe's Fast Train Meets With Mishap in Arizona in Which Californians Are Injured.

[BY TELEGRAPH TO THE TIMES.]

SANTA FE, (N. M.) Feb. 7.—The Golden State Limited, on the Rock Island, was derailed today near Calzoso, Lincoln county, N. M. Eight persons were injured but none fatally. A transfer service has been arranged until the track can be cleared.

The injured are:

MRS. MARY SAWYER, Los Angeles.

B. M. SAWYER, her son, Los Angeles.

MRS. A. L. SEIR, Milwaukee.

J. W. PIERCE, El Paso.

CHARLES HARDING, Redlands, Cal.

MRS. CHARLES L. ALGER, Chicago.

MR. and MRS. CULVER, Chicago.

The last two are seriously hurt, but the others are only slightly injured. They are being brought to El Paso for treatment.

All except Pierce were bound for California.

The entire train left the track, but was not badly damaged.

COLORADO'S POLITICAL MESS.

DENVER (Colo.) Feb. 7.—The Democratic attorneys in the Peabody-Adams gubernatorial contest are securing depositions of voters in several counties outside of Denver. Before the joint committee today three ballot boxes from Las Animas county, where the Democrats allege flagrant frauds were committed by the Republicans, were turned over to experts selected by the Democrats. Two ballot boxes opened today were in bad condition, and the Republicans may ask that the testimony which the Democrats expect to secure from these boxes shall be thrown out on this account. Eleven witnesses identified their ballots today, and all but one picked out their ballots from a number of others. The ballots identified were selected from several precincts, and had been declared fraudulent by three different experts.

AT NEW YORK HOTELS.

NEW YORK, Feb. 7.—[Exclusive Dispatch.] At the Cadillac, G. I. Jacoby, C. P. Burk and wife.

WASHINGTON.

VIVA LA ARIZONA!

Is Left in Single Blessedness.

Senator Bard's Amendment to Admit New Mexico as a State Adopted.

California's Little Neighbor in No Danger Unless it is from Lower House.

Oklahoma and Indian Territory United—President on Philippines.

[BY DIRECT WIRE TO THE TIMES.]

PHOENIX (Ariz.) Feb. 7.—The action of the Senarte in respect to the Statehood Bill was not definitely learned here until late this evening, when The telegraph offices were watched all day by many people. Great enthusiasm and satisfaction is expressed by all thus far, though no public demonstration has been made, as there has been no time for preparation. Arizona rejoices with New Mexico on her good fortune, and thinks she should be similarly treated, but the present satisfaction from being saved from jointure is so universal that the privilege of remaining a Territory is regarded [illegible] The action is generally expected, and Arizona's chances for admission have been greatly improved by favorable action in the case of New Mexico, and that this Territory will be admitted by the Fifty-ninth Congress.

WASHINGTON, Feb. 7.—[Exclusive Dispatch.]—By fighting continually and skilfully all day long in the Senate today, Senator Bard saved Arizona from being joined in Statehood with New Mexico. Not only did he save Arizona from this fate for the present, but if the House of Representatives shall ratify the work done by the Senator today, he will have succeeded in saving Arizona forever from that fate, and when Arizona changes from her present condition as a Territory, she will come into the Union as a sovereign State, preserving in her Statehood her Territorial boundaries.

Incidentally to the salvation of Arizona, the Senate today created two new States, one by joining together Oklahoma and Indian Territory and the other by admitting New Mexico to single Statehood, thus leaving Arizona as she is, in accordance with the wishes of her people.

Today's battle in the Senate, which started soon after noon and lasted until 9 o'clock tonight, was one of the prettiest parliamentary fights seen in that body for many a long day. Since the beginning of this Congress, the Statehood Bill has been almost continually, day by day, before the Senate, and last week an agreement was reached to take a final vote on the bill and all amendments today.

When the Senate met today, all set speeches had been delivered and Senators were willing for the fray, to see which side could command the most votes. On one side, ranged in favor of making Arizona and New Mexico into one State, was Senator Beveridge, chairman of the Senate Committee on Territories and a considerable number of Republican Senators, who were following him half-heartedly. On the other side, determined to preserve the integrity of Arizona, was Senator Bard, some half-dozen determined Republican Senators and almost every Democratic Senator in the Senate.

The first part of the Statehood Bill relates to Oklahoma and Indian Territory, and that was gone through with easily, only a few fairly unimportant amendments being made. When the part creating one State out of Arizona and New Mexico was reached, Senator Foraker put in an amendment, providing that the people of the two Territories should vote on Statehood, and thus have the privilege of accepting or rejecting joint Statehood. That amendment, to everybody's surprise, went through without debate, and it was thought that the bill would probably wriggle through with that en-

OKLAHOMA REJOICES.

Passage of Statehood Bill is Creating Enthusiasm in Spite of Prohibition.

[BY THE ASSOCIATED PRESS.—P.M.]

OKLAHOMA CITY (Okla.) Feb. 7.—The announcement that the Senate has passed the Statehood bill providing for joint admission of Oklahoma and Indian Territory is creating great enthusiasm in both Territories. The Gallinger prohibition amendment is arousing a great deal of interest, and considerable opposition is expected to develop against that feature, but there appears no doubt that the enabling act will be accepted, even if this provision is not stricken out in conference. Public demonstrations are taking place all over both Territories tonight.

THE GREAT WAR.

COMMERCE WANTS PEACE.

Diplomats are No Longer Custodian of the Dove.

Russians to Mount Rapid-fire Guns on Mobes.

Kouropatkin Reports Successful Bayoneting of Japs.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Feb. 7.—[Exclusive Dispatch.] So far as diplomats in Washington are informed and so far as the government of the United States is concerned, there is not the slightest foundation for the reports that negotiations for peace between Russia and Japan are proceeding or in contemplation. Indeed, Count Cassini, the Russian Ambassador, is known to have informed Secretary of State Hay within the last twenty-four hours that the Russian government has had no communication with any other government on the subject of peace.

It can be further stated positively that the United States will make no peace move until requested to do so by both Russia and Japan. This rule was laid down by the President and Secretary Hay at the beginning of hostilities, and will be adhered to.

So much for the diplomatic situation regarding the ending of the war. Outside of diplomacy, however, there are strong reasons for believing that peace will come before very long. Commercial and business interests in the United States are known to have had for some weeks information that has led them to believe that both Russia and Japan contemplate an early ending of the war. This information has come principally from the business representatives of the Russian government, some of whom have placed orders in the United States for railroad construction, the material to be delivered within the war zone within six months.

LONDON VIEWS.

[BY THE ASSOCIATED PRESS—A.M.]

LONDON, February 7.—The Chargé d'Affaires of the Russian Embassy informed the Associated Press today that there is no basis for renewed reports of peace prospects. The Russian attitude, he declared, had not changed; peace could not be considered under the present conditions.

The Foreign Office attaches no credence to the prospects of early peace in the Far East and informed the Associated Press today that the situation, so far as the British government is aware, has not changed.

ST. PETERSBURG, Feb. 7, 11:30 p.m.—The renewed peace talk resulting from the visits of Ambassador Cassini and Minister Takahira to the State Department in Washington and the conferences of Ambassador Durand and Mr. Spring-Rice, first secretary of the British embassy at St. Petersburg, with President Roosevelt, Sunday, finds not the slightest echo in official and diplomatic circles in St. Petersburg, where Emperor Nicholas's declaration that the war must be carried to a satisfactory conclusion, remains the keynote of the situation. Confident satisfaction is felt, consequently, at the Washington telegram stating that assurances have been given by Ambassador Cassini that Sir Mortimer Durand's and Mr. Spring-Rice's presence at the White House was in no way connected with the termination of the war. This is all the more readily believed because the diplomatic world is aware that Mr. Spring-Rice is a personal friend of Mr. Roosevelt. On the other hand, the visit of Count Cassini and Minister Takahira to Secretary Hay are more easily attributed to discussions of Chinese neutrality than to terms of peace. The prevailing opinion among diplomats in St. Petersburg is that Japan and Russia would choose France rather than the United States when the time arrives to discuss terms of peace. It is difficult, if not impossible, to tell when this time will come.

The present current of press and public opinion in Russia appears to be setting toward peace. The newspapers no longer proclaim the necessity of continuing the war at all costs.

MOBE-MOUNTED RAPID FIRERS.

TO PROTECT SIBERIAN RAILROAD

[BY THE ASSOCIATED PRESS—A.M.]

CHICAGO, Feb. 7.—Rapid-fire guns mounted on automobile cars are to be used by the Russians for the protection of the trans-Siberian railroad. Six of these cars have been ordered by Nicholas Summerfield of Moscow, a representative of the Russian government, who has visited the Chicago automobile show. They were ordered for immediate delivery, and will be sent to Russia from Detroit within the next two weeks.

AGAINST HANGING.

Thousands of People Request Gov. Pennypacker to Prevent Execution of Mrs. Edwards.

[BY THE ASSOCIATED PRESS—A.M.]

HARRISBURG (Pa.) Feb. 7.—So numerous have been the requests from all over the country from people who want Gov. Pennypacker to commute to life imprisonment the sentence of Mrs. Kate Edwards, who is to be hanged at Reading February 16, that it has been found necessary for the executive department to prepare a circular letter in answer to these requests. This letter quotes the State Constitution to show that the Governor has no power to commute a death sentence to life imprisonment, except upon the recommendation in writing of the Board of Pardons.

ALL CALL HANGING AN OUTRAGE

[BY THE ASSOCIATED PRESS—A.M.]

READING (Pa.) Feb. 7.—Letters from all parts of the country continue to pour in upon Oliver Lents, attorney for Mrs. Kate Edwards. In each case, the writer thinks that it would be an outrage to hang her. A number of reasons are given for this belief, the principal one being that she is a woman, and the state she was in at the time the crime was committed was caused in part at least by the conduct of her husband.

Many of the letters are eloquent and the writers offer to circulate petitions, to be sent to the Board of Pardons. It is estimated that at the meeting of the latter, next week, petitions signed by 50,000 people will be presented, asking for mercy for the woman.

The press department of the W.C.T.U. has written that it is trying to get concentrated action on the part of the entire organization in the matter, and that it will use every effort in its power to save the condemned woman from the fate that overshadows her.

Attorney Lents mailed today to the Board of Pardons at Harrisburg the petition to have the sentence of Mrs. Edwards commuted. He will call on Gov. Pennypacker tomorrow in an endeavor to get a reprieve, and John H. Rothermel, counsel for Samuel Greaser, her negro accomplice, will go to Harrisburg on a similar mission Thursday.

In the meantime, Mrs. Edwards is preparing for death with her prison-born daughter, Alma, in her cell.

HIGH WATER AT YUMA.

YUMA (Ariz.) Feb. 7.—[Exclusive Dispatch.] The Colorado River has risen thirty inches since 5 o'clock p.m. The water registers 25½ feet on the gauge, and is likely to be 26 feet in the next few hours. Some apprehension is felt, owing to the fact that this is within about seven feet of the high-water mark of February 26, 1891, when the town of Yuma was washed away.

If the high-water mark of 1891 is reached, the town will not now, however, be in danger, owing to the government levee built since the 1891 flood, but the lower Colorado Valley south of Yuma would be flooded. This would not cause material damage, unless the water should remain high for some time.

STOLEN BOND REAPPEARS.

"Jimmy Hope's" Old-time Bank Robbery Recalled.

New York's Aetna National Causes Three Arrests.

Forged Security Presented to It as Collateral.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 7.—[Exclusive Dispatch.]—Three arrests made today by the agents of the United States Secret Service Bureau in this city promise to rend the veil of the mystery which for twenty-six years has enveloped many details of the greatest bank burglary that ever occurred in America, which was engineered by "Jimmy" Hope. In the Aetna National Bank was presented as collateral for a loan a United States 4-per cent. $10,000 consol, which was one of the identical bonds taken from the vaults of the Manhattan Savings Institution the morning of Sunday, October 27, 1878, when a band of burglars, notorious as masters in their craft, took from that institution cash and securities aggregating $2,757,700.

These men are now prisoners in the hands of the United States authorities under charges of conspiracy in connection with the forging and altering of United States bonds: Lewis O. Wilcoxson, representing himself as a capitalist of the Klondike, who has been a resident of Chicago, making his home for the best part of the last three years at the Waldorf-Astoria here; Joseph A. Taylor, a promoter and broker, living in White Plains, N. Y., and James A. Smith, a promoter and broker of Mobile, Ala.

It was in 1880, two years after the date of the famous bank burglary, that Inspector Byrnes recovered $20,000 worth of stolen securities. From that time until the present, not one of these bonds has ever come to light.

The same complaint implicates Samuel Warren Miller, whose residence is unknown. Taylor and Smith were released under small bail. Wilcoxson went to the Tombs in default of $10,000 bail.

The bank obtained an act of Congress under which its stolen United States registered bonds were canceled and replaced, so that the originals are now worthless and could be made to appear marketable only by forgery. The bond bore and still bears the number 1999. The name of the payees has been altered from "Manhattan Savings Institution" to "Samuel Warren Miller."

Dr. Wilcoxson says he met Miller in Alaska eight years ago. He struck it rich in Alaska, and owns valuable copper mines. A few days ago, he says, Miller called on him at the Waldorf Astoria to buy his copper properties for $200,000. This bond was to secure the deal. After trying several banks, finally the Aetna National Bank agreed to accept the bond, but before making the loan, the bank sent its messenger to the sub-treasury, and there the bonds was identified as worthless and the forgery also discovered.

OIL TRUST YIELDS TO KANSAS SENATE.

Bill Appropriating Four Hundred Thousand Dollars for State Refinery and Penitentiary Passes—Fight in Lower House.

[BY DIRECT WIRE TO THE TIMES.]

TOPEKA (Kan.) Feb. 7.—[Exclusive Dispatch.] The Kansas Senate, sitting as a committee of the whole, today recommended for passage the Porter Bill providing for the establishment of a State oil refinery. The bill carries with it an appropriation of $400,000. This result was attained without any fight. The bill will be passed tomorrow morning by the Senate, and will then be sent to the House.

In the House is where the fight on the bill will be made. A number of members came out tonight with statements that they are opposed to the measure, and it will have a hard time passing the House, if it does pass.

A bill was introduced in the House today providing for the establishment of a State packing-house. The promoters explain that the packing-house is more needed by the State. This is intended as a "back fire" to the Senate measure.

The Standard Oil agent here tonight received by express two packages of money, which will be deposited in a local bank. The agent does not state what it will be used for.

NEW YORK'S ATTACK ON GAS MONOPOLY.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 7.—[Exclusive Dispatch.] The Globe says that to prevent the consolidation of all gas companies in Manhattan, the Bronx, Brooklyn and Queens into one mammoth corporation under the charter of the East River Gas Company, whose $15,000,000 plant is nearing completion at Astoria, the State's attorney and corporation counsel are preparing to attack the validity of the East River Company's franchise. A more mortal thrust could not be delivered to a lighting trust than the annulment of the East River Company's franchise. Not only would it render the new Astoria plant, by far the largest in the world, absolutely valueless, but it would shatter all the plans of gas and electric financiering which the Standard Oil has been slowly maturing and perfecting by piecemeal legislation for several years.

The dream of President Rogers for a decade has been the amalgamation of all gas and electric concerns in Greater New York into one giant corporation with a single franchise, covering both gas and electricity and free from all modern requirements as to public control and compensation to the city.

The East River Gas Company franchise is the sole instrument by which this dream may be realized. It is the only franchise ever granted to one company for both gas and electricity. It is the only franchise ever granted to any lighting company to operate on both sides of East River, and therefore the only means by which the trust can utilize its big plant in Astoria as a source of gas supply for the entire city. Furthermore, it is the only gas franchise which does not expire at the end of a stated period, but extends to eternity.

Lastly, the East River Company is the only corporation possessing the right to condemn city and State property for its own use. The Consolidated Gas Company's franchise expires in two years. The ground on which the attack on this invaluable grant is made is that the act of 1892, which conferred most of the privileges, is unconstitutional.

FOUR BROTHERS STAND PAT.

[BY DIRECT WIRE TO THE TIMES.]

SPRINGFIELD (Mass.) Feb. 7.—[Exclusive Dispatch.]—The latest move in the attempt of the Standard Oil Company to crush the Four Brothers Independent Oil Company by reducing the price of burning oil to 7 cents a gallon has not been met by the independent company. Thomas L. Higgin, president of the Four Brothers Company, says it has not lost a single customer as the result, and that the dealers stand by his company because they are convinced that its extermination would mean an advance in the price of oil sufficient to recoup the losses of the trust in the year's fight to kill the competition.

Money Lender McDonald Accuses Morganstern.

Theatrical Manager Said to be in His Debt.

Boy Tied to Frightened Cow Meets Horrible Death.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Feb. 7.—[Exclusive Dispatch.] Alfred J. Morganstern, a lawyer formerly connected with local politics, but who now conducts two popular-priced theaters in Los Angeles, was made today defendant in a warrant charging the obtaining of money by false pretenses, which warrant was issued on complaint of J. E. McDonald, a money lender here.

McDonald alleges that, February 21, 1903, Morganstern borrowed $700 of him and gave a chattel mortgage on his law library and other effects as security, and further alleges that part of the library, comprising 133 volumes of California Reports, does not belong to Morganstern, but to the Bancroft-Whitney Company.

Warrant Clerk Fitzpatrick several days ago wrote to Morganstern to learn his version of the story. The manager replied that he had paid McDonald $500 in cash and had given further security, on which the money broker had realized $140. He claimed there was lack of any criminal intent in the transaction, and that he had written to McDonald for a full statement of the account, but received no reply.

Despite this communication, McDonald still insisted on having the warrant issued, as the statute of limitations runs against the debt February 21.

COUGAR ATTACKS CHILD.

BAK. R. MYSTERY NOW CLEAR.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA, Feb. 7.—[Exclusive Dispatch.] While playing within a few feet of its home in New Sweden, on Bainridge Island, two miles south of the place where Prewitt Baker disappeared, some months ago, the six-year-old son of Adolph Peterson was attacked by a cougar, yesterday. The child's eye was torn out, two of its fingers were bitten and his breast badly lacerated. The child is now in a critical condition and unconscious. Its screams attracted the attention of neighbors, and the animal ran into the woods when help arrived.

At the time of the disappearance of Prewitt Baker, the theory obtained credence in many quarters that he had been carried off by a cougar or some other wild animal. This suggestion was scoffed at because it was contended there were no animals on the islands.

He failed to remove the clothing from the body of Mary Weber, the clothing which was offered in evidence. It was stained with blood, partly burned, and stained by powder. He described the condition of the bodies and wounds. Large anatomical charts were shown to explain the testimony. The witness described the condition of the bodies and the wounds, and showed the course of the bullet which killed Julius Weber. He also identified the bullet. On cross-examination, witness said the burns on Mary Weber's body were produced after death.

Dr. Thomas M. Todd, who worked with Dr. Rooney in the autopsies, testified that Mary Weber's death was caused by hemorrhage from a bullet wound cutting the vein that carries the blood to the heart. He agreed with Dr. Rooney in this opinion. The wound would cause death in five minutes or less. He identified the bloody undergarments of Mrs. Weber and described the different points of entry and exit of the bullet. The death of Bertha Weber, he said, was caused by a bullet entering the wall of her chest and the left portion of her heart. Death from this wound would probably take place in one minute. The burns of Bertha Weber also took place after death, he said. He agreed with Dr. Rooney as to the burns on both bodies. The burns covered the portion of Bertha's body where the wound was. The wounds in both bodies were made by the same sized bullets. He described the wound in Julius Weber's body and agreed with Dr. Rooney as to the course of the bullet. The boy Earl died of suffocation, as the lungs had collapsed.

ESPEE TRAIN WRECKED,

ONE PASSENGER'S FACE CUT.

[BY THE ASSOCIATED PRESS—A.M.]

RENO (Nev.) Feb. 7.—West-bound Southern Pacific train No. 5 was wrecked at Verdi, Nev., at 7 o'clock this morning, the two engines, baggage and express cars and two day coaches leaving the rails. The wreck was caused by the rails spreading. The two day coaches slid down a twenty-five-foot embankment, but did not overturn.

One passenger was thrown through a window and had his face severely cut by glass, this being the only injury that resulted.

Traffic will be delayed for six or eight hours.

MINNEAPOLIS WOMAN'S LOSS.

[BY THE ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, Feb. 7.—E. M. Holbrook, a wealthy lumberman of Minneapolis, who, accompanied by his wife, had been spending some weeks in this city, started for home today. When about to board the Overland train, Mrs. Holbrook discovered that a casket containing jewels valued at $8000 had disappeared on the way from the hotel to the railroad.

The travelers placed the matter in the hands of the police, but so far the detectives have not succeeded in finding the slightest clew to the missing gems.

DASHED BOY TO DEATH.

COW TIED TO CHILD SCARED.

[BY THE ASSOCIATED PRESS—A.M.]

STOCKTON, Feb. 7.—George, the twelve-year-old son of J. M. Wilke, living about two miles southeast of Lodi, met a horrible death last evening. He was leading a cow home, and had tied the rope about his body. The animal took fright, and, running about among the trees of the orchard, dashed the boy to death. His brains were dashed out and every bone in his body broken. The clothing was completely torn off, and when the boy's body was discovered an hour after the accident many of the trees in the orchard were found to be spattered with blood.

There was no evidence that the body had been hooked by the cow.

Woodworth of this city has filed with the Department of Justice a formal complaint against United States Immigrant Commissioner North at this port, to the effect that North allowed six Chinese women, important witnesses in a case now pending to go to China, instead of detaining them here.

DIVIDES HOCH'S HORRID HONORS.

MATRIMONIAL JUGGLER LIKE JOHANN IN CHICAGO.

Discovery Tends to Curtail List of Forty Wives Said to Have Been Disposed of by Bluebeard No. One. Another Much-kissed Victim of Johnnie Comes Forth With Tale.

[BY THE ASSOCIATED PRESS—A.M.]

CHICAGO, Feb. 7.—The Chronicle today says: "that there is another matrimonial juggler in Chicago like Johann Hoch may soon be established through a discovery just made by the police. This discovery incidentally necessitates checking off one of the many aliases claimed to have been used by Hoch under which name he was reported to have married Mrs. Mary Schultz of Argos, Ind., in 1900, a woman who has never been seen nor heard of since the month after her marriage. Other of his aliases may be checked off in the same way later.

"Albert Bushteberg, or Buschberg, is the name which Hoch was believed to have once used. The police have learned that another man, also a German, who advertised for wives in German newspapers on the Hoch plan, used this alias. This man is now in Chicago and is declared to be married to a woman whom he met by means of an advertisement in the newspapers and through communication with employment agents.

"Inspector Shippy, who found Bushteberg and talked with him once, has begun an investigation into the Argos case. He is satisfied that Hoch never used the alias and has evidence to prove that a man now under surveillance advertised and wrote letters to women in Chicago, representing himself as Albert Bushteberg.

"Curtailing the Hoch list of forty wives already has been begun by the police. When the process is over it is expected that there will be about ten women who can be identified positively as having been married to Hoch."

STILL ANOTHER VICTIM.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, Feb. 7.—Among the numerous women now coming forward in the vicinity of New York claiming that a man answering Johann Hoch's description married them several years ago is Mrs. Wilhelmina Rummler of Carlstadt, N. J. She has not yet seen the prisoner, but has examined his pictures. Mrs. Rummler claims to have lost $8000 in her matrimonial venture and is now almost penniless.

"On May 27, 1903," she said, "I had a prosperous florist's business in West Nyack, N. Y. A man applied to me for a job as foreman. He gave his name as Johann C. O. Schultze and said he came from Chicago. His manner of talking charmed me and at last he proposed and I decided to become his wife. Twenty minutes after the ceremony my husband asked me if I had any money. I told him that I had $8000 and within the next week he had drawn it and told me that he had just $6000 more and that he was going to put the $12,000 in a safe investment. He spoke so nicely and kissed me so often that I believed him.

"Every day he would go to the post-office himself and return with dozens of letters. He never allowed me to read any of them. On December 22, 1903, Schultz disappeared. I heard later that he had been seen in Cincinnati and threatened to kill me if I did not keep silent. Since that day I never spoke of him.

"That man stole every penny I owned in the world and I was left alone with my three children to make my living."

WRECK OF A UNION.

The wreck of the Pickers', Shippers' and Hamhouse Workers' Union was begun in Justice Underwood's court today, when Hugh Call, former treasurer, was prosecuted for a shortage of funds. Call said that during the stockyards strike he failed to receive any of the benefit money, and reserved the amount thus due him from the union funds. William Brooks, one of the trustees testified that there were 1400 members of the union when the strike began, and that at the present time there were but thirty.

RECEIVER'S CERTIFICATE ORDER

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, Feb. 7.—Judge Lacombe, in the United States Circuit Court here, has signed an order empowering Edwin C. Foster and Pearl Wight, ancillary receivers of the New Orleans Railway Company, to issue receiver's certificates to the amount of $500,000. These receipts are to be a lien on the assets of the New Orleans company, following any previous receivers' certificates that may have been issued.

According to the order of the court, made in conformity with orders issued by Federal courts of New Jersey and Louisiana, the certificates may be issued to any amounts deemed convenient by the receivers, and are payable on or before January 1, 1906, and to bear interest at 6 per cent. The money is to be used for betterments and equipment.

VANDERBILTS GO ABROAD.

ROCKEFELLER "INFLUENCE."

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 7.—[Exclusive Dispatch.] The World says that William K. Vanderbilt and wife and Mr. and Mrs. W. K. Vanderbilt, Jr., sailed today on the steamship Deutschland for Europe, where they will remain until fall. From now on, William K. Vanderbilt, Sr., will devote less attention to the details of the management of the Vanderbilt system and more time to recreation and travel. During the present winter, the executive departments of the great railroad system have been thoroughly reorganized. The Vanderbilt interest is less than it has been at any time since William H. Vanderbilt disposed of a substantial share of the holdings accumulated by his father, the commodore.

During the last two years the Rockefeller influence in the system has steadily increased, until now it is equally as strong as that of the Vanderbilt family. The Rockefellers began to buy into the New York Central about three years ago, and last spring their purchases were especially heavy. At the time the accusation was made in Wall street that the Standard Oil influence was depressing the value of the stock for the purpose of accumulating it in open market.

It is probable that James Stillman will, at an early date, become chairman of the Finance Committee, and that the Rockefellers will exercise very careful supervision over the property heerafter, pursuing a policy of economy.

It is understood that the Rockefellers insist upon having their own representatives in the company and carrying out the methods in its management which have been in use in the Standard Oil Company for many years.

ST. LOUIS STREET RAILWAYS.

NEGOTIATION FOR PURCHASE.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, Feb. 7.—Negotiations are, according to the World, under way between the North American Company and Brown Bros. & Co., for the purchase by the former of control of the $90,000,000 street railway system of St. Louis. Satisfactory progress is said to have been made, but there are several obstacles to be overcome, and pending a settlement of these, it is understood no formal statement will be made.

The North American Company recently bought control of several lighting and power corporations in St. Louis. It also operates public utilities in many other large cities of the Central and Far West.

HE USED MAILS TO DEFRAUD.

CHICAGO, Feb. 7.—While postoffice inspectors were searching for John M. Burnett, the man was working in the Federal building, drawing money from the government as an expert tile setter. He has been arrested charged with using the United States mails to defraud unsuspecting women in Pittsburgh. It is alleged that Burnett, with another man, operated the "Colonial Manufacturing and Supply Company" of Pittsburgh, by which they were able to secure thousands of dollars from women, each of whom sent them $2 for material for crochet work and fancy needlework. Burnett was taken before Commissioner Humphrey and waived examination. He was returned to Pittsburgh.

BLACKENING DETECTIVES.

Defense in Bribery Inquiry Again Holds Forth.

Grand Jury Investigating the Charges Against Solons.

Vaccination Bill Passes Senate. Assembly Doings.

[BY THE ASSOCIATED PRESS—P.M.]

SACRAMENTO, Feb. 7.—So great was the crowd which endeavored to hear the bribery investigation testimony in the Senate chamber tonight that the doors were closed at 7:30 o'clock. After that hour only the members of the Legislature and their friends and persons connected with the

MAYOR SCHMITZ TAKES THE OATH

CHAS BELSHAW CHAIRMAN OF THE COMMITTEE.

trial were admitted to the room. Despite the precautions to keep down the crowd, the floor and lobbies were filled to standing room, fully half of the spectators being women.

At 8:15 o'clock Chairman Belshaw declared the meeting open. He announced that on account of indisposition Senator Digg, a member of the board of inquiry, had been excused for the evening.

A. Wehe of Berkeley, who was called by the prosecution, was the first witness. Between 1892 and 1902 he had been District Attorney of Sierra county. He had known Henry Hartling, the detective who swore to seeing Senators Bnukers and Emmons take money, for forty years. According to the witness, Hartling's reputation for truth and veracity was good.

The witness, in answer to questions by the prosecution, stated that C. W. Cross, who gave Hartling a bad reputation on the stand last night, was an attorney in the Ervine murder case of Downieville, in which Hartling was a detective on the opposite side.

Attorney Cator cross-examined Witness Wehe for the defense, bringing out the admission that Hartling had made two entirely different statements during the Ervine murder trial.

C. C. Nichols, a railroad conductor who swore at last night's proceedings that he had been discharged for stealing $2.50 which he claimed had in reality been stolen by George N. Tichnor, a detective employed by the prosecution, was recalled to the stand. The defense used the witness to corroborate some important testimony given last night.

W. H. Daley, a San Francisco bookkeeper, said he would not believe Hartling under oath, although he had no seen the detective for seven years.

Attorney McNab of the prosecution took considerable time to belittle the witness, to the great merriment of the spectators.

GREAT THRONG IN CHAMBER.

A throng that filled the chamber and corridors was so great by 9 o'clock that the sergeant-at-arms had considerable difficulty in bringing the witnesses to the bar.

After a long wait, Dr. A. F. Schafer of Bakersfield was called to the stand. He said he would not believe George N. Tichnor or any other private detective under oath. The witness admitted that he was a member of a gang of sixteen who had shot at oil-land squatters in the Midway district, near Bakersfield. Dr. Schafer would not say that he had fired the bullets that had wounded the squatters.

C. CORBIN TELLS HOW HE DID IT

"Whom did you shoot at, Dr. Schafer, during the oil-land trouble?" asked Attorney Frank Gould of the defense.

"One of the men was Connell."

"Do you know him?"

"Well, I ought to. He not only shot at me durin the oil-land trouble, but six months ago, as well."

The witness proved to be a poor one for the defense, declaring in conclusion that he knew nothing derogatory to the character of Detective Tichnor.

E. Rousseau of Bakersfield characterized Detective Hartling as a "traitor and a spy whom he would not believe under oath."

J. W. Briscoe of Bakersfield declared he would not believe Detective Hartling under oath.

Tichnor was also given a bad reputation by E. J. Boust of Bakersfield.

As Boust was being examined one of the attorneys for the defense accused the counsel for the prosecution of interrupting the witness in his answers.

"I am tired of this bantering between lawyers," interrupted Chairman Ralston, as he rapped his gavel for order.

"During the oil land trouble in Bakersfield," said Boust, "Tichnor attempted to connect me with wrongdoing. I was innocent, but Tichnor said he would make it an object for me to confess to something I had never done. He offered to bribe me to tell an untruth."

SHORT OF WITNESSES.

Attorney Cator stated at this juncture that as he had but five more character witnesses to examine he preferred to wait until the persons who had been subponaed in Downieville arrived.

Bert Schlessinger, who is to be a witness for the defense, was reported ill, but it was stated he would probably be present at the investigation tomorrow night.

On account of the fact that other witnesses who had been subponaed did not answer the call of the sergeants, Chairman Belshaw declared that citations for contempt would be issued if they did not appear tomorrow night.

Joseph S. Jordan, who is accused of having passed the bribes to the Senators under trial, was reported to have been excused as a witness for the evening.

An adjournment was then taken until tomorrow at 8 o'clock.

CHARGES AGAINST SENATORS.

GRAND JURY INVESTIGATING.

[BY THE ASSOCIATED PRESS—A.M.]

SACRAMENTO, Feb. 7.—The charge of bribe-taking preferred against Senators Emmons, Wright, Bunkers and French is under investigation today by the grand jury of Sacramento county. The entire day is being spent by the jurors in examining witnesses who were called by the investigating committee of the Senate to substantiate the charges presented by the affidavit filed by William Corbin.

This morning Clarence Grange, secretary of a San Francisco building and loan association, who declared that he raised the money said to have been

SENATOR EMMONS ONE OF THE ACCUSED

passed to the Senators through Joseph S. Jordan, was closely questioned. Attorney Gavin McNab has been called to tell what he knows of the allegations of bribery, and this afternoon Henry Hartling and George N. Tichnor, the detectives who swore they laid the trap for Jordan and the Senators, were called to reiterate their story to the effect that they saw the money given by Jordan to Senators Emmons and Bunkers.

The greatest secrecy is being maintained regarding the investigation into the bribery scandal, and it has not been learned who has been subpoenaed on behalf of the defense. It is expected, however, that the accused Senators will be called before the grand jury before the investigations are concluded.

B. U. Steinman is foreman of the Sacramento grand jury, which is composed of the following: G. E. Hook, Charles Baumgarten, William Calder, Carl Matthison, George Phillips, Henry A. Mohr, Herman Fisher, P. M. Rooney, L. F. Breuner, Alexander McDonald, D. H. Miller, F. H. Krebs, W. R. Gore, Julius Gattan, George G. Locke, William Schaw, D. Gillis, Peter Flaherty.

THE LEGISLATURE.

THIRTY-SIXTH SESSION.

[BY THE ASSOCIATED PRESS—A.M.]

SACRAMENTO, Feb. 7.—SENATE—Senator Leavitt's bill repealing the law compelling school children to be vaccinated was finally passed by the Senate today. The vote was 22 to 15. A spirited debate occurred during the last consideration of the measure.

The report of Senators Woodward Pendleton, Haskins, Sanford, Muenter, Markey, Welch, Coggins, McKee, Nelson and Irish, as a special committee to visit and report upon the condition of State institutions in the Southern

GRANGE SECY OF BUILDING LOAN SAYS HE PUT UP THE DOODLE MONEY

part of the State, was filed this morning.

It contains, among other things, this stricture upon W. Almont Gates, Secretary of the State Board of Charities, and corrections who resides in Berkeley:

"While possibly it may not be within the province of the committee, the committee cannot refrain from commenting on the executive officer and Secretary of the State Board of Charities.

"From information that has to come to this committee, we conclude that the members of the State Board of Charities are all most estimable gentlemen, having at heart the welfare and upbuilding of State institutions under their supervision.

"If any criticism can be made it is that they have placed too much authority in the hands of the secretary, who, in the judgment of this committee, misconceives his duties. He has apparently assumed the role of a Hawkshaw or Pinkerton detective and seems to feel that it is his duty to ferret out all the little errors of judgment or delinquencies of the management of the various institutions to which he has access, and hold the management of these institutions up to public criticism and condemnation not deserved, instead of kindly pointing out these errors and showing the managers how they can be improved upon and corrected. His methods have been such that he has aroused a spirit of resentment and rebellion, so to speak, in these institutions against his methods and created such hostility that this committee is of the opinion that his usefulness as a State officer is at an end and his future services should be dispensed with."

The report was ordered published in the journal.

ASSEMBLY—An attack was made on the State Board of Charities and Corrections this morning by Atkinson, who introduced a resolution looking

HARRY BUNKERS LISTENS TO THE TESTIMONY

toward the abolishment of the board. The resolution is based on an article in a Los Angeles newspaper, in the course of which it appears that the State Board criticised the Assembly Committee on Public Charities and Corrections which recently made a junketing trip to Whittier reform school. In the article the board appeared to be accusing the legislators of having "but a hazy notion of why they had come to the Southland, except for a good time."

The resolution then continues:

"Whereas, the State Board of Charities and Corrections is a creature of this Legislature, instituted at the expense of the taxpayers of this State for the purpose of enlightening this Legislature upon the conditions of the public service and institutions, and

"Whereas, the insulting statement above quoted indicates that the members of said board are forgetting not only the consideration due this Legislature, but their duty.

"Be it therefore resolved, that this matter and this resolution be referred to the Committee on Commissions and Public Expenditures, with istructions to investigate and bring into this Assembly a bill providing for the abolition of such State Board of Charities and Corrections by repealing the law under which such board was constituted, providing the committee finds such action desirable."

The resolution was referred to the Committee on Commissions for action.

Another effort was made in the House today to shut off the pay of members who absent themselves without excuse. Assemblyman Drew renewed his resolution, providing that members may draw their warrants for only the actual days they sit in the Legislature. The author of the resolution said the State had lost thousands of dollars last Saturday because so many Assemblymen had played truant. Assemblyman Chandler admitted he had been absent Saturday and ought to be made to forfeit his pay. Espey made the same confession, but was not willing to forfeit his pay unless the other members agreed to do so. On roll call, the resolution was lost by a vote of 31 to 29.

BILLS INTRODUCED.

IN SENATE AND ASSEMBLY.

[BY THE ASSOCIATED PRESS—A.M.]

SACRAMENTO, Feb. 7.—Several bills were introduced in both houses today. Among the measures presented in the Assembly were the following:

By Olmstead—Authorizing the employment of convicts and inmates of reform schools.

By Olmstead—Providing for the exchange of commodities between public institutions of the State.

By Committee on Public Buildings and Grounds—Appropriating $10,000 for building a photograph laboratory at Mount Hamilton.

By Duryea—Limiting horse racing to the first ten days of September.

By Waste—Relating to voluntary withdrawals of stockholders and members from land and building corporations.

By Drew—Appropriating $150,000 for the erection and maintenance of a sanatorium for the treatment of curable cases of tuberculosis.

SENATE BILLS.

Among the bills introduced in the Senate today were the following:

By Ward—Making the vaccination of school children compulsory, except in cases of physical weakness.

By Wolfe—To authorize action against any board or commission in the State.

Money for Witnesses' Mileage.

SACRAMENTO, Feb. 7.—An appropriation of $1500 to pay for mileage of witnesses subpoenaed to appear at the investigation of the Senatorial bribery charges was passed by the Senate today.

Decide to Extend Patronage.

SACRAMENTO, Feb. 7.—After a protracted caucus held by the Republican majority of the House this afternoon it was decided to extend the patronage by appointing two additional assistant engrossing and enrolling clerks. Several days ago the same proposition was defeated by a decisive vote.

No Visit to State University.

SACRAMENTO, Feb. 7.—As the result of a conference by Waste of the Assembly and Lukens of the Senate, no visit will be made by the Legislature to the State University this session. Although President Wheeler is anxious to entertain the Legislature, the press of business before both houses makes the acceptance of the invitation impossible.

State Tax on Liquor Traffic.

SACRAMENTO, Feb. 7.—The special committee on taxation and revenue today decided on a compromise bill providing for State tax on the liquor traffic. The bill was introduced in the Senate by Ward and in the House by Goodrich. The measure provides for an annual license of $100 for wholesalers, $50 for retailers and $20 for small retailers whose sales do not exceed $500 a year.

To Report Back Ralston's Bill.

Do not form the idea that you must work for some one else all your life. Put your savings where they will make you independent some day.

This undoubtedly is what will follow your failure to take advantage of an exceptionally good opportunity to obtain large profits from a small investment. Indeed, many already have this doleful song to sing as a result of procrastination in the matter of buying stock in the Goldfield-Herald Mining Company. We offered you shares in this company less than three weeks ago at 1½ cents; one week ago 2½ cents and today at 5 cents. This statement alone should show the value of this very desirable stock. While the percentage of profits on this investment at 5 cents a share will not figure as high as if bought at 1½ cents, still your business judgment must readily convince you that shares purchased now will participate in the profits accruing from additional advances which are sure to come. Remember, only a few days more remain in which to buy these shares at this price.

Do not let your skepticism cause you to pass up an opportunity when your better judgment convinces you that it would be a good investment.

Story of the Goldfield-Herald Mining Company

This corporation was formed in January for the purpose of taking an option to buy 2½ claims consisting of 50 acres of the best land located adjoining or near all of the best claims in this world-wonder, Goldfield, Nevada, mineral belt. Stock was later placed on the market to raise funds for the purchase of the property and for defraying the expense of development work.

In securing an option on these two and one-half claims known as the Black Wonder Nos. 1 and 2, and the Goldstone Fraction, the incorporators were fortunate in having the purchase price set at a very low figure. This came about owing to the owner being a non-resident of Nevada, and apparently not knowing the full worth of his land.

When James R. Boall, cashier of the Goldfield Bank and Trust Company, was asked to investigate the claims and their prospects for yielding valuable ore, he stated that apparently these properties were were the best in Goldfield. He said that the Black Wonder Nos. 1 and 2 and the Goldstone Fraction adjoined the Black Butte and Vernal claims, which are now being worked and are yielding enormous gold values. In referring to the Black Butte claim he reported that it was more like a real gold mine than any he had yet seen.

Unlike other corporations, the Goldfield-Herald Mining Company has set aside no money for promotion purposes. The company is capitalized at 1,500,000 shares, and the full amount derived from stock shares is to go toward payment of the land and development work. The latter is to begin soon, after which time a rich strike will be expected any day.

If you desire further information regarding this wonderful new gold mining country, write us today. Do not delay! We are always pleased to answer all inquiries honestly and satisfactorily, we court investigation of any and all statements made either through advertisements or literature. Our best advertisement is our hundreds of satisfied clients.

Help Us Prove This Property the Richest in Goldfield

Help us to make this property the richest in GOLDFIELD.

We offer you an interest at a very small figure in one of the greatest mining countries ever discovered. Stock of one of the most reliable mining companies offering stocks to the public today; a company that has low capitalization, only 1,500,000 shares, with a par value of $1 each, fully paid and forever non-assessable. All is treasury stock; that is, all money derived from stock sales will be used to develop the claims owned by the company until such time that the property is on a self-supporting and dividend-paying basis. A company that will furnish to its stockholders regularly a monthly report containing actual conditions of the amount of progress being made at the mine; a company that elects its Board of Directors from the list of stockholders; that owns claims located adjoining other claims which are paying enormous dividends; that will incur no debts; that is soon to commence development work and is likely to make a strike any day.

The small sum of $25 will buy 500 shares at the present time. For $50 you can buy 1000 shares. The fact that you do not have the ready cash to buy a small interest in this desirable stock is no excuse whatever for neglecting to take advantage of this most exceptional opportunity. Our installment plan is at the disposal of all those desiring to take advantage of it. A small sum down for instance and the balance at so much a month.

Call, write or telegraph us your orders for stock at once. The present price of 5c a share will not last long before another advance. Get in now and double your money right on the start as others have done who bought when this stock was first offered at a still lower price. If you desire further information write today. This is the opportunity of a lifetime to invest your savings where they will have a chance to make you independent some day. We give you the opportunity—you must do the rest.

A Few Reasons Why You Should Make a Good Investment

We know that you do not want to think of working for someone else all your life. Put your money where it will earn you something for the rainy day that comes at least once in every person's life.

Perhaps you are working on a salary which is not large enough to permit you saving a sufficient amount to buy a business of your own. We give you the opportunity to invest a small sum where it may put you in a financial condition to buy almost any business you choose.

Do not hesitate to invest because you have such a small amount of money. Many have done this for years and they are as far or farther off now from the desired goal than ever before.

"First investigate the proposition and then get in at the start"—Jay Gould's advice to a friend concerning the purchase of stock.

No man ever amassed a fortune by saving. To make money you must invest. We offer what we consider to be one of the best propositions ever put before the public. We believe that a few dollars invested now will be worth many times the amount invested before many months.

If you have a mother, father, wife, brothers or sisters dependent on you for support you owe it to them to invest a few dollars of your savings where they will bring an income when your salary no longer continues.

Opportunity is peculiar. It comes to you when it chooses. To some it comes once, to others twice and maybe three times. Do not neglect its first call, thinking you are one of the latter. Take advantage of it, then if you get another call you will be in a better financial position than ever to take full advantage of it.

THE ROANOKE

A NEW STEAMER FOR SAN FRANCISCO . . . .

The Merchants' Independent Steamship Line, of 236 South Spring street, have made a valuable addition to their line of Steamers running between this city and points north. This is the beautiful new twin-screw steamship ROANOKE. One of the largest and fastest boats on the Pacific Coast. Her running time between San Pedro and San Francisco is twenty-two hours. This boat will make her next trip from San Pedro on February 10th, and will go direct to San Francisco, Eureka, Coos Bay and Portland.

The ROANOKE carries 300 passengers, and the appointments are the finest to be had on any steamer on the Pacific Coast. Every care is taken for the comfort of passengers, and there are no inside rooms on this vessel.

This Steamer will arrive at East San Pedro on February 10th, where she will be open for the inspection of the public. The officers will gladly show anyone through the boat, if they desire to inspect her.

cumbrance upon it. Immediately thereafter, however, Senator Bard offered his amendment, striking out that part of the bill joining Arizona and New Mexico.

That was the real start of the battle. Senator Hopkins of Illinois opened fire upon it, and there was a general debate. Senator Bard contented himself with merely explaining what his amendment, as offered meant, and the debate went along with some spirit for an hour or more, when the vote was taken. Senator Bard's amendment was agreed to by 42 to 40.

IN THE SENATE.

In order to understand what happened after that it is necessary to remember that the Senate, in taking up and voting upon the amendments upon bills, first does so in what is called the committee of the whole, and then reports the amended bills to the Senate. When the Statehood Bill was reported to the Senate with Senator Bard's amendment tacked onto it, some remarkable things happened. Senator Kearns of Utah offered an amendment setting off from Arizona all that section lying north of the Colorado River and attaching it to Utah, thus giving Utah valuable water rights. Then, in the Senate, Kearns did not vote for Senator Bard's amendment, and on motion that Mr. Bard's amendment be agreed to there was a the vote, 38 to 38, which left the bill exactly as it was before, and provided for the joining of Arizona and New Mexico into one State. This flop made things look dizzy, and when everybody was pretty well tangled up trying to keep track of what was going on, Senator Bacon of Georgia offered an amendment striking out all reference to Arizona and New Mexico. That was debated for a while, and bitterly opposed by Statehood boomers, of course, and then, when the vote was taken, it was actually carried, by a vote of 39 to 36. This left the Statehood Bill trimmed down so that it provided for only one State and that to be made by joining Oklahoma and Indian Territory.

SENATOR BARD'S FORETHOUGHT.

Probably the bill in this shape would have gone to final passage, but it did not suit Senator Bard, who feared that, at the next Congress, a bill joining New Mexico and Arizona into one State would come along. His object was to settle today forever that Arizona is to be a State alone, and in order to do, it was necessary to dispose of New Mexico somehow. So he amended his own amendment by striking from it some matter that is already in the Constitution of the United States, and again offered, in the Senate this time, and not in the committee of the whole as a new amendment. The presiding officer of the Senate ruled that it was in order, and after Senator Beveridge had made some show of a sharp attack upon Senator Bard the latter's amendment was agreed to a second time, thus creating two new States, one out of Indian Territory and Oklahoma, and the other out of New Mexico.

Senator Beveridge tried to have the vote reconsidered, but his motion was laid upon the table, on motion of Senator Foraker of Ohio, and the bill was finally passed with Senator Bard's amendment incorporated.

NOW FOR THE HOUSE.

As matters stand tonight, Arizona is saved, if the House will agree to the amendments made in the bill by the Senate. Upon that point there is a vast difference of opinion in Washington tonight. It is understood that Speaker Cannon is strongly opposed to the bill as it now stands. On the other hand, there is a pretty strong sprinkling of Republicans in the House who are in favor of the bill, and will fight for it as it stands now, with Bard's amendment on. These Republicans will fight hard. They will have with them, to start with, the solid Democratic vote of the House. They need only twenty or so Republican members to pass the bill in its present form, and so make Arizona secure. There are five California Republicans who can be counted upon. It is believed, to not only vote for the bill as it stands now, but to fight for it. The Washington and Oregon delegates will probably stand for it. Because the bill provides Statehood for Oklahoma and Indian Territory, it is believed that Kansas and Missouri Republicans will fight hard for it.

If all those State delegations stand for the bill, it will be passed, and within one week will go to the President for his signature.

THE CONGRESS.

CLOSING SESSION.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, Feb. 7.—SENATE—Under the agreement previously reached, the Senate entered upon the consideration of the amendments offered to the Joint Statehood Bill immediately after convening at noon today. That agreement provided that the entire day's debate be given to the consideration of the amendments to the bill under the ten-minute rule, and that a vote shall be taken upon all the amendments and upon the bill itself prior to the adjournment of the day's session.

The first amendment considered prohibits the sale of liquor in the Indian Territory for ten years. Mr. Gallinger offered an amendment as a substitute for the committee's provision, making the time twenty-one years and extending its operation to the entire State. The substitute was debated by several Senators, including Messrs. Gallinger, McLaurin, Stone, Carmack, Morgan and Clay.

Mr. Stone advocated the amendment. Mr. McLaurin opposed it as an interference with State rights, and Mr. Morgan said he would favor it if domestic wines could be excepted.

Mr. Teller and Mr. Spooner spoke in support of the substitute, and Messrs. Berry, Bacon, Heyburn, Foraker and Mallory opposed it. The opposition was based on the ground that the provision contemplated an interference with the police powers of the State. The substitute was carried by a vote of 41 to 29. There was no division on party lines on the vote.

HOUSE PROCEEDINGS.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, Feb. 7.—HOUSE.—In accordance with the rules adopted yesterday, the House today, in committee of the whole, convened an hour earlier than usual, the exclusive business for the day being debate upon the bills regulating freight rates. Mr. Richardson of Alabama continued his speech, begun yesterday. He discussed the legal points involved. It was, he said, in the Federal courts that the railroads get their protection. The special court proposed by the Townsend bill he characterized as a fifth wheel in the judicial wagon, with no necessity for it, except to embarrass the movement for equalizing rates. Mr. Richardson denied that the Davey bill embodied any of the provisions of the so-called Hearst bill.

Mr. Rainey of Illinois vigorously asserted that it would not have hurt the Davey bill if the Democrats had incorporated in it every proposition of the Hearst bill, because it represented "the present progressive and radical tendency of the Democratic party in the United States." He supported the Townsend bill because it was more in harmony with the radical tendencies of the Democratic party, and opposed the Davey bill because it did not provide for a special court.

Mr. Stevens of Iowa threw the brunt of the responsibility for the present condition of affairs principally upon the railroad directors, who, he said, did not seem to realize their relation to the public, but had only the one thought in mind of a sufficient financial return for the interests they represented. The traffic managers, he declared, were obliged to earn the utmost out of their properties, in order to hold their positions. Many of these men, he said, had told him that neither the President nor directors of their roads had ever directed them to change a rate. He would support the Townsend bill, but he anticipated it would not afford much help to the shipper in its present form. It would, he said, operate more psychologically than actually.

FOR SURVEY OF PHILIPPINES.

THE PRESIDENT RECOMMENDS A BOARD OF OPERATIONS.

Says in Message to Congress That It Should be a Matter of Pride to the Government of the United States to Describe Entire Region. Transmits Draft of Bill.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, Feb. 7.—The President today sent the following message to Congress:

To the Senate and House of Representatives: Circumstances have placed under the control of this government the Philippine archipelago. The islands of that group present as many interesting and novel questions with respect of their geological and mineral resources as any region of the world. At my request, the National Academy of Sciences appointed a committee to consider and report on the desirability of instituting scientific explorations of the Philippine Islands. The report of this committee, together with the report of the Board on Scientific surveys of the Philippine Islands, including the draft of a bill providing for surveys of the Philippine Islands, which board was appointed by me after receiving the report of the committee appointed by the National Academy of Sciences with instructions to prepare such estimates and make such suggestions as might appear to it pertinent in the circumstances, accompanies the message.

The scientific surveys which should be taken go far beyond any surveys or explorations which the government of the Philippine Islands, however, completely self-supporting, could be expected to make. These surveys, while, of course, beneficial to the people of the Philippine Islands, should be undertaken as a national work for the information not merely of the people of the Philippine Islands, but of the people of this country, and of the world. Only preliminary explorations have yet been made in the archipelago, and it should be a matter of pride to the government of the United States fully to investigate and to describe the entire region. So far as may be convenient and practical, the work of this survey should be conducted in harmony with that of the proper bureaus of the government of the Philippines, but it should not be under the control of the authorities in the Philippines, for it should be undertaken as a national work and subject to a board to be appointed by Congress or the President.

The plan transmitted recommends simultaneous surveys in different branches of research, organized on a coöperative basis. This would tend to competeness, avoid duplication and render the work more economical than if the exploration were undertaken piecemeal. No such organized surveys have ever yet been attempted anywhere, but the idea is in harmony with modern scientific and industrial methods.

I recommend, therefore, that provision be made for the appointment of a board of survey to superintend the national surveys and explorations to be made in the Philippine Islands, and that appropriation be made from time to time to meet the necessary expenses of such investigation. It is not probable that the survey would be completed in a less period than that of eight or ten years, but it is well that it should be begun in the near future.

The Philippine Commission and those responsible for the Philippine government are properly anxious that this survey should not be considered as an expense of that government, but should be carried on and treated as a national duty in the interest of science.

MACHEN AND THE GROFFS.

THEIR START PRISONWARD.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, Feb. 7.—August W. Machen, former general superintendent of the free-delivery postal service, and Diller B. Groff of this city, both under sentence of two years' imprisonment and $10,000 fine for postal conspiracy, today surrendered themselves to the United States Marshal, and were placed in the cellroom of the City Hall. Samuel A. Groff, whose counsel sought to have his removal to the penitentiary deferred because of illness, was ordered brought into court, and later was placed in the cellroom with the others.

The case came up today in the Criminal Court on receipt of a mandate handed down by the Court of Appeals, directing the immediate execution of the sentence of Machen, Dr. Lorenz and the Groffs.

Attorney Maddox, for Samuel A. Groff, produced a certificate of two physicians, saying that he was not in condition to be moved from his house, and suggested that if the District Attorney wanted to imperil his client's life, as well as his liberty, he had better take a gun and go to the house.

Dist.-Atty Beach replied that Samuel A. Groff, his surety and his attorney had been advised of the possibility of this mandate for some time; that Samuel A. Groff had visited the District Attorney's office last Thursday, and that Groff's son yesterday communicated with the District Attorney's office to know what clothing his father might take with him to the penitentiary. Under these circumstances, the District Attorney suggested it was rather a sudden stroke of illness.

Mr. Beach insisted upon the immediate appearance of the prisoner, and he was sent for. Nothing has been heard today of Dr. Lorenz, who is reported ill at his home in Toledo, O. Machen and the Groffs will be taken to the Moundsville, W. Va., penitentiary this afternoon.

HEARING IN HEARST CASE.

TESTIMONY ABOUT A POOL.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, Feb. 7.—The hearing of arguments in the case of William R. Hearst of New York against the anthracite coal-carrying railroads, growing out of the coal strike of several years ago, began before the Interstate Commerce Commission today. Clarence J. Shearn of New York argued for the complainant, and contended that a pool existed among the railroads; that the coal-purchase contracts are really rate contracts, by means of which the railroads depart from their published rates and discriminate, and that the published rates are unreasonable.

He claimed that an increase in the price of coal of $1.14 a ton, such as has taken place in the domestic sizes during the past five years, means imposing an additional burden of $40,000,000 on the public. He pleaded for scrupulous observance of reasonable published rates as a matter of fair dealing between the railroads and the purchasers. He claimed that the coal companies were identical with the railroad companies.

Mr. Shearn applied the principle of the Northern Securities case to the case now under argument, contended that the Interstate Commerce Commission itself had "brushed aside the device of a subsidiary company, and had treated the parent company as the substance," and said the courts had held the Lehigh Coal Company and the Lehigh Railroad Company to be identical.

FIRST GOVERNOR-GENERAL.

TAFT SALUTES LUKE WRIGHT.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, Feb. 7.—Luke E. Wright of Tennessee is the first American citizen to bear the title of Governor-General in the Philippine Islands, the Philippine bill signed by the President yesterday authorizing the change of title he now holds, namely, Civil Governor of the Philippines. Secretary Taft today sent the following cablegram to the new Governor-General:

"I salute and congratulate the first American Governor-General of the Philippine Islands, and wish for him the same success which has attended his administration as civil governor."

The change of title from Civil Governor to Governor-General is made because there being no longer a military governor in the army, the term civil governor becomes an anachronism, and the creation of a large number of provincial governments in the islands with a governor for each makes the title governor-general logical for the chief official of the archipelago.

THEORIES ABOUT FOOD.

Also a Few Facts on the Same Subject.

We hear much nowadays about health foods and hygienic living, about vegetarianism and many other fads along the same line.

Restaurants may be found in the large cities where no meat, pastry or coffee is served and the food crank is in his glory, and arguments and theories galore advanced to prove that meat was never intended for human stomachs, and almost make us believe that our sturdy ancestors who lived fourscore years in robust health on roast beef, pork and mutton must have been grossly ignorant of the laws of health.

Our forefathers had other things to do than formulate theories about the food they ate. A warm welcome was extended to any kind from bacon to acorns.

A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best.

As compared with grains and vegetables, meat furnishes the most nutriment in a highly concentrated form and is digested and assimilated more quickly than vegetables and grains.

Dr. Julius Remmson on this subject says: Nervous persons, people run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other ana...l food in three hours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets, because they supply the pepsin and diastase necesssary to perfect digestion, and every form of indigestion will be overcome by their use.

That large class of people who come under the head of nervous dyspeptics should eat plenty of meat and insure its proper digestion, by the daily use of a safe, harmless digestive medicine like Stuart's Dyspepsia Tablets composed of the natural digestive principles, pepsin, diastase, fruit acids, and salts, which actually perform the work of digestion. Cheap cathartic medicines, masquerading under the name of dyspepsia cures are useless for indigestion as they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its forms is simply a failure of the stomach to digest food, and the sensible way to solve the riddle and cure the dyspepsia is make daily use at meal time of a preparation like Stuart's Dyspepsia Tablets, which is indorsed by the medical profession and known to contain active digestive principles.

All druggists sell Stuart's Dyspepsia Tablets at 50 cents for full treatment.

SIDE TALKS BY THE OFFICE BOY

The other day I asked Pa the definition of a "self-made man." "Well," said he, "there's Dr. Mary Walker, for example." I heard a man say once that some statesmen were self-made, but the majority of politicians were machine made. Our goods are all made for us, they're good goods because they're made the way we want them. We study the wants of our customers and try to look through their eyes when buying goods. We patronize only the very best makers and demand that only the very best material be put into Silverwood goods, because we guarantee every article we sell and agree to replace it or refund the purchase price if it don't fit or suit or wear as it should. This is going to be a Jim Dandy year. Everybody who half tries can put aside a little money this year. If you'd trade here and just take the saving you make in the difference in wear you'd have a nice little bank account at the end of the year. Suppose you try it.

HUNDREDS ON KNEE SEEKING SALVATION.

Great Religious Revival at High Tide, and All Meetings Crowded. Slashing Epigrams by Dr. Ostrom. No Partial Store Holiday.

WITH everything at high-tide the great revival meetings, with crowds equal to those that have filled the churches at any time since the campaign began, were in full blast last night in all the districts.

Boyle Heights has awakened from its talked-of season of inaction and the house was packed to the limit. The inquirers who responded to the appeals of Dr. Stough amounted to a multitude. The same was the result at Immanuel Church, and all others shared in the rising tide.

The effort to have the Merchants' and Manufacturers' Association reconsider its action, and acquiesce in the partial holiday on next Tuesday failed of its purpose, but the canvass continues among individual merchants and the holiday will be observed to the greatest extent possible in this way, and with the aid secured in the favorable action of the City Council.

The noon and afternoon meetings will be held today as they were yesterday, but tomorrow they will give way to the meetings of the Bible conference, which opens in the First Methodist Church at 9:30 in the morning and goes to Temple Auditorium for the noon meeting and also for the afternoon meeting at 3:30.

Evening meetings will be held according to the established schedule.

OSTROM'S EPIGRAM.

SABER SLASHES OF SATIRE.

Like blows from the saber of a Cossack fell the slashing epigrams from Evangelist Ostrom last night.

"I'm not so much interested in getting folks out of perdition as I am in getting perdition out of the folks.

"If you once get people full of heaven they won't fit anywhere else.

"It will do any man good to sit down now and then and have a talk with himself; give Brother Jones and Brother Brown a rest—train the guns on No. 1."

A large audience filled Immanuel Presbyterian Church, and when Dr. Ostrom closed his discourse the rush to the after-meeting in the chapel adjoining the auditorium crowded that apartment to the limit.

The singing of the splendid chorus under the direction of J. P. Hills improves daily and it was especially effective last night, while the solo of the director was tenderly impressive. The influence of music on the audiences is growing nightly.

Dr. Ostrom spoke at length on worldly sorrow which makes a man think only of himself.

"It is a great tribute to man that he is capable of sorrow," he said. "If a man were only capable of joy he would be like a violin with one string.

"Worldly sorrow is what troubles people who lay their feelings out six feet all around to get them stepped upon; who go down the street looking for someone to offend them; who go behind their doors and cry: 'Poor me; poor me.'

"Jealousy lies and doesn't know it lies; jealousy hatches lies without inoculation."

Filled with the fire of satire and ridicule he paid his respects to the people who talk of the narrowness of Christianity and boastfully flaunt the breadth of their own isms, or lack of them, and who decry all sentiment.

"If you intend to divorce your intellectuality from your sentimentality you'll make a sorry mess of it.

"Maybe you have braced your intellect a little but you have spoiled your character.

"The broad man is more than the man who whiffs the smoke and talks overdupois. I'm not sure that our modern great man is not a frozen man—too stiff to bend.

"I wonder in these days of stiff upper-lip if we're getting nearer intellectuality or nearer insanity.

"The broad manhood is different from that which is hide-bound and girt about with vanity, as it is in my friend, the man of affairs.

"God is calling for a great revival but it will not be greater because it is thinner.

"A broad religion will give due value to mathematics, but it will not undertake to saw the edges off the meaning of a mother's heart.

"Sorrow of the world will make a discussion of you—people never did treat you right; never did give the credit you ought to have. Poor you; you are pretty near dead with it now. Sorrow of the world; God pity us if we suffer from it."

To the man who said he would not get down in the dust to be a Christian, the evangelist gave this: "When you see the dust that's on you already you'll be glad enough to get up and shake yourself.

"Godly sorrow worketh repentance; it does not plunge you into a chasm.

"A broader manhood, a broader Christianity, a broader destiny, awaits the man who will take it by Christ's own programme."

SPECIALS IN SIXTH.

GOOD MUSIC AND TACKS.

Attractive special features marked the meeting at Olivet Congregational Church, in the Sixth District, where a large audience filled the church last night.

A. L. Miller, a harpist-evangelist, sang to his own accompaniment, "A Stranger to God," and "Nothing Can Ever Grow Old," to the great delight of the congregation, while R. N. Jeffrey gave a splendid rendition of "The Holy City." His voice was rich, smooth and powerful. The two choruses under his care in this district have made great progress in strong and effective work, and are valuable adjuncts to the services.

Evangelist Hobson gave an object lesson to the children, using a magnet and a varied collection of tacks to illustrate his several points. He had level-heads, flat-heads and brass tacks. The latter the magnet would not attract.

For the older folks Mr. Hobson preached a sermon from the text, "Thou art not far from the kingdom of God," and there were a number of inquirers after salvation.

STUDENT INQUIRERS.

GREAT MEETING IN THIEF.

The crowd was large at University Church, where the popular Evangelist Biederwolf holds forth.

The chorus under Prof. Maxwell is one of the best in the city, and it is quoted to its credit that every member has been present every night, and to this must be ascribed a great degree of its efficiency. "Some Great Day" was sung by Mr. Maxwell with much pleasure to the large audience.

Dr. Biederwolf was at his best and repeatedly moved his hearers to tears. His text was taken from Amos iv, 12: "Therefore, will I thus do unto thee, O Israel; and because I will do thus unto thee, prepare to meet thy God, O Israel."

Among the inquirers were many students of the university, for whom Dr. Biederwolf has a very tender side.

KNEEL IN AISLES.

BOYLE HEIGHTS SEEKERS.

Hundreds of eager listeners, crowding into the pews of the Boyle Heights Methodist Church last night, believed the impressive words of Evangelist Stough as he said, "My friends, this is God's hour."

No more aggressive campaign against sin is being carried on in this city than that now waged by the evangelistic host at Boyle Heights.

Seldom has a more impressive scene been witnessed than that of last night when, after an exhortation which severely taxed the physical powers of the speaker, scores flocked around the chancel and seekers were obliged because of the crush to kneel in the aisles while prayer was being offered in their behalf.

Those who have murmured because of the apparent lack of results in the fourth district were fully satisfied yesterday evening when the crowd of earnest inquirers overflowed the front seats and crowded their way toward the platform in response to the eloquent appeal from the leader of the meeting.

Old men with silvered hair knelt beside the striplings, mothers with their sons came forward and over the kneeling host the evangelist extended his hand in blessing as the choir sang "For You I Am Praying."

An interesting part of the meeting was the opening song service when the great throng was invited to sing in battalions from the churches represented. Presbyterians and Baptists, Congregationalists and Methodists separately sang their songs of praise, uniting at last in one grand chorus.

The speaker then told a story which served conclusively to prove him a member of every church. His grandparents, he said, were members of the Dutch Reform Church. His mother had been converted in a Methodist church and had afterwards married a Presbyterian. The evangelist had joined Mr. Moody's church in Chicago.

Mr. and Mrs. Lawson sang "He Died Because He Loved Me So," and W. H. Collison, leader of the large chorus choir, sang a solo entitled "Is It Nothing to You That Jesus Died?"

Repentance was the theme of Rev. Mr. Stough, and for more than an hour he held his listeners as he graphically described the results of a life of sin. The speaker used a number of touching stories which served to illustrate his points, and he was at all times intensely interesting as with dramatic force he delivered his message.

Speaking with a power that reminded many of the old-time enthusiastic camp-meeting oratory, the leader drove home his message with an almost fierce directness and sin was rebuked and the sinner was offered pardon by the man who is perhaps one of the most fearless speakers among the number now gathered in this city.

Coming to the very edge of the platform, the speaker raised his hand and said: "From this time forth I will preach against the sin of the people of Boyle Heights. If you only knew its awful thralldom you would repent and believe the gospel of glad tidings."

Here the leader with a power of oratory that stirred his hearers, described the advantages of life in Southern California.

"All that Almighty God can do for a country, He has done for Southern California," said he. "With prodigal lavishness He has poured out His bounty. It is wonderful, this land of sunshine and flowers. It seemed to me as we came down out of those icy mountains such a short time ago on our journey from the icy East, that we were dropping down into paradise.

"Why has God made this land so beautiful? That somehow He might speak through yonder sunshine and tell you of His bountiful love."

Rev. Stough will deliver a lecture this afternoon in the Boyle Heights Methodist Church to women only, on "Mother Eve's Daughters." Special music has been arranged and a ladies' quartette will sing.

THE HOLY SPIRIT.

STRONG ENOUGH TO HOLD.

Knox Presbyterian Church was the scene of the afternoon meeting in the University District yesterday. It was entirely filled with an audience of women and six men, who were attracted by the announcement that Dr. W. E. Biederwolf would talk on the Holy Spirit.

The evangelist spoke most earnestly and elucidated what is indeed a misty question to many professed Christians. He had a most intent and deeply-impressed audience and himself showed much emotion.

"'Spirit' is from the Latin word 'spiritus,' and means 'breath,'" said Dr. Biederwolf. When it is said a man gives up his spirit, he gives up his breath.

"If we were to say: 'he gives up the ghost,' it would be just the same, and in this view of it all the uncanny things sometimes associated with 'ghosts' disappear."

In starting in to remove some wrong idea associated with the Holy Spirit, Dr. Biederwolf said:

"First some people have the idea that 'holy' is the principle word, and that He is holy. That is not right. He is no holier than God or Christ. It is an official title, so called because he produces holiness.

"I tell you these things because I think we ought to be intelligent Christians. It is a sad thing that we know so little of God's Word.

"That the Holy Spirit is a person is conclusively shown by the words: 'Grieve not the Holy Spirit.' I am sure that one who appreciates the Holy Spirit is grieved to hear Him called 'it,' and it grieves Him. You wouldn't appreciate being called 'it,' would you?"

The evangelist cited two places in Romans where the word "itself" is applied to the Holy Spirit, in the old version of the Bible, but in the revised version the word is rendered, "himself" which, he said, is proper grammatical form.

He spoke of some professed Christians, who when they get in sight of death, begin to wonder whether it is really all true that death does not end all and express doubts as to the ability of the Holy Spirit to sustain them.

"It reminds me of a man crawling across the Mississippi River on his hands and knees, and wondering at every length whether the ice is strong enough to hold him. He hears somebody whistling and turning 'round sees a negro with a sled-load of pig-iron. Hold you? Of course it will hold you.

"It's about time some of us quit singing: 'I'll go where you want me to go,' and just walk a little bit in that direction."

WILL NOT CLOSE.

The Merchants' and Manufacturers' Association has adopted the following resolution relative to closing of stores next Tuesday and decided to adhere to it:

"Resolved, that it is the sense of this association that it is inadvisable to indorse the request of the committee representing the evangelists to close the stores of this city on Tuesday, February 14, between the hours of 11:30 a.m. and 2 p.m., as many of the larger firms have been interviewed and have expressed themselves as unfavorable to such action."

Accordingly the principal stores on Spring street and Broadway will not close. The merchants say that the 400 names on the evangelistic committee's agreement to close represent smaller dealers scattered about town. The principal business streets are not affected.

The merchants have compromised with the committee by promising to let all their employés who wish go to the meetings during the noon hours.

DISROBED BY MACHINERY.

Thrilling Experience of a Young Machinist While Plating in a Factory.

While at work in the plating department of the William H. Hoegee Company yesterday afternoon, Ralph Chamney, a young machinist, had the novel experience of having his clothes, with the exception of socks and shoes, completely removed from his body by centrifugal force, at the same time narrowly escaping death in a frightful form.

The young man was cleaning a rapidly revolving shaft, when his clothing caught on a set screw, and in another second he was whirling around the shaft with fearful velocity. Other employés, seeing the lad's danger, stopped the machinery, but not before every stitch of clothing, except his shoes and socks, was stripped from his body by the rapid rotary motion to which he was subjected.

Strange to say, the young man sustained no injuries except a few bruises. The police ambulance was called, but instead of being taken to the Receiving Hospital, Clamney was wrapped in a blanket and driven to his home where he donned a new suit of clothes.

Between the Covers of the

MARCH DELINEATOR

(Out To-Day)

a myriad of Styles for Spring await you.

THE DELINEATOR is absolutely unique among the magazines of the world. As far back as your grandmother's time it was the American Woman's arbiter of style in dress. During the decades since, it has witnessed the birth of scores and hundreds of other magazines for woman—and watched the decline and final disappearance of most of them.

THE DELINEATOR was the first of them all, and is to-day the only one that has forged steadily ahead in popular favor, with never a disappointment given or received.

Nothing succeeds in a big way unless there's a sound reason for it. THE DELINEATOR'S world-wide success is due to just two things.

It has always led instead of followed, and it has always given more to each year's readers than during the preceding twelvemonth.

Take even last year's issues—by far the best up to then. Compare March with March. For instance, our recent arrangement with the greatest of Parisian designers gives us upwards of two hundred exclusive models each month. From these our experts here select the best for you and include with them the products of our New York designers, the best there are in this country.

You find the present number giving 70 distinct new styles (65 last year), 7 Spring styles in full color (none last year), 10 special articles on dress topics (8 last year), 13 pages devoted to the kitchen (10 last year), 41 pages to woman's home interests (32 last year), 24 pages to the children (18 last year). Many more high class illustrations throughout the entire magazine, and every department bettered.

No woman who cares for her own appearance or that of her family, no man who cares for the appearance of any woman, no home with a child in it can afford to miss the March DELINEATOR.

To those of you who are still unfamiliar with "the most necessary magazine for woman" this is an urgent invitation to read carefully this issue. It will suggest to you that the future numbers will make up what you have missed in the past.

ACREAGE. ACREAGE.

Right at the gateway of Ocean Park, on Los Angeles-Pacific Railroad, thirty minutes from Los Angeles, where $1,000,000 is being spent in improvements. Do you know there is no investment so safe and as sure to increase in value as good acreage, near a popular beach town? Why buy a lot for $700 when you can buy an acre that will make six lots for less money? RANCHO DEL MAR Tract is all set to walnuts. We furnish you water free. All you want, 1 share of water stock with each acre of land. We have 20 H.P. engine, 12-inch well, pumping 75 inches of water. Others tell you they furnish abundance of water, but you have to pay for it. Remember when you make your purchase, that water is not only king, but it comes high when you have to buy it. Terms, ¼ cash, balance monthly or quarterly, just as you like, 6 per cent. interest. Our representative is on the tract. Take L. A. Pacific car Palms, Fourth and Hill, or call on the undersigned, who will be pleased to answer any questions concerning tract.

FOR SALE—
By San Gabriel we do not refer to the Mission of San Gabriel, which is largely a Mexican settlement, but those beautiful lands around the Mission. Here are located some of the best lands in Southern California, and a great many of the finest ranches. We have acreage for sale here at $300 an acre, with water and ¼ and ½-acre lots with oranges in full bearing on them for $700 and $800 a lot. These are all down, balance in 6 and 12 and 18 months. Acre lots improved at $300 an acre, and small ranches of all kinds and at all prices. The country is very beautiful now and a trip to San Gabriel will amply repay you even if you do not buy. Cars run from Sixth and Main sts. every half hour, and our representative at San Gabriel office opposite Old Mission) will be glad to show you anything you care to see.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

On Hill Below Tenth.

Anna W. Bixby has purchased of R. A. Fowler, through the C. J. Heyler Company, 52x155 feet, on the west side of Hill street, about 550 feet south of Tenth street, with a ten-room, two-story frame dwelling; consideration named, $20,000.

Streams Full—Ground Soaked.

The weekly climate and crop bulletin of the Department of Agriculture reports for Southern California the mountain streams running full, the agricultural lands well soaked and orange picking somewhat interrupted because of the recent storm.

For Brooklyn Heights.

It is stated in behalf of the Brooklyn Heights Improvement Association that the body is not hostile to Spanish-Americans. A resolution is quoted as recently adopted by the association, declaring generally against "the influx of undesirable residents," but not mentioning any race specifically.

Badgers to Frolic.

Wisconsin people will hold their annual reunion and picnic Saturday next at the outer end of the wharf at Long Beach, the clans gathering in the morning and joining at noon in a basket lunch. The roll of counties will be called and a programme of speech making and music will be given at 1:30 o'clock p.m.

Hotel Le Roy Sold.

Mrs. John W. Gibbs has sold to a local investor, through the agencies of W. H. Neiswender, Mines & Farish and Alexander MacKeigan, 46½x165 feet, on the east side of Hill street, about midway between Fifth and Sixth streets, with a twenty-seven-room, two-story frame hotel building, known as the e Roy; consideration named $55,000.

Burbank Burglary.

William Desmond and Blanche Hall, playing at the Burbank Theater, suffered at the hands of a burglar early yesterday morning. Doors to the dressing-rooms of the playhouse were broken open by thieves and wardrobes of several of the players were ransacked. Miss Hall says she suffered to the extent of $300 worth of jewelry and some lingerie. Desmond lost a pair of stage boots.

Spanish Paintings.

The Caballeria collection of old Spanish paintings brought to this country in the early days by the Franciscan fathers will be on exhibition at the Chamber of Commerce every afternoon this week from 1 until 4 o'clock. The exhibit, which will be made on the third floor, adjoining the Coronel collection, is for the especial benefit of delegates and visitors to the State Federation meeting.

Tree Fell on Him.

J. B. Joslin, whose home is on East Second street, is at the Emergency and General Hospital lying at the point of death from the effects of injuries received yesterday at Twenty-seventh and Hooper streets. He was felling a tree and failed to get out of the way in time. The falling tree caught him, pinning him to the ground. His chest was crushed and he sustained internal injuries from which he may not recover.

Catching up.

With the arrival this morning of the regular trains from the East, the demoralization caused by the recent storm to the local postal service will cease. Numerous trains arrived yesterday bearing mail that was from two to four days late, but it was handled promptly at the postoffice, owing to the fact that all of it had been sorted by the railway mail clerks while their trains were tied up by the floods in Arizona.

Hare and Hounds.

Running down Main street with two men yelling "Stop thief" at his heels, Gus Schultz, a bartender at Sixth and San Pedro streets, started a hare-and-hounds chase at 1:30 yesterday morning. Two policemen finally caught him in the rear of the old electric ticket office at Sixth and Main streets. He claimed that the men chasing him were hold-up men. He was fined $15 in the Police Court, however, as he was carrying a large revolver when caught.

Holding His Own.

In spite of discouraging reports given out earlier, Head Consul Falkenburg of the Woodmen of the World, who is seriously ill at the home of friends in this city, is making a stern fight for life. After paying his last visit to the patient yesterday evening, Dr. H. G. Brainerd dictated the following bulletin: "Mr. Falkinburg spent a very comfortable day; he has retained a fair amount of nourishment, and though delirious at times, has held his own for the past twenty-four hours."

San Diego Joyful.

A chortle of joy from San Diego to Secretary Frank Wiggins of the Chamber of Commerce came yesterday from the secretary of the San Diego chamber, who said that for the first time in years there is enough water back of the big Sweetwater dam to supply irgation needs for an entire year, and that the Cuyamaca and La Mesa reservoirs are filling rapidly. A stream of water five feet deep and 400 feet in width is flowing from the Tia Juana River into the ocean, and reports of wetness are received from all parts of the county.

For Newspaper Men.

The Pacific Electric Railway Company will entertain twenty-five newspaper men of Los Angeles on Sunday with a visit to Casa Verdugo at the end of the Glendale line, where a red-hot Spanish luncheon will be served. One of the new parlor cars is to leave the Pacific Electric building at 11:20 a.m. and after luncheon the semaphores on the whole system will be lowered and the pen-pushers may go wherever they please. Traffic Manager McMillan and Advertising and Industrial Agent Kneedler will do the honors for the company.

Signal Man on Island.

First street, west of Figueroa, is an impassible bog as a result of the rains and in several places the deep ditch, dug for the sewer which is being laid, has caved, leaving dangerous holes. The Glendale and Tropico street cars traverse this part of First street on a single track. In order to avoid collisions a colored signal man is perched on an island situated in the center of the mud district just on the corner of First and Figueroa streets. The dark flagman is an object of much interest to pedestrians, who hail him good-naturedly as he waves his signals in the performance of his duties.

Mimic Congressmen.

At the quarterly election of the Y.M.C.A. Congress last night the following officers were chosen: President, Walter E. Switzer; vice-president, Charles Doyle; secretary, Marcel Herbelin; treasurer and recorder, S. A. Adams; sergeant-at-arms, Fred Johnson. Rousing campaign speeches were made by speakers who placed in nomination the candidates for the presidency, Lewis M. Powell gaining the honors in naming Switzer. The congress will hold an oratorical contest Tuesday evening next at the Y.M.C.A. rooms, a new or second-hand book for the library being the price of admission.

Crushed Under Heavy Wagon.

Ed Holmes of No. 226 East Second street was crossing First street between Main and Los Angeles last night when he was run down by a heavy tank wagon of the Diamond Oil Company driven by Al Morrison. The tongue of the wagon struck him, knocking him down, and both wheels passed over his chest. Two of his ribs were fractured in such manner that pieces were driven against the lungs, and it will be necessary to perform a delicate operation to remove the shattered bones. He will be taken to the County Hospital today where the operation will be performed.

It Worked.

Two horses attached to a heavy load of lumber drew a sympathetic crowd on the First-street hill yesterday afternoon. The animals were struggling to move the heavy wagon and the driver was applying his long whip vigorously, when a well-dressed lady stepped through the deep mud to the side of the wagon and said to the driver: "That load is too heavy for those poor horses; won't you throw part of it off?" Her words worked a magic spell upon the angry man, who had refused to listen while the crowd threatened. His horses were turned down the hill and driven over to Second street, where the ascent was more easily made.

MID BANDITS AND HEATHEN.

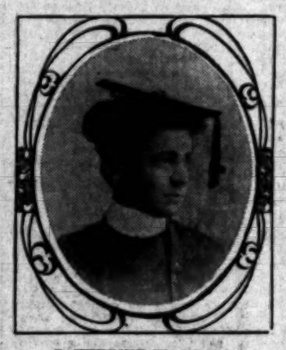
Thrilling Experiences of a Missionary Girl.

From Korea to Los Angeles Comes Miss Wambold.

Former School-teached Tells Interesting Story.

After nine years as Presbyterian missionary in Korea, Miss Catherine Wambold, who will be remembered in Los Angeles as a pretty and vivacious High School teacher, is home again.

One of the sweets of civilization she is now experiencing as a novelty is sleeping in a real bed instead of on a



CATHERINE WAMBOLD

wood floor with a club for a pillow.

It has been given to few women to fairly wade to the neck in such precious literary material. In this Korea of which no one knows much, she has lived in native families for weeks at a time without seeing a white person, speaking their language, living their life.

She has been held up, traveling alone, by a band of Korean bandits, and saved herself by her Yankee wit when her native servants were half dead with terror.

To her friends here she has told a fascinating story of the "home side" of the life she lived there, a girl alone.

It seems that the white women in Korea are hard put for clothes. They can't wear the Korean dress because Korean women of high caste are not supposed to be on the street.

OH, GEE!

The only dressmaker is a funny little Chinaman, Gee.

Gee is not very strong on styles; sometimes a woman gets a pattern from the States or from Europe and rushes off to Gee with it.

Wherefore, when one goes to Gee he asks: 'How you like um sleeves; you like um Mrs. Aukland sleeves? Or Mrs. Jones sleeves? You like um Mrs. Bladshaw waist?'"

For variety they try the different brands of sleeves on different waists.

Almost an equally hard time is had with eating.

The first time you try it, sitting on your heels to eat, is not an easy accomplishment. The Korean diet includes harder stunts, however. They live on half-cooked rice and drink quantities of warm water with their meals.

Wherefore the missionaries have to send half way around the world for butter and sugar and the commonest essentials. They live out of cans.

What jarred on this Yankee school teacher was the attitude of the women when she first tried "to make the heathen in her blindness see."

"Yes" they would say; "it seems so, but how should I know? I am only a woman, and I am in darkness."

When she first went to Korea Miss Wambold lived in the white quarters of Seoul until she learned the fiendish language of the country.

"Hard!" she said, "It is awful. When the missionaries first come over they get a few words of it and smile in a superior way.

"'Oh, do you call this hard?' they say. 'Why, I find it very easy.' Before they get through they tear their hair."

JOURNEYS AMONG ROBBERS.

After she went to live among the people Miss Wambold had to take long journeys alone, except for her coolie bearers.

At first she had a side-saddle, but the coolies banged it around and persisted in putting it on hind-side to, so she perched herself at last on top of the pack saddle, sitting just as in a chair.

It was during one of these journeys that she was stopped by a band of Korean bandits.

Her servants ran back, shaking with fear, crying that robbers were upon them.

She smiled coolly at their demands and refused to understand what they wanted.

"Give them your money or they will shoot a bullet into you," shrieked one of her servants in despair.

"What kind of talk is this?" she said severely.

In extreme agony one of her servants grabbed a stick and wrote the word for robber in the dirt.

If there is a Korean word, proper for young lady missionaries, which is the equivalent for "Oh, rats!" she said it and rode serenely on, straight past them with their guns.

The robber band was so utterly astonished that they made no further effort to detain her.

WOMAN'S WIT.

Another time as she was traveling alone and without any protection, one of the Korean coolies of whom she had asked a question replied in low vernacular of ominous disrespect.

"What sort of language is this?" she said. "The man does not know the Korean customs, apparently."

Whereupon the other coolies laughed at him, and she had no further difficulty.

Custom is a thing they regard with awe in Korea.

The peasant women wear a sort of cloak fitted with sleeves; as they always wear it over their heads instead of their backs, the sleeves hang useless, opposite their ears.

If you ask one why they do not either put their arms through the sleeves and wear the cloaks right, or else do without the sleeves, they reply wonderingly: "Why, it is our custom to wear them thus."

The missionaries have learned this to be true:

"And the end of the fight
Was a tombstone white,
And the name of the late deceased
With the epitaph dread:
'A fool lies here
Who tried to hustle the East.'"

Miss Wambold will be in the city for some time, getting back her health before returning to her post in Korea.

BRAINS STREWN DOWN SHAFT.

HORRID ACCIDENT IN HELLMAN BUILDING ELEVATOR.

Janitor Caught by the Descending Cage and His Head Crushed—Was Warned Repeatedly, but Insisted on Crossing the Deadline Once Too Often.

Chris Larsen, head janitor of the H. W. Hellman building, Fourth and Spring streets, was struck by the descending cage of the elevator at 9:45 o'clock last night and instantly killed. Nearly the whole top of his head was torn off and the unfortunate man's brains and blood were spattered along the sides of the elevator shaft from the fifth floor to the basement. According to the statements of several witnesses the tragedy was the result of Larsen's own carelessness.

Larsen was standing on top of an elevator cage between the fifth and sixth floors of the building, cleaning the iron scroll work on the inside of the shaft. Had he confined his work to the dead space in the shaft he would have been in no danger, but he repeatedly leaned over into the section in which the next elevator was running, and tried to reach the iron work there.

Harry Wise was in charge of that elevator and several times during the evening he warned Larsen. Only a moment before the accident the elevator almost caught him, and he was obliged to jump backward to avoid being crushed. Wise called to him, telling him to keep out of the way, but Larson laughed at the boy's fears.

As soon as the elevator passed him, Larsen continued his work, and leaned over into the other shaft. He stepped back when the cage came up and waited for it to pass him, and then he again leaned over. Wise went to the top of the building, and then started back. He could not see Larsen as he approached, and thought the janitor would look out for the descending cage. Instead of doing so, however, Larsen continued to lean over into the other shaft.

The edge of the heavy cage struck him squarely on top of the head, dashed out his brains and crushed him against the cage on which he was standing. As the cage continued to descend, those in it caught a glimpse of his mangled body lying on top of the other cage. Several persons ran to his assistance, and he was carried out of the shaft and laid upon the sixth floor, stone dead. Dr. E. E. Bartram of No. 528 Trust building, and Allen Archer of No. 635 Hellman building, witnessed the accident, and were among those who went to the rescue. They state that the accident could not have been avoided, save by the victim. Larsen resided on Wall street, near Fifth, and left a family. The body was taken by the Coroner and removed to Bresee Bros.' morgue, where an inquest will be held today.

DRAW POKER DRAW.

Jack-pot and Players in Notorious "Club" Raked in by the Police.

With Patrolmen Ziegler and Walker looking over their shoulders, G. W. Cockrell and Albert Hawkins serenely played a game of draw poker in the notorious dive known as the Columbia Club yesterday afternoon. They were blissfully unconscious that the two watchers were officers, waiting to arrest them.

Just after a big pot had been raked in by Hawkins, the players were also raked in, and chips and other paraphernalia used in gambling games confiscated. George Brown, "secretary" of the so-called club, stood helplessly by and saw his place raided by two men whom he had taken for suckers only a few minutes before.

The "Columbia Club" is an institution patronized by many nationalities. It was located at No. 321½ East First street, but from present indications it is doubtful if operations will be resumed, for the police raid has put the club out of business.

Many complaints of low gambling and debauchery have been lodged against the outfit recently, and to learn the true state of affairs two officers swooped down on the joint yesterday afternoon. Only two men were playing poker, but scattered cards and chips told of other games just closed. "Secretary" Brown himself admitted the policemen, who were in citizens' clothes. After the arrests Brown and the players offered the lame excuse that they knew the visitors were officers, but continued their game because they thought they had a right to play, as the "club" was chartered.

Cockrell and Hawkins were released on bail to answer to a charge of gambling. The status of the "club" will be fully investigated.

TWO THOUSAND.

Army of Weary Travelers Lands in Los Angeles from Belated Trains.

Today traffic will resume its schedule time on all transcontinental lines into Los Angeles, and the railroad people feel that no further delay will be experienced.

Two thousand weary travelers were landed in Los Angeles yesterday by the Santa Fé. This number represents the arrivals of four days. Mail and expressage were in proportion, and La Grande station was flooded with people from early morning until late at night. Everybody was on the jump and the long pent-up anticipation of those who awaited the arrival of friends or relatives from the East exploded with the babble of forty pink teas.

The first of the ten pasenger trains arrived at 8 o'clock in the morning, while the last came lumbering in just after midnight. If all the sighs of relief of those who climbed down from the coaches had been united out in Arizona, the clouds would have been blown away before the downpour came.

BROAD PLANS FOR SCHOOLS.

Board of Education Will Ask for $750,000.

Coming Report on Needs is Record-breaker.

Wide Policy of Improvement is Mapped Out.

Three-quarters of a million dollars is to be asked of the taxpayers of Los Angeles for the betterment of the school system.

The Board of Education, after a careful canvass of the situation, is about to recommend that bonds to the amount of about $750,000 be issued for this purpose.

New school buildings, new sites, additions to buildings now overcrowded and inadequate to the demand, more extensive playgrounds and other improvements are in contemplation.

The members of the board will hold a meeting this afternoon, when a report on the subject may be presented. The magnitude of the task before them, however, is likely to delay the report a few days.

In its comprehensiveness, as in the amount of money that will be recommended for appropriation, the forthcoming report will be a record-breaker. Should its provisions meet with the approval of the people it is declared that the schools not only will be placed on an adequate footing, but that the future, for a few years at least, will be anticipated.

Admitting that the sum to be asked for is large, the members of the board say its expenditure is warranted by conditions and that it will be economy for the city to appropriate the money at once.

EYES ON FUTURE.

Instead of adopting a hand-to-mouth policy, recommending the erection only of such buildings and additions as will meet present needs, the board is looking just a few years into the future. To erect buildings that will cave for today's demands and tomorrow to ask for other appropriations to build more schools, the directors say, is more expensive and less satisfactory than to plan a short time ahead.

It is with this policy in mind that recommendation is made, in the report about to be submitted, for the purchase of certain needed or to be needed sites that in the natural order of things will increase in value.

Several such sites for future school buildings have been determined upon by the board. On some of them it will be recommended that buildings be erected at once. Others it is planned to obtain at the lowest possible price and to hold until needed, at which time it is expected their value will have increased greatly.

Among sites that have been considered are lots in the vicinity of Adams street and Compton avenue; near Hostetter and Beaver streets, and near Central avenue and Fifty-fifth street. These are but a few of the sites that may be purchased in the event that the people vote for the bonds. On some of them there would be no delay in erecting school buildings.

CAREFUL CANVASS.

In their canvass of the city the members of the board have visited every school and have gone into neighborhoods where there are no schools, but where they already are needed or will be in the near future.

They have taken note of the number of half-day schools that are operated because of the inadequacy of present buildings. They have observed schools that have no playgrounds for pupils. They have had the services of experts who informed them of the value of lands needed for expansion. As a result of their observation they have attempted to frame a measure to cover the needs.

Consideration has been given to the necessity of purchasing additional lands for the enlargement of the following among other schools: Fifty-fourth street, Alpine street, Fremont avenue, Tenth, Ninth, Hewitt, Second and First street.

The building of new schools may be recommended near Logan and Montana streets, near Seventeenth and Georgia streets, near Union avenue and Eighteenth street, near Fortieth and Trinity streets, near Staunton avenue and Fourteenth street, near Adams street and Compton avenue, near Euclid and Stephenson avenues, and near Central avenue and Fifty-fifth street.

Additions are wanted at a large number of school buildings now in use, and it is likely that appropriations will be recommended for additional grounds and equipment for the Polytechnic High School, for a science building at the High School, and for a parental school, building and grounds.

HIGH SCHOOL NEEDS.

The present High School will come in for a large share of attention. Some of the members of the board favor the remodeling of the old building. It is planned to remove a number of partitions that cut the interior into small and almost useless rooms, and thus to create additional large classrooms.

Although the capacity of the High School will be increased by the addition of ten rooms in the old Commercial High School as soon as the Polytechnic building is occupied, there still will be a lack of accommodations. It will be necessary to continue the use of seven small frame buildings or "shacks" that were erected to care for the overflow.

In making its report the board will attempt to demonstrate to the people that the school demands are urgent; that a dollar spent now will be equal to two or more dollars expended two or four years hence; that preparation now for schools soon to be needed in the growing sections of the city will save much inconvenience and expense, and that, on the whole, the recommendations made will be the best possible for the interests of the taxpayer and of the pupil.

It is probable the report will contain the unique provision that the expenditure of the large appropriation rests with the school board instead of with the City Council, as formerly has been the case. Authority for such handling of the funds is contained in the laws relating to school districts.

PENNSYLVANIANS MEET.

The Pennsylvania Society held its semi-annual meeting last night at No. 125½ South Spring street, President A. C. Moore presiding. The attendance was about four hundred. An excellent musical programme was carried out. The speaker of the evening was the Hon. William Graham of Pennsylvania.

OLDEST ODD FELLOW GONE TO HIS REST.

LOYAL to its principles and devoted to its work until the day of his death, Alex Roux, the oldest member of the Independent Order of Odd

ALEX ROUX
Oldest Odd Fellow in United States.
(Photograph taken ten years ago.)

Fellows in the United States, passed away in Los Angeles at 3:30 o'clock yesterday afternoon.

A grand veteran of the order who had attained an ambition by taking all degrees and by having held every office, from the lowest to the highest, it is not strange that he was beloved by his fraternal brothers, and that their hands will tenderly lay him away in his final resting place.

Alex Roux was in his eighty-eighth year, and it was sixty-four years ago that he joined the Odd Fellows and took the oath to abide by its principles. From that day his fraternal interest has never lagged and when the final illness came upon him, his greatest regret was, not that he had to die, but that he could not attend just one more meeting at the old hall on Main street.

"I have climbed the stairs for the last time," he said, but they will come and take me when I am gone. I will be with them still."

This octogenarian was of French descent, both his father and mother having been born in France. His native State was Ohio, but most of his early life was spent in Covington, Ky., and it was in that city that he became an Odd Fellow. In the year 1860 he moved to Illinois and built up a good business as an architect and contractor, married happily and was blessed with three children. He moved to Los Angeles in 1889, and until a few months ago lived at No. 1429 Arnold street.

Asthma had troubled Roux for several years, and last August he was taken with a severe cold, which developed into pneumonia, leaving him in such a weakened condition that he was unable to recover. Death came at the new home of his daughter and son-in-law, Mr. and Mrs. D. M. True, No. 461 Avenue 56. He also leaves a daughter, Mrs. J. W. Prendergast of San Francisco, and one grandchild, D. Maurice True, who is employed in the City Engineer's office.

The funeral services will be held Thursday afternoon at 2 o'clock at the undertaker's chapel, corner of Eighth and Flower streets, and will be under the auspices of the veterans of that order. Interment will be in Odd Fellows' Cemetery at the end of East First street.

"MADGE" NOT THE WOMAN.

BLACK-VEILED MYSTERY STICKS IN BENTLEY CASE.

Haines, the Cook, Who is Suspected of Robbing Minister of His Watch, Cannot be Found—Annie Murphy Pointed Her Finger at Crocker-street Character.

That veiled woman dressed in black who accompanied Rev. C. E. Bentley to the cheap lodging-house at No. 125 South Los Angeles street Saturday night still worries the police detectives.

When Bentley toppled over and died, the mysterious veiled woman disappeared, and though dozens of clews have been run down by the police the woman has not been lo ated. Yesterday detectives were informed that a woman named "Madge," who formerly flitted in and out of the lodging-house presided over by Mrs. Mary Douglas at No. 125 South Los Angeles street, answered the description of the mysterious woman in black.

Through her quondam friend, Annie Murphy, a former Police-Court habitue and latterly an inmate of the Door of Hope at No. 119 north Daly street, "Madge" was finally traced to her home on Crocker street. Mrs. Douglas, the landlady of the house in which Rev. Bentley met death under such peculiar circumstances, knows "Madge" intimately and she is convinced that "Madge" and the veiled woman in black are two separate and distinct people.

"I know Madge as well as I know my right hand," said Mrs. Douglas last night. "She has not been in my place since last Christmas, and I know she is not the woman who accompanied Bentley when he came to my place and asked for a room last Saturday night.

"Rev. Bentley's companion was taller, larger and better dressed than Madge ever was. Then her face was nothing like Madge's, either.

"Oh, yes, I would know the woman in black who was with the preacher, if I should see her again," continued Mrs. Douglas. "I got a good glimpse of her face and I'm certain I would know her. She was in the upper walks of life, I think, or at least she appeared that way to me.

"That's all I know about the case."

The "Madge" referred to was formerly a friend of Dan Haines, who was with Bentley when death came so suddenly, and for whom the police have searched in vain. Haines is a cook who worked at various cheap restaurants in the city. He paid occasional visits to the Los Angeles-street house and his partiality for "Madge" was known. The woman has been shadowed by police detectives, but Haines has not been seen in her company since the death of Bentley. Haines is suspected of having robbed the minister of his watch.

But where and who is the woman in black?

CHARGES COLLUSION.

Los Angeles Woman Sues Duluth Parties to Recover Rentals Amounting to Thousands.

In the Federal Court at Duluth, Minn., trial was commenced yesterday in an action by which Charlotte Wills of Los Angeles is seeking to recover nearly $21,000, alleged to be due her from the rental of property, a portion of the income from which she alleges has been fraudulently withheld from her through the collusion of her agents and the lessee, for a period of fourteen years.

The defendants in the case are Mendenhall & Hoopes, agents, and Jacob Zien, lessee of valuable property on Superior street, the principal business thoroughfare of Duluth.

In her complaint Mrs. Wills declares that Mendenhall & Hoopes leased her property to Zien at a rental which was $100 per month under the market price. She also asserts that Zien subleased the property from time to time, and gained a profit of $100 per month over the amount paid to her. The total sought to be recovered, including interest, is a trifle under $21,000, about $14,000 being the amount she asserts was lost in rentals.

It is said that the defendants will offer proof to show that the leasing of the propert, at the figure named was a profitable deal, Zien being a substantial business man by whom the agents knew their rentals would be paid promptly.

CORONADO BEACH.

SEA MENACES TENT CITY.

HOTEL DEL CORONADO, Feb. 7.—At one time yesterday it was feared that the high waves rolling in from the ocean would destroy cottage and Tent City property along the beach. At the Spanish bight, a mile north of the hotel, the water swept across the narrow strip of land which separates the ocean from the San Diego Bay. The tea garden grounds, a short distance south of the bight, were considerably damaged, although the buildings remain intact. Some fears were entertained for the safety of the Graham Babcock house, which is on the ocean front, but the inundation did not reach that far. The seawall along Tent City was given a severe test, but was not seriously damaged. During the day steps were taken for the construction of a seawall extending northerly from the hotel for the protection of ocean-front property in storms like yesterday's. The scene was enjoyed by the hotel guests.

ADMIRAL AND AUTHOR.

Yesterday Admiral Goodrich of the Pacific squadron, and L. Frank Baum, author of the "Wizard of Oz" books, met in the elevator, going from their apartments to dinner. Neither knew who the other was. Admiral Goodrich noticed that the author had neglected to turn down his coat collar. "Allow me," said the admiral, as he obligingly smoothed the collar. "Thanks," responded the author, at the same time wondering who the distinguished-looking man could be. As they were leaving the elevator the boy at the cable told him to whom he was indebted for the favor.

Yesterday's arrivals included Mrs. Juliette S. Norner, St. Louis; Mrs. Davis, Eauclaire; Herman Schainwald, San Francisco; L. A. Howland and wife, Chicago; Mrs. L. A. Pulney, Lexington, Mass.; Mr. and Mrs. George Kaufman, Rochester; Lund Farall, Austria; Mrs. H. Goldberg, Salt Lake City; J. A. Goldberg, Seattle; I. A. Huffman and wife, Utah; Thomas C. Walding, Chicago; Mrs. L. O. Pomorey, Los Angeles; Mr. and Mrs. Charles Koch.

H. L. Kaufman, a banker from Marquette, Mich., was among last night's arrivals at the hotel.

PUBLIC SERVICE—OFFICIAL DOINGS.

SUMMARY OF THE DAY.

Open war was yesterday declared by the Police Commission on the traffic in liquor licenses.

The civil-service board yesterday afternoon repealed its "one-man rule" for certifying eligibles for civil-service positions.

Ordinances passed the Council for the sale of three street-railway franchises; it is said on good authority that Mayor McAleer will veto them all.

The highway commission yesterday obtained an appropriation from the Board of Supervisors to pay for the erection of mile stones on the completely surveyed county roads.

Judge Wilbur held an auction yesterday in the estate of the late I. T. Martin, and knocked down the balance of the stock in the furniture store on Spring street.

HOT SHOT FOR BEER PLANTS.

POLICE BOARD FIRM AGAINST LICENSE TRAFFIC.

Commission Adopts Rules for Regulation of Saloons—Women and Girls Barred from the Back Rooms. Body Blow for "Family Entrances." Officers are Dismissed.

"Resolved, that this board is opposed to traffic in saloon licenses.

"Proprietors of saloons shall not serve women or girls with liquor nor permit them to loiter in their establishments."

These two rules, or rather declarations of principle, were yesterday morning adopted by the Police Commission. They are now a part of the regulations planned by the board for a more stringent supervision of the liquor traffic in Los Angeles.

Traffic in saloon licenses during the last three administrations has grown to be a profitable speculation. The prevailing market price of saloon licenses, exclusive of fixtures, during the last year was $6000. This meant a valuation of $1,600,000 legislated into the licenses by the act of the Police Commission.

Since the present Police Commission has been in control, the speculative price has been as low as $2500; but during the last two weeks the breweries have taken heart and advanced the price to $6500. It is this advance in price that now bids fair to be their undoing.

Carrying out the spirit of the resolution affecting saloon-license traffic introduced by Commissioner Mason, the board expects to take such action as will result in the total abandonment of traffic in licenses on speculative values, which they regard as little better than that in fallen women.

Just what this action will be is a carefully guarded secret.

"I suppose there will always be a commercial value attached to saloon licenses on account of location," said one commissioner yesterday afternoon. "That is because a saloon occupies a choice corner in the business district or because it is located where, if the license were to be surrendered, the property owners in a block would protest against the issuance of another license there and the applicant would not be able to get the required amount of frontage signed to his petition.

"But when a great monopoly is created by the issuance of saloon licenses, there is something wrong with the system.

"We think that the trouble has been not so much in the license ordinance as in the construction placed upon it, and we hope to work a reformation in this respect."

Adoption of the rule prohibiting proprietors of saloons from serving women or girls with liquor is said to be aimed at a number of resorts where beer gardens are run in connection with saloons.

Former commissions have observed the rule that women or girls shall not be permitted to drink at saloon bars, but in a majority of cases back rooms were fitted up for the accommodation of women. The present rule is expected to result in closing up these back rooms and "family entrances."

FRANCHISE SALES.

ORDINANCES PASS COUNCIL.

Ordinances of sale of three street-railway franchises were yesterday passed by the Council at an adjourned session, and bonds for the completion of the work were approved. They are the three lines for which bids were opened in the Council Monday. One is along Tenth street from Vermont to Western avenue; a second covers about a mile of West Sixth street and Wilshire boulevard, and a third extends from First to Fifth street on Indiana street.

The ordinances were carried to the Mayor for approval as soon as adopted. He took them under advisement. Each of them contains a time limit of more than thirty-one years. The Mayor in his annual message asserted that he would sign no franchises containing provision for a time limit of more than twenty-one years. He reiterated this assertion yesterday morning. The Mayor has the privilege of holding the franchises under advisement for ten days, but it is authoritatively reported that he will return them to the Council Monday vetoed.

Seven votes are required to pass the franchise sale over the Mayor's veto. So far each ordinance has received but six votes, Councilman Ford of the First Ward holds the key to the situation. He has been confined to his home for over a week, as the result of an accident, but his physician yesterday said that Mr. Ford is improving rapidly, and should be able to attend next Monday's Council meeting. If the State Senate delays action on the charter amendments until after Monday, it is probable that the sale of the franchises will be confirmed.

CIVIL SERVICE.

ONE-MAN RULE APPEALED.

Granting a request signed by all but two of the department heads of the municipal service the Civil Service Commission yesterday afternoon repealed its "one-man rule" in the certification of eligibles for civil service positions.

Hereafter when two or more names appear on an eligible list the commission will certify to two eligibles, giving the department head the right to make his own selection.

Under the "one-man rule" only a single name was certified for each position. This placed the appointive power with the Civil Service Board.

Commissioner Thomas, who moved for the repeal of the unpopular rule stipulated that the commission would reserve the right to limit the number of names to be sent, where three or more vacancies were to be filled in the same classification at the same time to two more than the number to be employed. This is intended as a safeguard against the practice of former commissions of getting names of fifteen applicants for five positions and then filling the vacancies with the low men on the list.

TUNNEL CAVES.

CITY IN THE HOLE.

About one hundred feet of the tunnel section of the outfall sewer caved in last night. The City Engineer estimates the damage at between $700 and $1500.

This is the section in which the contractors have been making almost daily demands for brick to complete the work. Monday the Council let contracts for brick, apparently locking the stable after the horse was stolen.

Contractor Stansbury has yet made no declaration as to his intention, but it is generally expected that he will ask the city to pay the expense of rebuilding the portion of the tunnel which has caved in.

McMaster Reinstated.

Acting on a report from the City Attorney, the Civil Service Commission yesterday afternoon decided that Deputy McMaster of the City Clerk's office is still in the employ of the city and is entitled to draw pay for the time for which he has been suspended by his chief. A month ago City Clerk Lelande dismissed McMaster and appointed Bert Farmer in his place. McMaster appealed to the Civil Service Board on the ground that no cause had been assigned for his removal. He had not served his six months' term as probationer, and Mr. Lelande did not consider that it was necessary to prefer charges. The City Attorney ruled that the department head must state a cause in dismissing a probationer, but that the commission has not the right to inquire into the sufficiency of that cause as grounds for dismissal.

Officers Dismissed.

Patrolmen Kristovich and Vassar and Special Officer Mikluchuta were yesterday dismissed from the police department for accepting money from women of the half-world.

Three weeks ago the officers were suspended by Capt. Auble as the result of a quiet investigation that had been going on inside the department. The testimony against the officers was conflicting and Commissioner Gates, who moved for the dismissal, said that the charges had not been technically proven, but that it was the opinion of the commission that the officers were morally guilty as charged. No testimony was offered tending to show that the women received any protection from the officers for the alleged payment of money.

AT THE COURTHOUSE.

MILE-POSTS ON COUNTY ROADS.

UNDER NEW SYSTEM A CHILD WOULDN'T GET LOST.

Supervisors Give Money to Highway Commission for Simple and Accurate Identification of County Roads. May Revive the Old-fashioned Cozy County Inn.

Very quietly the Highway Commission has been working, with the end in view of improving the roads of the county, so that each resident may be as easily located as if living in a numbered house on a city street. Yesterday Messrs. Griffith, Graves, Kinney and Day, members of the commission, appeared before the Board of Supervisors and asked that the board make an appropriation for the purpose of setting out cement mile-posts on roads that have been blocked out.

After the matter had been discussed the board granted the commission $420, and with this money mile posts will be erected along 120 miles of county roads.

In adopting the block system anyone driving along one of these surveyed highways will be able at any milestone to learn how far he is from Los Angeles, and how far from the main terminal to which the road leads. Armed with the field notes published by the commission, every drinking trough, farmhouse or point of interest along the road may be identified; and thus the county road becomes as simple to travel as a city block between two cross streets.

Milestones will at once be erected on the following roads, the surveys having been completed: To the Orange county line by way of Downey, 22 miles; to Whittier, 11 miles; to San Pedro, 26 miles; to the Ventura county line, by way of Encino, 14 miles; the foothill road to the San Bernardino line, with a branch to Pomona, 45 miles. Making a grand total of 120 miles.

Inasmuch as people living in the country are beginning to realize the actual value of good roads and the immediate return that ranchers receive from good roads in the way of easy and rapid communication, the demand along this line is becoming urgent. The road tax is no longer the bugaboo that it once was, and already another and additional source of income is opening out in places scattered throughout the country and driving about Southern California has become a permanent fad, if the phrase may be used.

If the bill now before the Legislature for El Camino Real appropriation passes, the system of good roads now being called into existence by the Board of Supervisors and blocked off by the Highway Commission will prove a splendid accessory to the "King's highway." Those having the matter of good roads at heart believe that the old-fashioned country inn will again spring up at a variety of points, at places where the big, fashionable hotel could not exist.

NO SNAP JUDGMENT.

WIFE HAS HER DAY.

When William A. Peters, a street-car conductor, thought that he had his decree of divorce safely stowed away in his inside pocket on the default of his wife, the little wife herself bobbed up in court and called it off.

The parties to the action were married in 1898, and have two children. The husband in his complaint made a number of terrible charges against his wife, which if true indicate that she is a woman of shameless character.

Counsel for the husband had no sooner called his client to the stand yesterday than another attorney stood up and said that the wife was in court and wanted to be heard. Then he pointed out one of the hardships of the law. The wife had no desire to make default; she considers that she has a good defense, but she cannot get standing in court to declare her condition and get the court to order the husband to pay so much for attorney's fees and costs of fighting the action, until she has herself paid the initiatory fee demanded.

The matter came up before Judge York and he concluded that he would hear some of the testimony. Peters went upon the witness stand and told of his wife's alleged infidelities, and of his taking T. Quinn, of the city detective staff, with him one night and both spying through a window while his wife and one George Higley disported themselves in the parlor of a house on Fremont avenue.

After listening to this testimony for a time Mrs. Peters had her turn. She is a rather pretty but sad-faced woman, and though she stated that she was not averse to a divorce under the circumstances, she did think that her husband ought to make some provision for her. She denied absolutely all the statements reflecting upon her character, but said that she had acted as housekeeper for Mr. Higley and was paid for her work. She said that her husband turned her out of doors without a cent in her pocket and she didn't know what to do. It was then that Higley offered her a position to keep house for him, his father and his son. She was to receive $15 a month and was glad at the time to accept the position. Later the old Mr. Higley went east, but she retained her place as housekeeper.

Then, too, the wife charged that her husband had choked her repeatedly, had whipped her, and in many ways had been cruel and unkind. The husband when recalled actually confessed that he had struck his wife and sought to justify himself, but the court thought the case should be looked into.

Judge York determined after hearing both sides that despite the long delay the wife should have her chance in court, and continued the hearing. In the meantime counsel will move on Friday that the husband be ordered to pay to the wife a sum that will permit her appearing properly in court and defending herself in the action.

NEBAKER WAS DEALER.

PLAYED WITH THE DECK.

J. R. Nebaker, who knows a few things about the ponies and the race track, showed Justice Young and counsel on both sides of the notorious Steele poker-game case, that what he doesn't know about a deck of cards isn't worth starting out to learn.

The case against the alleged defroiler of Jasper Thomason at Santa Monica by means of a marked deck of cards practically closed last Saturday, but it was continued over until yesterday morning to allow associate counsel for the prosecution to be present and argue the case. Before going so far, however, the prosecution put Nebaker upon the stand to show what could be done with the deck of cards used in one of the games at Ocean Park, when the guileless Jasper was parted from his money.

The witness took the cards and flipped them once or twice just to let everyone see that he knew his business. Then he proceeded to deal out the cards as quickly as a skillful player can do so, and simultaneously called off the name of each card. He read each card in the deck from the back without missing one. It was a triumph for the prosecution.

After this little bit of card play there were admiring glances cast at Steele, and someone remarked in a far reaching whispered ejaculation: "What a dead open and shut cinch he had!"

Steele's case has practically been submitted on the pertinent testimony offered in the Holborow case, and arguments will be offered later.

GOOD BUSINESS SOLD.

AUCTION IN COURT.

The balance of the stock in the furniture store of the late I. T. Martin was sold at auction by Judge Wilbur yesterday, and the price ran up rapidly until the bargain was knocked down to John H. Attig, representing the Gem Furniture Company, for 85½ per cent. of the appraised value.

When I. T. Martin died the stock at that time in the store was appraised at $40,000, and since then W. P. Martin, a brother, who is the administrator of the estate, has disposed of about $25,000 worth. It was the unsold portion that was auctioned off yesterday. The bids started at 75 per cent. of the value and ran up until the final and successful bid was made. The administrator will name one appraiser, the purchaser another, and both of these will select a third. These three appraisers will determine the value of the stock.

The gold watch and chain, and other small pieces of personal jewelry belonging to the deceased, were also put up at auction and were bid in by the administrator for $43.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

INCREASE OF STOCK. The Rindge Navigation and Canal Company has filed its certificate of increase of capital stock from $500,000 to $1,500,000.

STORAGE OF GOODS. The Commercial Warehouse Company has incorporated with a capital stock of $500,000, of which $500 has been subscribed. The directors are: E. P. Johnson, Jr., E. W. Gilmore, B. Johnson, John G. Mott and H. B. Eakins, all of Los Angeles.

ONLY PETTY LARCENY. Norris Pyron was convicted in Judge Smith's court yesterday of petty larceny. He was charged with grand larceny in having taken $40 and a gold watch belonging to Walter S. Wright, who was his roommate. Pyron was willing to plead to the minor offense, and yesterday when found guilty accepted his sentence of four months in jail with equanimity.

NEIGHBORHOOD DISTURBED. Mrs. Anna Graham, who lives close to Vermont avenue on Twenty-third street, was examined before Judge Wilbur and a commission on insanity yesterday. For some time past she has been accusing the neighbors of saying very vile things about her, and ultimately threatened to kill her next-door neighbor. The woman was found to be insane, but the commitment was held over for one week, during which time it is the intention of the husband to have his wife admitted to some private sanitarium.

MIGHTY PARTICULAR. George Bellamy, a "cullud gemman" who is held for forgery, told Judge Smith that he was without means to employ an attorney to defend him, and was asked if he desired the court to appoint an attorney. "If I kin git a conscientious 'turney I would like him, jedge," was the answer, "but if he ain't, then I don' want him." "Well, and suppose you don't get a conscientious one?" queried the court. Bellamy threw up his hands and shook his head. "Then, jedge," he said dolefully, "I'll jest tell eberything."

A ONE SPOT. S. F. Collins pleaded guilty yesterday before Judge Smith to having committed forgery. On June 2 he forged the name of Emma Newman to a check on the Central Bank of Los Angeles for $5.50, and was arrested shortly afterwards. He was sentenced to one year at Folsom.

WILL PAY UP. James Foster and Rowland McCoy, the two colored men who got into trouble at Garvanza, the former for abusing his wife and the latter for seeking to avenge the wrongs of his sister on her spouse, were both before Justice Young yesterday. McCoy's case went over until Saturday and Foster was fined $25, with the alternative of twenty-five days in jail, for hitting his wife on the jaw with a bottle. He is in jail at present, but hopes to pay the fine today.

THE INFERIOR COURTS.

PICKPOCKETS' BAD RECORDS.

NEW COMPLAINTS FOR PAIR OF NOTORIOUS "DIPS."

Harrington and Burns Previously Convicted of Burglary, and Their Records Militate Against Them. Preliminary Examinations Set for Thursday and Friday—Police News.

The previous bad records of William Burns and J. Harrington, members of the light-fingered gentry, who are charged with having robbed H. Galeron on a Santa Fé train between Los Angeles and Pasadena, will greatly militate against them when their examinations are held in Police Court.

Both men were convicted of burglary in San Francisco several years ago and they served time in prison. The police have dug up their records and in order to make a cinch of the cases pending the grand-larceny complaints originally issued were dismissed in Justice Austin's court and new complaints with a prior conviction for felony were issued. The court set Friday as the date of the preliminary examination and bail was fixed at $5000.

John Downey, the other alleged "dip" who is a pal of the two men, and charged with the same offense, was arraigned separately, as no prior felony conviction is charged to his account. His hearing was set for tomorrow at 10 o'clock.

HELD TO ANSWER.

SCOTT MUST FACE JURY.

"Dat nigger just shot me for nothin'," explained George Jenkins, the negro who was shot down by "Long John" Scott during an argument about the Black Patti troubadours Saturday night.

The bullet from Scott's revolver plowed through Jenkins's right shoulder, making a great hole, and for a time the victim's life was despaired of; but Jenkins appeared in court yesterday to testify at the preliminary examination of his assailant.

Jenkins told about a conversation at First and Alameda streets in which the Black Patti players were the principal topic. Scott was a listener and without provocation he drew a pistol and shot Jenkins, so the latter says. Scott has a bad reputation as a "scrapper," but the defendant claims in the present instance that he was nagged into shooting Jenkins.

Scott was held under $500 bail to answer to the Superior Court. He went back to jail.

JOB FOR KNIFER.

TORRES TO CHAIN GANG.

Valentine Torres, who tried to soothe his mother-in-law, Mrs. Martinez, with a sixteen-inch butcher knife, and playfully chased her out of her own home after forcing his sister to flee for her life, was sent to the chain gang yesterday by Justice Austin for 100 days.

Torres has been residing alone in a large house at No. 670 San Fernando street. The reason he led a lonely life was because he chased his wife, mother-in-law and sister away from the house and threatened to kill them if they returned. Sunday night he terrorized the entire neighborhood with his big knife, and defied two policemen when they went to arrest him.

Where Johnson Can Reflect.

When Frank Johnson saw a number of carpenter tools lying loose around a new building on Spring street, he didn't think a chain-gang sentence awaited him. The tools were purloined and yesterday in Police Court Johnson could not explain satisfactorily why and how they came into his possession. Justice Austin allowed Johnson sixty days on the chain gang to reflect over the matter.

A New York dispatch says that on the allegation that he had been fleeced out of $50,000 by a pretended wire-tapping scheme, John F. Felix has caused the arrest of Lawson Crane, and the police are searching for two other men whom Felix charges with being concerned in the scheme.

His Wife Woke Him Up.

Connecticut Man Nearly Choked to Death in Night.

No comment is needed on the following letter. It tells of fearful experiences that have fortunately been overcome:

"Dear Sirs:—

"Often in the night my wife had to wake me up because I was almost choking to death with catarrh. I had one of the worst cases that was ever known, and skillful physicians said it was chronic.

"Fortunately, a friend told me of Hyomei, and I used this treatment faithfully, and today am free from catarrh. I used Hyomei perhaps five times a day and could soon see a great change. A complete outfit and an extra bottle cured me. I always carry a Hyomei inhaler in my pocket, so as to prevent any colds or slight catarrhal attacks that are common at this season of the year.

"Yours fraternally,

"Thomas Finchan, Putnam, Ct."

It is the easiest thing in the world to cure catarrh or catarrhal colds if you use Hyomei. Breathe its healing balsamic air for a few minutes and your catarrhal trouble will soon be cured.

The complete outfit costs but one dollar, and consists of an inhaler that can be carried in the purse or vest pocket, a medicine dropper, and a bottle of Hyomei. The inhaler lasts a lifetime, while extra bottles, if needed, can be obtained for 50 cents.

Druggists everywhere are authorized to refund the money should a Hyomei outfit and one extra bottle fail to afford relief. If the druggist from whom you bought does not care to do this, mail the inhaler to the R. T. Booth Co., Itahaca, N. Y., and they will refund the money at once. Mail orders for Hyomei promptly filled on receipt of price.

OUR CANYONS.

LOCAL SCIENTISTS INTERESTED IN EFFECTS OF CLOUDBURSTS.

By William H. Knight.

Men of science—geologists, meteorologists, and students of physical phenomena—have been deeply interested in The Times realistic and thrilling report of one of nature's tragedies recently enacted in Las Flores Church. They cite this as evidence of the terrific power of torrential currents, particularly when the water is moving under the pressure and momentum which is produced by one of our mountain cloudbursts. The southern slope of the Sierra Madre range is very precipitous, a topographical feature believed to be due to the probable fact that in remote geological ages the Pacific Ocean swept over the lowlands to the base of those mountains, and the action of the waves gradually wore down the outlying ridges and foothills, leaving a bold sea front.

As the ocean receded, consequent on a corresponding uplift of the mainland, the combined wave action and torrential streams built up the deep talus of the present foothill slope at Altadena. In sinking through this talus, even at considerable distances from the mountain's base, great boulders are encountered, and still further away, smaller rocks, both rounded and angular are found in great numbers. These have undoubtedly been carried to their present sites, far from the parent ledges overhanging the ancient beach, by the titanic forces engendered by heavy rainfalls and tremendous cloudbursts.

It is said that precipitations have occurred at the base of the Himalayas in India amounting to twenty-four inches of rainfall in a few hours. These tremendous downpours occur only at long intervals, consequently people who know the historical facts are, by the lapse of time, lulled into a sense of security, like vineyardists clinging to the slopes of a slumbering volcano, and build houses and hamlets within the flooded areas, only to be swept away when the floods come, entailing enormous loss of life and property.

A British engineer from India came over the Southern Pacific Railway a few years ago and as he rode along the bottoms of the Gila River, he remarked that the time would come when that whole region would be devastated by tremendous floods. When he reached the almost vertical southern face of the Sierra Madres he remarked that this would yet be the theater of the play of gigantic forces.

Let us see what one of these cañon torrents means. If a body of water is moving at a given velocity, say five miles an hour, it represents a certain horizontal force, sufficient perhaps to push gravel along its smooth bottom containing nodules an inch in diameter. If you double the velocity of the current the force exerted is augmented to the sixth power. In other words it will move boulders weighing 180 times as much as the inch through gravel. But the stream which dashed down Las Flores Cañon, containing the pent-up waters gathered from a large catchment, every foot of which is on a steep slope, was narrowed to the nearly vertical walls which confined the accumulated flood, and was doubtless piled up to a considerable height before it could get egress through the narrowed channel. Now the vertical pressure of a column of water is another factor to be taken into account. Suppose the column of water gathered into the narrow gorge was thirty feet high—not an improbable estimate, then the vertical pressure alone would be about fourteen pounds per square inch, which, added to the enormous velocity force developed, would amply account for the tremendous erosive power exerted by the Las Flores torrent. It must have been a million times greater than the force exerted by the flow of an ordinary silt-carrying river.

It was, indeed, an exhibition of a geological cataclysm, and a study of the attendant facts will throw light on other phenomena presented to the investigator in various sections of this arid region. How did boulders a foot through find their way to the bed of the Arroyo Seco, where it debouches into the Los Angeles River, twelve or fifteen miles from the mountain ledges from which they were originally dislodged? Evidently by torrential forces generated in the remote past, similar in their nature to the exhibition given us the other day in Las Flores Cañon.

CLOSING UP AQUEDUCT.

Belmont and Morris Parks Control Vicinity's Racing.

American Turf Association is Preparing Its Rules.

Gov. Folk and Bookmakers. Bay Results.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, Feb. 7.—Trouble in arranging dates for the local race tracks this season, owing to the completion of the new Belmont Park course on Long Island and the decision of those controlling Morris Park to continue the sport another year, has resulted in a deal which will close Aqueduct track, at least for the summer. The sale of the latter has not yet been concluded, but probably will be in a few days for a sum in the neighborhood of $150,000. The racing dates thus made open will be given to Morris Park.

Those controlling the older tracks on Long Island absolutely refused to surrender any of their time, and the purchase of Aqueduct was the only course open in order to preserve the equal order of events interrupted by the unexpected decision of the club controlling Morris Park.

It is understood that Aqueduct track will be maintained in its present state, for use in future years.

AMERICAN TURF RULES.

[BY THE ASSOCIATED PRESS—A.M.]

NEW ORLEANS, Feb. 7.—The Committee on Rules, Bylaws and Constitution of the American Turf Association was in session today. One of the most important rules adopted was that members of the different associations would only be paid mileage to attend the monthly meetings of the association. The members will not have their hotel bills and other expenses paid. Neither will they be under high salary. Jockeys will be compelled to pay $25 for

CLOSING UP AQUEDUCT.

Belmont and Morris Parks Control Vicinity's Racing.

American Turf Association is Preparing Its Rules.

Gov. Folk and Bookmakers Bay Results.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, Feb. 7.—Trouble in arranging dates for the local race tracks this season, owing to the completion of the new Belmont Park course on Long Island and the decision of those controlling Morris Park to continue the sport another year, has resulted in a deal which will close Aqueduct track, at least for the summer. The sale of the latter has not yet been concluded, but probably will be in a few days for a sum in the neighborhood of $150,000. The racing dates thus made open will be given to Morris Park.

Those controlling the older tracks on Long Island absolutely refused to surrender any of their time, and the purchaser of Aqueduct was the only course open in order to preserve the equal order of events interrupted by the unexpected decision of the club controlling Morris Park.

It is understood that Aqueduct track will be maintained in its present state, for use in future years.

AMERICAN TURF RULES.

[BY THE ASSOCIATED PRESS—A.M.]

NEW ORLEANS, Feb. 7.—The Committee on Rules, Bylaws and Constitution of the American Turf Association is in session today. One of the most important rules adopted was that members of the different associations would only be paid mileage to attend the monthly meetings of the association. Members will not have their hotel bills and other expenses paid. Neither will they be under high salary. Jockeys will be compelled to pay $25 for licenses, and trainers between $5 and $10. The rules of racing will be similar to those of the Western Jockey Club.

GOV. FOLK AND BOOKMAKERS.

[BY THE ASSOCIATED PRESS—A.M.]

JEFFERSON CITY (Mo.) Feb. 7.—Gov. Folk today sent to the Legislature a special message dealing chiefly with legislation affecting the proposed repeal of the breeders law, which licenses bookmakers to sell pools in certain inclosures, the fee going to the support of the State fair. Gov. Folk urges the amendment of the law so as to eliminate the licensing of gambling by the State. The Governor says the law is good so far as it goes, but that it does not go far enough.

EVERY POOLROOM CLOSED.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 7.—[Exclusive Dispatch.] For the first time in many years every poolroom in New York City is closed, or operating with the greatest secrecy in the interest of a few regulars. District Attorney Jerome has ruined this evil as effectually as he has the big gamblers. It was announced tonight that James F. Mahoney, known as the King of the poolrooms, has fled to Europe to escape subpoenas issued by Jerome. Under this law, Mahoney would have been compelled to testify against every poolroom proprietor with whom he did business.

NEW YORK CLUB'S FIGHT.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Feb. 7.—[Exclusive Dispatch.] Formally denied racing dates by the Jockey Club stewards, the Empire City track at Yonkers, otherwise known as the New York Jockey Club, announced today through Manager McConnell that racing would be carried on despite the refusal of the Jockey Club. The property is valued at over a million dollars, and McConnell declared it was not the intention of the owners to let it lie idle when they had fulfilled every requirement of the Percy-Gray racing law, and was as entitled to race as Belmont Park or any other place.

The New York Jockey Club, if any attempt is made to enjoin what will essentially be its outlaw meeting, will ask the courts to declare the Gray law unconstitutional. That the Jockey Club will attempt to stop the outlaw meeting is certain, for under the law the racing board alone has jurisdiction over racing in New York State. It seems certain that a bitter turf war between the two factions, each powerful and fighting for control will be on this year. Turfmen are greatly alarmed, but the business public will rejoice in any move that will tend to kill alleged sport which has become the curse of the city and its environs.

Knight of the Law, b. m., 5, Santiago-Miss Ford. Trained by W. R. Brannon.

Estrellada was best, raced Law into early submission, then came away easily, holding safe last eighth, winning with some to spare. Aminte made up ground gradually, outstayed Isabelite in sharp last 100 yards brush. Latter under keen urging all final eighth, tired only closing strides. Rice made up much ground, finishing resolutely.

Doctor C. place 4-5, show 2-5; Cotillion place 8-5, show 7-10; Dixielle show 2.

Doctor C., ch. c., 3, Dr. Rice-Miss C. Trained by H. McDaniel.

Scott Gentry not called on until entering stretch, moved up like flash eighth out next rail, passing Gentry and winning going away fast. Cotillion stood long stretch drive gamely, but little best of others had no chance to beat winner. Dixielle came with rush final eighth, stopping out Gentry. Latter showed speed six furlongs but tired fast when final drive for Sportsman tired fast after turning for home. Paris cut off badly first turn.

THIRD RACE—Six furlongs. Selling. Four-year-olds and upward. Value to first $325.

Time—0:23½, 0:49, 1:14½.

Sweet Polly. At post 2 min. Start good. Won easily, second same.

Dorlie place 1-2, out show. Baxter place 4-5, show 3-5; Mogul show 7-10.

Sweet Polly, ch. m., 4, Nephew-Lillie W. Trained by owner.

Duke of Hilo appeared overconfident first half, became alert entering stretch and setting down to work rode Polly vigorously, the mare closing up fast final eighth with clear path in front easily were down. Dorlie last seventy-five yards and won going away fast. Dorlie, an added fettle, forced sharp pace first quarter, then gradually drew away, appeared winner over next rail but was unable to withstand winner's splendid final stretch challenge. Mogul ran to his best form, stood fast pace first half with courage, tired only last sixteenth. Ross ran lifeless race, showed scant speed, can do better.

FOURTH RACE—One mile and a sixteenth. Selling. Four-year-olds and upward. Value to first $325.

Horse and Owner—	Wt.	St.	¼	½	¾	Str.	Fin.	Jockey.	Op.	Cl.

Waterfall place 2-2, show 7-10; Dutiful place 2½, show 1; Watercure show 3-5.

Estrada, b. h., 4, Maxio-My Badge. Trained by T. Kelly.

Waterfall—Briarthorpe.

Estrada ran on heels of Dutiful first seven furlongs, then closed up fast assuming easy lead sixteenth, winning as rider pleased, met with no mishaps. Dutiful off flying, speed for seven furlongs, stood last eighth drive gamely but no chance to beat winner. Watercure off poorly, moved up fast down back stretch, loafed along here and had to with whip, was cut off sharply, carried far wide by Viva entering stretch, losing ground, and tired palpably last sixteenth under punishment, did not run his race. Dreamer easily outrun all the way, company probably too good. Rider propped as barrier up, was eased up after running first quarter.

FIFTH RACE—Six furlongs. Selling. Four-year-olds and upward. Value to first $325.

Horse and Owner—	Wt.	St.	¼	½	¾	Str.	Fin.	Jockey.	Op.	Cl.

Time—0:24, 0:49, 1:15.

Frank L. At post 5 min. Start good. Won easily, second driving.

Samuel place 4-5, show 3-5; Palmist place 2, show 1; Prue show 2.

Frank L., b. h., 5, Hymar-Ida Pickwick. Trained by G. Luckey.

Josie-Daniel. Frank L., Perley 2, Josie Wheeler 4½, Gondolus 2.

Perley began somewhat slowly but moved up fast entering stretch and after little shaking up sixteenth came away easily closing strides. Palmist ran cracking good race, improved gradually throughout, finishing resolutely, wearing down Wood last few strides. Latter stood long stretch drive gamely, swerving slightly final fifty yards which cost second place. Gondolus forced sharp pace for half mile then tired fast. Bandillo forced to almost walk final eighth. Denzil was sharply cut off by Bandillo first quarter.

SIXTH RACE—One mile and a sixteenth. Selling. Four-year-olds and upward. Value to first $325.

Horse and Owner—	Wt.	St.	¼	½	¾	Str.	Fin.	Jockey.	Op.	Cl.

Prue Horn. At post 2 min. Start good. Won driving, second same.

Fred Berry place 2-2, show 2-5; Berry place 2-5, show 1-4; Durbar out.

Prue Horn, b. g., 4, Handsel-Miss Cleveland. Trained by R. Hobart.

Fred Berry—Hoefful, Varro.

Miss Bright—George Berry 1.

Dorlie easily outrun first six furlongs, came with rush final eighth, passing Durbar like a few strides under sharp urging. Herbert could not hold him straight last seventy-five and he bumped Bright out of her stride and slightly interfered with Berry. Latter ground steadily final quarter, was in close quarters last sixteenth, but would have finishing resolutely, nipping out Durbar in last stride. Latter showed keen speed three furlongs then gave out fast. Bright finished resolutely and but for interference would have finished second. Brown tired fast last eighth.

CRIMPS IN BOOKS' ROLLS.

Big Crowd of Sports Beat the Storekeepers.

Aunt Polly is a Kind Friend to Many Admirers.

Padua and Bugle Horn are Good Things.

Three heavily-played winning favorites and three other winners on which hundreds of sports had wagered their money was the game the bookmakers tried to beat yesterday at Ascot, and if ever an aggregation of wise men was glad that the day was done it was those tending store yesterday. From start to finish the sports made continuous assaults on the strong boxes and luck was with them to a gratifying degree.

A large amount of money must have been taken out of the ring, for the big majority of sports played Doctor C. and Frank Perley at 2 to 1 and Aunt Polly at 7 to 10 as if these horses were to be the last winners at the meeting. Several $500 bets were made in two books on Aunt Polly and hundreds of other smaller bets at any old price, and Frank Perley and Doctor C. were played heavily from the time the stores opened for business on their races.

These victories furnished the excitement of the early part of the day, and although the books got some of their coin back on the defeat of Ripper in the fourth race, they lost that and more when Frank Perley won in the fifth. There were sixteen books doing business in the ring. At least 5000 people saw the sport, it being ladies' day, and the betting was brisk for all the books on every race.

The three favorites to lose were Ripper in the fourth, Bandillo in the fifth and George Berry in the last. Bandillo was certainly a false alarm, for he finished a bad fifth after leading all the way into the stretch. He was what might be called a bookmakers' favorite. They put up the shortest price on him at the start and he was held that way even while the wise money was poured in on Frank Perley and Palmist. Bandillo led Gondolus a fast pace into the stretch, with Perley close behind, and when straightened out for the finish Fuller sent Perley on and he won easily by a length from Palmist, who finished with a rush in time to nip out Prue Wood for the place.

In the fourth Ripper was apparently outclassed, as he was outrun all the way. Dutiful set out to make the pace for Padua and the two ran like a team; when near the finish Lynch shook up Padua and he won easily from the gray. Ora Viva could not keep up and finished last. Rough Rider was left at the post, dropping badly just as the string went up.

The two good things of the day were Padua in the fourth race at 9 to 2 and Bugle Horn in the last at 5 to 1, and both were in at false prices, as they won on their merits.

In the early part of the meeting Bugle Horn beat Emperor of India, Tender Crest and Durbar at seven furlongs and since then has been in against a better class of horses and has done nothing. Yesterday he got a bad start and was absolutely last at the half-mile pole, but made up ground fast after that and ran over everything in the stretch, winning in a drive from George Berry and Durbar. Bugle bumped into Flora Bright and Berry in the last 100 yards and slightly interfered with them, but was probably best at all events.

Estrellada won the first race easily from a big field and was a very strongly-played favorite.

Doctor C. was bid up by Al. Austin from $500 to $900 and retained by the owner.

$50,000 in gold has been spent by the owner of the mine in development work, and over 40,000 tons of free milling ore is blocked out that assays from $20.00 to $65.00 gold per ton. The sale of this stock is for the purchase of a 20-stamp mill that will be installed by June 1st, and will crush forty tons a day, yielding over a thousand dollars gold bullion a day. This stock will soon go to par after the mill is in operation.

WHICH FIELD DAY?
SCHOOLS WILL DECIDE.

Claude Braden, physical director of Throop Institute at Pasadena, has sent invitations to all the secondary schools in this end of the State, asking each one to send a representative to a meeting to be held at Throop Institute next Saturday for the purpose of reorganizing the Southern California Interscholastic Association. There are invitation field meets planned by both the U.S.C. and Pomona and one object of the meeting is to decide which meet to attend. It is hoped that both Hempel of Pomona and Holmes of U. S.C. will be at the meeting. Lunch will be served to all representatives by the Throop Athletic Association.

OLDSMOBILE

BUILT FOR YOUR COMFORT

The pleasures of automobiling are largely dependent upon the easy riding qualities of the machine itself. The Oldsmobile Light Tonneau Car has demonstrated that it rides as easily with one passenger as with four, and the long Oldsmobile side springs entirely absorb the irregularities of the roughest road.

Through a wide door you enter a roomy luxurious tonneau upholstered with deep springs and covered with hair and hand buffed leather. There is plenty of space for passengers without being cramped or crowded, and divided front seats—features usually found only in the high priced cars

Everything is carefully worked out to make a comfortable car, economical to operate and maintain and wonderfully low in price—

Only $950.00

Many Are Treated For Conditions That Do Not Exist

The unreasonable treatment of many conditions is the direct cause for chronic troubles due to improper measures rather than disease. In the treatment of chronic ailments I am safe in saying my method of treatment is the most effective, for it does away with all guesswork. I have cured hundreds of the most chronic cases by this direct method. I accomplish more in one week than can ever be accomplished by guessing through the mail.

NOT BY MAIL

I accomplish more in one week's time than can ever be accomplished by guessing through the mail. You have tried it and failed; so have others. There is no certainty in guesswork.

VARICOCELE

I cure in four to six days. Many men have treated unsuccessfully for varicocele. My treatment is painless and the results are complete forever.

STRICTURE

I cure the right way, once and for all. I remove all urethral obstruction, inflammation and soreness, and restore the membrane to a healthy condition, usually ten to fifteen days.

CONTRACTED DISEASES

Failure to quickly cure these conditions is due to harsh measures, which are the direct cause for chronic condition. My treatment is the most cleanly and perfect known.

I cure Rectal, Kidney and Bladder Troubles, Piles, Fistula and blood diseases, wasting, nervous and chronic conditions, causing functional derangement, impairing strength and vitality.

A BAD PRACTICE—ABOLISH IT.

It seems that a practice is in vogue at the University of California which allows professors and assistants there employed to perform private commercial work during time that they are supposed to devote to study or teaching, and that in this outside work they are allowed to use costly apparatus and supplies which belong to the State.

It is further alleged, upon seemingly good authority, that "in addition to the ordinary run of commercial work performed by the teachers in the technical and scientific departments (for which regular fees are received and personally appropriated,) certificates under the name of the State University are issued, indorsing and recommending the special merchandise of favored business houses," and that "the money received by some of the professors and assistants annually amounts to almost or quite as much as the salaries paid them by the State."

If these statements are true—and they are made with such circumstantiality as to admit of little doubt—the practices referred to constitute a grave abuse, which ought to be corrected forthwith. Persons employed by the State should be paid fair salaries for their services, and should be required to give their entire time—by which is meant reasonable hours of labor—to the work for which they are employed. They should not be permitted to engage in outside occupations, and least of all should they be allowed to use apparatus and supplies belonging to the State for the benefit, or in the service, of private individuals, firms, or corporations.

It is said that the evil "has grown to such proportions as to be a menace to many legitimate lines of business;" that "manufacturers, business houses, engineers, chemists, assayers, etc., have found themselves in direct competition with men salaried by the State, having leisure and assistants, who, under the seal of the State University, and with equipment and supplies of the State, not only use their position to obtain business, but in many cases do it cheaper than it can possibly be done by those regularly engaged in business."

And the State "pays the freight."

To remedy this shameful and shameless state of affairs, a bill has been introduced by Assemblyman Gates making it unlawful for any professor or assistant of the University "to recommend a business or specific merchandise of one reputable citizen or firm as against that of another, or give certificates or written statements under the name of the University, as a professor or assistant thereof, that could be construed as a discrimination, or as prejudicial in commerce.

Professors and assistants are also forbidden to accept, perform, or receive compensation for outside or commercial work during the regular University terms, and the use of University supplies or apparatus is prohibited. For the first offense, the offender is to be openly reprimanded by the Board of Regents, and for the second and subsequent offenses, suspension from the faculty without pay for not less than six months for each offense is prescribed.

That this bill should become a law is self-evident. The penalties which it prescribes are rather light, but perhaps they will be sufficient to put an end to the abuse complained of. These abuses tend to bring discredit upon the State University, and to lower its moral status, and they should be stopped at all hazards. The bill introduced by Assemblyman Gates appears to be well designed to accomplish this result.

PASADENA'S MISTAKE.

By a vote of 542 to 252 the city of Pasadena has adopted an amendment to its charter providing a "recall" system whereby elective officers may be displaced before the expiration of the terms for which they were elected.

In permitting this pernicious system to be fastened upon them (by the small number of 542 votes) the citizens of Pasadena have taken a step which they will probably regret very keenly in the near future. Los Angeles has had some experience with this sort of thing, and this experience has not been of a nature calculated to recommend the "recall" to other communities. That Pasadena will find the device as objectionable, and as inimical to good government, as it has proved to be in Los Angeles, whenever an attempt is made to put it into operation, is a foregone conclusion.

The "recall" scheme, as it has operated in Los Angeles—and as it will doubtless operate hereafter until repealed or declared invalid—is retrogressive, reactionary and harmful. Its tendency is not to purify, but to debauch, politics. It is not only a breeder of strife, but a breeder of corruption. It can be made to serve as an instrument for putting good men out of office and for putting bad men into office. It can be used, and it is likely to be used chiefly, for the working out of personal revenges and the satisfaction of private malice. It can be used to reverse the verdict of the majority of voters, and to substitute therefor the verdict of a minority.

Let us cite a possible case: Suppose a certain city officer to have been elected by a majority of 100, or 500, out of a total vote of 20,000. Enemies of the officer so elected start out with a petition for his recall. They obtain the requisite number of signatures—5000. (People will sign petitions for any purpose, for the mere asking.) The special election is duly called. It is a notorious fact that at special elections the vote is always light—seldom one-half as large as the vote at a general election; often it is less than one-fourth. The recall election would call out, say, 9000 votes. Of those, the recall contestant for the office might receive 5000 and the incumbent 4000. The contestant would thus be elected by a minority amounting to only one-fourth of the total original vote; for it only requires a bare majority (or a plurality) of the votes cast at a recall election to elect, although these votes may be but a fraction of the vote received by the candidate elected at the general election, whose removal is sought.

On the day preceding the Pasadena charter amendment election, the Evening Star of that city published a sensible editorial, from which the following extracts are taken:

"Pasadena wants to be progressive, of course, and modern ideas and methods should prevail, but it will be a mistake to adopt a plan by which a few agitators may be able to disturb conditions which are entirely satisfactory to the majority. If the recall required a majority petition for calling an election it would not be so objectionable, but according to the proposed plan a few persons will be able to make trouble at any time, and on the slightest provocation.

"The better class of citizens will be deterred from offering their services to the city if they are to be subjected to the attacks of the few who are never satisfied with anything.

"In case of a hotly-contested election and a very close vote, the defeated side can immediately trump up some excuse for calling another election, and there would be no end to the annoyance.

"Even in Pasadena, strongly Republican as it is, there are quite a number of calamity promoters who would sign a petition to remove President Roosevelt, and with his tremendous majority in the nation, the greatest ever given a President, there would be a move to call another election with the hope of removing him, if the dissatisfied element could have its way.

"One of the best features of popular government is that the majority rules, but the recall places too much power in the hands of a minority. Los Angeles's experience with the recall has been anything but encouraging, and it is now quite probable that the man who came into office through the recall there may be removed by the process. It has developed into a bowling farce, and many who took part in the recall election there are sick of it."

It may be set down as an absolute certainty that Pasadena will be "sick" of the recall scheme sooner or later. It has only to be given a thorough trial to prove its worthlessness and utter impracticability. Besides, it is an expensive experiment. If resorted to with anything like frequency, the extra expenses entailed would cut a big hole in the public funds.

Notwithstanding the vicious features of the recall scheme, which have been in part revealed by the experience of Los Angeles, 542 voters of Pasadena have fastened the recall upon that city. The 1000 or more voters who might have prevented the incorporation of this impracticable measure into the city's fundamental law will have ample cause in the future to regret their non-action.

Another amendment adopted at the Pasadena election limits the life of all franchises to twenty years. This bit of shortsighted folly will practically stop all street railway extensions, and will greatly retard the growth of the city in all directions not now served with trolley lines. This will not materially affect the wealthy residents, who have their own private conveyances, but it will be very injurious to people of moderate means, who depend upon street railways for transportation, and who cannot have homes in outlying sections unless they can have cheap transportation to and from their homes.

The anarchist and the assassin are busy again in Finland, Poland and in Russia itself. They are busy with murder and secret crime, the two things above all others that have ever stood in the way of liberty in every land and at every stage of the world's history. The anarchist is the foe of freedom, and he does nothing but strengthen the hands of oppression, for the reason that he forces every decent, honest and fair-minded man to take sides even with tyranny rather than with torchbearers and dark-lantern cut-throats.

"Streets filled with slush from an inch to a foot deep and a treacherous coating of ice underneath. Heavy mists." That's the picture of New York, painted by the press dispatches. In California, at the same moment, there were skies as blue as the eyes of your first sweetheart, the hills were green with new-born hues of emerald; the morning was aflame with glory and the night begemmed with stars. "Look on this picture, and then on this."

If the proceedings of the thirty-sixth session of the California Legislature are followed by the nation at large, we must indeed stand as an edifying spectacle before the sisterhood of States. Senators charged with bribe-taking, judges impeached for misdemeanors in office, grafters, lobbyists and the smut and smear of pothouse politicians! Ugh!

San Pedro should make use of the elegant supply of water it has cooped up inside its harbor lines with the idea in mind of treating to a ducking in its briny depths that unspeakable fiend who is poisoning the domestic animals of the town. Catch him, tie him to a big long pole and souse him!

The testimony as to the inebriety of Judge Torrance appears to be conflicting and contradictory, and recalls the statement of the old darky, who once was called to the witness stand to testify to the character of a certain lady "for truth and veracity." "It's jest dis a-away, Jedge," said he, "some say she do, and some say she don't."

There seems no longer to be any doubt that the question as to whether the railroads or the President of the United States may have the ear of Congress is at last to come to a "showdown." The people will gladly take any reasonable odds on Teddy to win at the end of about the second round.

The Buffalo News prints a biography of Senator-elect Frank P. Flint in which it is said "he stands at the head of the bar in Southern California, and has made his way professionally by his powerful talents." It may be added that you must go to Buffalo to get the News.

It is surprising how cheaply a railroad in politics can buy up statesmen. Most of them can be had for an annual pass. And when a statesman accepts that little pasteboard card he is bought as securely as if he had taken a fortune. He daren't holler, afterward.

The really astonishing thing about these footpads and highway robbers is that they always hold up people who have money. That's one reason why newspaper men live in such constant dread when they go forth at night unattended.

It is now suspected that the attempt to burn up a local brass band at a recent concert was perpetrated by some enthusiast who thought the bazoos were about to break forth in the brocken scene from "Faust."

When the Kaiser's boys cut up some didos they are "placed under arrest," which is what our daddies used to do with us, only we were also escorted to the woodshed, and there belabored with a barrel stave.

Every decent man who is serving the State as a lawmaker in Sacramento at the present time will spend the rest of his life trying to forget it, and begging everybody else to forget it.

The latest compilation of statistics regarding the religious situation in Los Angeles rather warrants the conclusion that while the devil is considerably disfigured, he is still in the ring.

Put your ear to the ground and you'll hear the poppies growing. They're just waiting for the March moon, and then they'll flame out upon the uplands in waves of golden fire.

What California should some time aim to secure is a Legislature that will not need investigating until it has been at least three weeks in session.

When the Legislature adjourns there will be work for the State Board of Health in Sacramento. The town will need to be disinfected.

It is also to be remembered that most of these hold-up victims were neither going nor coming from the revival meetings.

The man who constantly looks backward not only fails to make progress, but is also liable to get a pain in his neck.

PRESIDENT'S NOMINATIONS.

WASHINGTON, Feb. 7.—The President today sent to the Senate the following nominations: Consul-General, David Wilbur, New York, at Singapore, Straits Settlements. Marshal, George G. Perry, Alaska, for Division No. 3, District of Alaska.

THIS KING BUSINESS IS NO SNAP

Nicholas: Strange! but I seem to find much time to write nowadays.

MUSIC AND MUSICIANS.

Wagner Night at the Chutes.

Music lovers will enjoy the first performance of Wagner's great overture, "Rienzi," by the Ellery Band tonight. Ferulio's reading of this difficult Wagnerian number is sure to be full of dramatic surprises. Other Wagner numbers listed are "Die Meistersinger," prize song, "Tristan und Isolde," "Albumblatt" and Lohengrin's Narrative. Scharwenka's "Polish Dance," Mancinelli's "Cleopatra March," and the "Lucia" sextette complete a programme which should be sufficient to crowd the Chutes Theater to the doors.

The Lyric Club, a new organization of women singers under the direction of Mr. Poulin, will be present at this concert in a body with hundreds of their friends.

Melba Seat Sale.

Residents of country towns can reserve seats for the Melba concerts by sending orders to the Union Pacific ticket office, No. 250 South Spring street. The management will honor mail orders and telephone calls just the same as if the purchaser were present at the counter.

Symphony Orchestra.

The Los Angeles Symphony Orchestra will be heard in its fourth concert at the Mason Operahouse on Friday afternoon of this week, at which time Director Hamilton and his men will present a splendid programme of symphony music. The soloist for this occasion is Miss Corinne Bailey, the well-known soprano from New Orleans, whose work in oratorio and concert is well known throughout the South.

Dolmetsch Players.

The reserved-seat sale opens today for the Dolmetsches, who are to give one of their unique entertainments at Simpson Auditorium, next Monday evening, and a Shakesperean programme on the following Thursday afternoon at the same place. The Dolmetsches are a company of players who present the Shakespearean and Elizabethan music of the sixteenth century on instruments in vogue at that time. The programme consists of trios, duets and solos, with Miss Kathleen Salmon as vocal soloist. The interpretations of contemporary Shakespearean music of these people are full of interest and they are becoming an educational factor in the music of today. Popular prices will prevail.

Creatore's Band.

There is one thing particularly which raises Creatore's Band from the level of other bands, and that is the excellence of his programmes. Among other rare selections that will be played here is one from Berlioz's "Damnation of Faust," arranged in suite form. The first concert given by Creatore and his Great Italian Band will take place next Friday evening, at Temple Auditorium.

THE MIDWINTER.

A Powerful Factor.

[Santa Clara Journal:] The annual trade edition of the Los Angeles Times has been received at this office. It is a monster edition, a complete and comprehensive review of the business done in the southern metropolis during the year 1904. Like all previous efforts on the part of The Times the work is high class and a most creditable advertisement of the "Chicago of California." Gen. Otis, the owner of The Times, is making that great daily a powerful factor in the march of progress which is now pushing Los Angeles still more rapidly to the front.

Better Than Letters.

[Compton Enterprise:] We are in receipt of a copy of the Midwinter Number of the Los Angeles Daily Times, which eclipses any previous number, in reference to Southern California resources, ever published by this firm. This paper would be the very thing to send to your friends in the East. It would be better than all the letters you can write to them.

A Painful Contrast.

OWATONNA (Minn.) Jan. 22, 1905.—J. A. Farnsworth, Los Angeles, Cal.—Dear Sir: Your letter of January 3 at hand. The Midwinter Number of The Times came along in due time. We enjoyed it very much. The only drawback to reading it, was that it made our winter weather seem several degrees colder. Surely Los Angeles and its citizens are awake and up to date. Thanking you for your kind remembrance, I remain. Yours respectfully,
J. H. ROBSON.

SECRETARY OF EMBASSY.

WASHINGTON, Feb. 7.—Announcement was made at the State Department today of the appointment of Charles Richardson to be secretary of embassy at Rio de Janeiro and James Johnston to be Consul at Algiers.

MINES AND MINING.

TO FREIGHT IN YAQUI COUNTRY.

LA BUFA MINING COMPANY LETS IMPORTANT CONTRACT.

Los Angeles Men Developing Copper Property in Cochise County, Ariz. Brockman Buys Pilgrim Group in Mohave County—Development at Goldstone and Panamint Country.

Difficulties in getting freighters to haul ore and supplies has been for some time one of the principal obstacles with which the miners of the La Bufa district of Sonora have had to contend. A contract has just been made, however, by the La Bufa Mining Company of this city with parties who will handle freight between Ortiz Station on the Sonora line and the Yaqui River for 2 cents a pound. In the present disturbed state of the country it is not easy to get men to undertake the work.

The La Bufa company is now mining about five tons of matte a day, running about $500 per ton in copper and gold. The smelter is rushed with work and will have to be enlarged before any custom work can be handled, the company's own business at present receiving its entire capacity. This is nominally fifty tons, but the character of the ore renders the actual amount somewhat less. The ore is shipped as far as the Yaqui River by the company's own mules and there transferred to wagons for hauling to the railroad. It is the intention to enlarge the plant as early as possible.

ARIZONA COPPER.

The Huachuca Consolidated Development Company, which is largely owned and controlled in Los Angeles, is operating a copper property in Cochise county, Ariz., where there are eight parallel ledges, the smallest three and the largest twenty feet wide. Assays made of ores from these give an average of over $9 per ton, and some have been running as high as $800, although as a rule the values are remarkably uniform. A stamp mill and cyanide plant are expected to be in operation within sixty days.

A postoffice has been established near the property and named Palmeriee, after J. S. Palmeriee, formerly of this city, president and general manager of the company.

BUYS MOHAVE MINE.

John Brockman, owner of the P. O. mine near the Pierce properties, in Arizona, has purchased the Pilgrim group in the River Range district of Mohave county. He has commenced sinking a 500-foot shaft on the property.

DEVELOPMENT AT GOLDSTONE.

P. H. Matthews and A. Samuel Parks, president and secretary of the Providence Gold and Copper Company, have returned from the company's mines at Goldstone, Providence Mountains, in San Bernardino county.

"We have been working one shaft to a depth of sixty feet, but we are leaving that off and will again develop one that we worked before to a depth of ninety-two feet," said Mr. Matthews yesterday. "In this we have had ore that assays on an average $15 to the ton. The ledge is about three feet. We did have some ore that ran $660 and $1030 in places, but this is not by any means an average sample."

The company recently amended its bylaws, by vote of the stockholders, so as to permit the levying of an assessment to carry on development work. This will probably amount to about 1 cent per share.

Mr. Matthews brought back a number of samples recently taken from the property to be assayed. They are expected to show up very well.

WEALTH OF THE PANAMINT.

Midway between Armagosa and Daggett there has been developed a gold property which exposes such great quantities of good ore at 250 feet that it justifies the theories of mining men that the California desert region is one of the richest mineral zones in the world. This mine is within 150 miles of Los Angeles, in the Panamint range country on the western slope of Death Valley. It is controlled by a syndicate of wealthy men, with Gerald P. Fitzgerald of Ireland, formerly of Duarte, Cal., as its head. Others interested are Frank Andrews of the New York Stock Exchange and S. M. Slocum and L. N. Wheeler of Monrovia, Cal.

For five years development work has progressed steadily. The shaft on the main claim is down 250 feet, 3000 feet of work has been done, and over 50,000 tons of ore is blocked out. At this depth water has flooded the shaft and S. M. Slocum, superintendent, is in Los Angeles to purchase a powerful hoist to control the flow. From almost the surface down the ore is free milling to the 200-foot level. Several mill runs made at Barstow show this ore to carry $20 to $25 in gold. From this depth the character of the ore changes, and below are concentrates which carry from $15 to $18 in gold to the ton with 30 to 60 ounces of silver.

The ore body has been exposed. At the 200-foot level there is a drift 400 feet east and 200 feet west, from which the crosscuts run at intervals of seventy-five feet. The ore body shows a maximum width here of thirty feet. At the 300-foot level it is even better, the crosscuts showing over thirty feet of ledge matter from wall to wall. The country rock is granite and the formation consists of heavy dykes of black slate and quartzite.

It is the purpose of the owners of this property to go down to the 500-foot level, when they believe sufficient ore will be blocked out to justify the erection of a fifty-stamp mill.

"There has been a change in the character of development work in the Panamint lately," said Mr. Slocum yesterday. "In the past there has been a lack of steady, systematic work. Now, however, Colorado and eastern capital is coming and may result in great development of the region."

WEALTH'S FORM AND FACE.

A poor man prayed the gods to send
him Wealth.
His prayer was answered, and she
came to him,
Faced like a goddess—whom he had
caressed
But for her withered form and shrunken breast.

"Wealth's rounded form, and not her face, I want!"
When she replied: "Think twice before you choose,
Before the world, Wealth can a Venus be,
Or Harpy to it and Venus unto thee."

She turned her face, when, now, her goddess form
Enraptured him. He stretched his arms, when, lo!
She faced his gaze, faced like a withered witch;
"Wealth's form you have, and with it, now, be rich."

He cried: "Ah, woe is me! Not rich, but poor!
Go, bless mankind; you are a curse to me.
If 'twixt Wealth's form and features I must choose,
I will have neither." "Nor shall either lose.

For selfish man, Wealth is half ugly, while
To help their fellows she lacks face nor form.
Let me bless others, I shall still be thine."
When now to him Weath wholly was divine.

POSTMASTER REGO EMBEZZLER.

HONOLULU, Feb. 6.—Manuel Rego, postmaster of Koloa, Island of Kauai, was arrested today charged with the embezzlement of $27,077 of money order funds. He was brought before United States Commissioner Judd and committed for trial to the April term of the Federal court. To Postmaster Inspector Hare, Rego admitted that the he had taken the money and used it in his private business enterprises.

JANUARY CIRCULATION OF THE TIMES.

The following is the sworn statement of circulation of The Times for January, 1905.

STATE OF CALIFORNIA, COUNTY OF LOS ANGELES, SS.:

ANOTHER MILESTONE PASSED! OVER THE 40,000 MARK.

The sworn circulation figures of The Times, for January, printed on this page, show the largest daily average in its history. The 40,000 mark is passed, and the road to 50,000 circulation begun. The large circulation gains of The Times are an index to the rapid growth in population in this section, and the time for fifty thousand daily circulation is not far distant.

The Times is prepared to prove that no other two papers in Los Angeles can approach its January figures with legitimate circulation.

AMONG MEN OF AFFAIRS.

"The rainstorm has put a temporary stop to the operation of our all-night plow," said Hon. Russell J. Waters, president of the Citizens' National Bank, who has farming interests at San Jacinto, "but it will have a wonderful effect on the crops that follow in the wake of the big machine.

"It is a matter of surprise to many that plowing is done here at night, but it is a fact, nevertheless. The machine we are operating near San Jacinto does half of its work between sunset and sunrise. An electric searchlight makes this possible.

"The plow is run by steam and not only makes a furrow but plants wheat or barley and harrows the ground, all at one operation. The big machine as it passes along plows, seeds and harrows a strip about fifty feet in width.

"The men who operate the plow work in three shifts of eight hours each, there being an engineer, fireman and blacksmith or general utility man in each shift.

"Thus the nine men in the course of twenty-four hours, plow, seed and harrow about 300 acres, or 100 acres every eight hours by each set of three men. This is the only place of which I know that plowing is done by searchlight, although the steam plow is not quite so much of a novelty.

"The machine we use works on the side of a hill or on level ground with almost equal facility and is estimated to do the work of 100 horses and several men. The ordinary plow in this country probably covers ten or twelve acres a day.

"With several thousand acres that the machine must go over in a short season for plowing it was found advisable to operate it at night, and the use of the searchlight has proved a success. One result is that a large area which it was able to cover before the rains set in now is green with the new grain that has shot up."

W. B. Kniskern, passenger traffic manager of the Chicago and Northwestern Railway, is here from Chicago for a rest. In company with C. D. Dunann of San Francisco, general passenger agent of the Pacific Coast Steamship Company, he is about to sail from San Diego on the steamer Curacao for a trip into the Gulf of California to Guaymas, Mex.

"The tourist travel from Chicago this year," said Mr. Kniskern, "is heavier by all lines than ever before. The extremely cold and unpleasant weather of the present winter is driving the people to this delightful climate, and the prospect is that the $32 second-class rate to California which goes into effect March 1, will be even more popular than it has been in previous years.

"This low one-way rate probably is more effective than any other in bringing permanent settlers to this Coast. A large proportion of those who take advantage of it are homeseekers. They come here with a view of settling, and of the thousands who make the trip only a comparatively small number return to the East.

"An interesting feature of the tourist travel to California is the total number of persons who make the journey by all the lines in the course of the year, both on excursion rates and at the regular tariffs. While the number is great, I do not believe that any attempt has been made by anyone interested to arrive at a close approximation of its volume. It would be a striking revelation, I think."

Mr. Kniskern tells with pride of the approaching completion of the new general office building of the Northwestern line, at Jackson boulevard and Fifth street, Chicago. It is six stories in height and will be used entirely for railroad purposes.

A unique feature of the building is a dining-room for employes of the company, to whom the noon meal is furnished gratis. Over 1000 clerks and other employes have the privilege.

Another innovation adopted by the railroad company, the popularity of which is said to be great, is a pension system that is operated without cost to employes. Under this system employes in the train service and other branches are retired at the age of 70 years, and are given a monthly allowance based on the salary received at the time of retirement. The pension amounts to about one-third of the sal-

It is denied by Mr. Kniskern that the Northwestern has drawn a "dead line" at 35 in the employment of its servants, although he says the tendency is to engage young men.

This is the season for another period of feud in the Melrose feud in the little town of Acton up in the hills. "Old Faithful," the geyser, is not a circumstance for regularity of eruptions compared with Acton and Acton's postmaster.

Within two days The Times has received two letters—one from each side—simply marvelous for the reeking they fairly exude. Either one of these would create a riot in a Christian Science meeting where kindly rights prevail.

J. M. Melrose writes to deny that he has mixed up in the fight resulting in the postoffice vacancy. Mr. Melrose is at peace with the world.

In the course of his letter he refers to two of the newspaper contemporaries of The Times as "cowardly, lying scavengers."

He says that W. H. Broome (whom he killed) ran "the worst confidence game on the Coast;" calls the people who took parts against him (Melrose) "a cohort of ready perjurers;" says that the District Attorney "spent the people's money like a drunken sailor;" and that a "school of perjury was established in the Courthouse."

Whew!

Supervisor Patterson has to do with all this does not appear clear. But here Melrose wades in: "By the action of Supervisor Patterson another office has been established in Acton, the riff-raff correspondingly enraged."

Finally, after two closely-written pages of furious abuse of various persons he gets down to the Acton postoffice.

He explains that he sold the postoffice to J. H. Walker, who had to take it up, throwing it back on Melrose.

He says then in the letter:

"I went to Acton January 9 and for the first time learned that a petition for the appointment of L. K. Rayburn had been circulated by Mrs. E. M. Fred Gross and Walter Cruger. The latter found it necessary to leave the state two years ago on account of an unmentionable crime,) but before forwarding, had scratched Mr. Rayburn's name and inserted that of Mr. Walker. So when Mrs. Walker told me she wished to keep the office I made out the monthly reports and came home.

"When I went to Acton for any of the purposes named in the article, or any opposition to Patterson and Walker has estranged any of my old friends, hasn't the slightest foundation in fact, and as to whom the next postmaster shall be gives me no concern."

Whether Mr. Melrose's friends have estranged from him on account of his opposition to Supervisor Patterson or because of the rising price of oat hay, indeed, they still love him like a brother is a matter over which The Times is not able to feel much excitement.

Melrose's statement that the postoffice is to him a matter of

W. R. Kniskern, passenger traffic manager of the Chicago and Northwestern Railway, is here from Chicago for a rest. In company with C. B. Dunann of San Francisco, general passenger agent of the Pacific Coast Steamship Company, he is about to sail from San Diego on the steamer Corinto for a trip into the Gulf of California to Guaymas, Mex.

"The tourist travel from Chicago this year," said Mr. Kniskern, "is heavier by all lines than ever before. The extremely cold and unpleasant weather of the present winter is driving the people to this delightful clime, and the prospect is that the $33 round-trips rate to California which goes into effect March 1, will be even more popular than it has been in previous years.

"This low one-way rate probably is more effective than any other in bringing permanent settlers to this Coast. A large proportion of those who take advantage of it are homeseekers. While the total is great, I do not believe that a prompt has been made by anyone attempted to arrive at a close approximation of its volume. It would be a big revelation, I think."

Mr. Kniskern tells with pride of the rapidly completion of the new general office building of the Northwestern line, at Jackson boulevard and Wells street, Chicago. It is six-stories in height and will be used solely for railroad purposes.

Another unique feature of the building is a dining-room for employés of the company, to whom the noon meal is furnished gratis. Over 1000 clerks and other employés have the privilege.

Supervisor Patterson has to say. All this does not appear clear. Then Mr. Melrose wades in: "By the aid of Supervisor Patterson another office has been established in Acton known as the riff-raff correspondingly enriched."

Finally, after two closely-written pages of furious abuse of various people gets down to the Acton postoffice.

He explains that he sold the postoffice to J. H. Walker, who had to give it up, throwing it back on Melrose.

He says then in the letter:

Finally Mr. Melrose's friends have exchanged from him on account of opposition to Supervisor Patterson and some of the rising price of oats. Indeed, they still love him like a brother is a matter over which The Times is not able to feel much excitement.

Mr. Melrose's statement that the postoffice is to him a matter of little concern is different, however. It makes one feel just as you do when you have caught the skeeter that has been buzzing around your ears—that peaceful sensation. So let the Acton postoffice rest in peace.

A letter was received in this office the same day as Melrose's letter from one of his alleged unestranged friends; somehow it has not just the right ring for real affection.

It asks in alarm if there is no way "to keep Melrose from boosing Uncle Sam." It speaks of Melrose's "bulldozing and compelling the people of Acton to take such doses as he sees fit to deal out to them. Melrose has only three families here who do not positively hate him for uncalled-for ugliness, unless it is these people from Chicago."

And the affectionate letter goes on to say that Melrose is trying to get a man named Taylor from Chicago into the job of postmaster in place of Mrs. Walker, to whom he sold the postoffice with his Acton property.

Melrose explains, however, that he sold his place in Acton to J. H. Walker and the postoffice went with it. Later the Walkers notified him that they would not keep the postoffice any longer; this left him responsible to the government; so he has been taking care of it. Further than finding someone to take it, he has no interest in the matter.

"Hoping," says the letter of the faithful friend, "you will let the world see Dr. Jeckel and Edward Hide in the person of N. M. Melrose.

"I will trust this letter," the writer says, "to one of the finest ladies in Acton."

And this will be all for the outburst from Acton.

NUNNALEY STRIKES BACK.

"Eddie" Morris came out of his political sepulcher long enough last night to tell the Civil Service Commission that he and Cal Foy went to the Republican City Convention last October with Oscar Nunnaley and that Nunnaley kept his hands off the Assessor's fight.

Foy played truant from the winding sheet to testify that Nunnaley wasn't on the floor of the convention at all, but hung around the entrance and swapped yarns with the Democrats.

This comprised the gist of the testimony offered by Chief Deputy Nunnaley who is defending himself before the Civil Service Board against charges brought by City Assessor Lewis.

In previous hearings deputies of the Assessor's office testified that Nunnaley was perniciously active on the floor of the Republican City Convention. So many conflicting stories have been related by the witnesses that the commission is all at sea as to just what Nunnaley has and hasn't done. Last night the hearing was continued until next Monday evening.

"No, Willie, you mustn't go down to play with Tommy," said a fond mamma to her seven-year-old son. "He has the whooping cough, and I'm afraud you'll take it."

"Oh, no, I won't, mamma," replied Willie. "If you'll let me go I promise I won't take anything belonging to Tommy."—[Albany Journal.

ORANGE RATE SITUATION.

CALIFORNIA FRUIT KEPT OUT OF SOUTHEASTERN STATES.

Large Territory East of the Mississippi and South of the Ohio to Which Oranges Cannot be Shipped at a Profit on Account of Prohibitive Freight Charges.

Speaking on the rate situation in the southeastern territory yesterday, B. A. Woolford, manager of the Southern California Fruit Exchange, said:

"During last season and so far this season, the through rate of $1.25 per 100 pounds on oranges east-bound has not applied into the southeastern territory, this district practically including all points south of the Ohio and east of the Mississippi River, with the exception of Memphis and New Orleans.

"This territory contains a population of about 14,000,000, and during last season's business practically the same number of cars were sold in all this territory as in the State of Virginia alone, where the through rate of $1.25 applied.

"When in Washington last September this matter was taken up with the representatives of the southeastern railroads interested, and during the same month in Chicago with the representatives of the transcontinental lines. It seemed, however, that nothing could be done in this matter of restoring the through rate, as this question had been up with the different traffic associations and had become a large one, inasmuch as all business, in and out of the territory affected, had been drawn into consideration, citrus fruits themselves forming a very small percentage of the total volume of business. The result has been, therefore, that an arbitrary rate from the gateways into this territory is charged, which adds from 25 to 35 cents a box to the freight on oranges into the territory affected. The representatives of the southeastern lines and of the transcontinental lines have both been approached time and again by us in this matter, and have refused to consider the rate on citrus fruits independently of all questions involved. The result is that in this controversy, as between two groups of railroads interested, our business has been affected adversely. The matter has been taken up again by us in the last week, and we are hoping for relief, but there is nothing definite in sight as yet. At this particular time, when in the northern markets the movement of fruit is checked on account of the extreme cold, were it not for the high freight rate against us in the southeastern or warmer territory, we could move a large volume of our fruit into that section, especially since Florida is practically out of the business, thus relieving northern markets. It is to be hoped that the transportation companies interested will recognize—and at once—the situation in which we are placed and that relief will be forthcoming.

"Regarding the rate question in general and its control by the Congress of the United States, our interests demand that we give to the President our support along the lines of his message to the present Congress, touching these matters."

THE OIL INDUSTRY.

LIGHT OIL AT LOW PRICES.

THE STANDARD'S SCHEDULE FOR COALINGA PRODUCT.

Overproduction Given as Excuse for Low Figures—San Francisco Men Get Control of Leading Coalinga Companies—Many Kern County Companies Levying Assessments.

The following prices are being paid producers of light oil at Coalinga by the Standard Oil Company: For 22 gravity to and excluding 24, 30 cents per barrel; 24 to and exclusive of 25, 30 cents; 25 to and exclusive of 26, 35 cents; 26 to and exclusive of 27, 40 cents; 27 to and exclusive of 28, 45 cents; 28 to and exclusive of 29, 50 cents; 29 to and exclusive of 30, 55 cents.

The Standard takes no oil below 22 gravity, that being classed as fuel oil, for which the Associated is paying 17½ cents.

In connection with the low prices of refining oils, which, it will be seen, are but little if any higher than the fuel oils in the southern fields, there is a report abroad that when the Standard recently forced the Santa Fé to shut down its Olinda wells by refusing to buy the light refining product, the best terms offered were to exchange the Olinda oil for Kern River fuel on the basis of barrel for barrel, although the latter now sells at 18 cents at the well. The great production at Santa Maria, Coalinga and on the Standard's own property at Newhall, doubtless gives the great monopoly the ground for claiming a great overproduction, as the Associated has claimed for the fuel oil during the past year.

In the Kansas-Indian Territory fields the Standard is paying from 47 to 57 cents for oil from 28 to 32 gravity.

COALINGA MAGNATES.

Recent activity in the stock of several Coalinga companies on the San Francisco exchange is explained by the report that Frank A. Pauson, J. W. Pauson and Capt. Turner, San Francisco oil men, have been buying up the control of these and have thus become among the largest independent producers in the Fresno county field. The companies affected are the Wabash, Twenty-eight and the Independence, which are among the leading corporations of the district. Extensive development work is to be carried forward on all the properties. No consolidation of the companies is contemplated, as there is still a large amount of independent stock outstanding, but the control is in the hands of the three magnates named.

LEVYING ASSESSMENTS.

Many Kern companies are now assessing their stockholders for money for improvements. The amount of these assessments runs from 1 cent to $1 a share. Many of these companies are located in the west side fields, where there is little being done but develop and hold properties for the future.

Notice of Sale of Street Railway Franchise.

Office of the City Clerk of the City of Los Angeles, State of California, Los Angeles, Cal., January 20th, 1905.

To whom it may concern:

Notice is hereby given that an application has been made to the City Council of the City of Los Angeles for a certain franchise granting the right to construct and for the period of 24 years to operate and maintain an electric street railroad upon certain public streets of said city, hereinafter described, together with certain appurtenant and incident rights hereinafter mentioned.

And that it is proposed by said City Council to offer for sale and grant to the highest bidder said franchise upon the terms and conditions hereinafter mentioned.

That said franchise is described as follows, to wit:

A franchise to construct and for the period of 24 years to operate and maintain a double track electric street railroad over the route and in and upon the streets or portions of streets in the said city, described as follows, to wit:

Commencing at the intersection of Boyle avenue and Stephenson avenue and running thence south along Boyle avenue to Seventh street; thence west along Seventh street to Spring street.

That the terms and conditions upon which said franchise will be offered for sale and granted, are the following:

That the street railroad constructed and operated under said franchise shall be used only for the transportation of passengers and United States mail.

That in all cases where said franchise is granted over streets now occupied by other lines of street railway, the grantee thereof and his or its successors and assigns shall have the right to operate over any and all the tracks of such other lines subject to the provisions and limitations of the statutes of the State of California applicable thereto; and in case the gauge of the tracks of said other lines of street railways shall not conform to the gauge of the tracks of said grantee, or his or its successors or assigns, said grantee, or his or its successors or assigns shall be permitted to lay a third rail over the distance traversed by said two roads jointly.

That the tracks to be laid under said franchise shall not exceed four feet and eight and one-half inches in width between the rails and shall be placed as nearly equidistant from the center of the street as possible, and as near each other as a proper regard for safety will allow.

That said grantee and his or its successors and assigns shall use in the construction of said road the best materials, including a rail weighting not less than sixty (60) pounds per yard, and to lay and maintain first-class street railroads, which rail shall be satisfactory to the Street Superintendent and the Board of Public Works; and the rails shall be so laid as to be continuously welded or otherwise securely fastened together, and the said grantee, and his or its successors or assigns shall at his, its or their own expense, keep and maintain between the said road between the rails, between the tracks, and for two (2) feet on each side thereof, with the same material used by the City of Los Angeles in paving streets and in the same manner as upon the streets over which said road runs respectively, and shall keep the same constantly so paved or macadamized and in repair, with the proper grade and provided with suitable crossings, and shall make the roadbed conform at all times to the established grade of the street; provided, however, that where any of the above-named streets have been graded or otherwise improved prior to the granting of said franchise, said roadbed or rails shall conform to and be even flush with the surface of said graded or otherwise improved street or streets, whether such surface be above or below the established grade of such street or streets; and on all other street or streets, said roadbed and rails shall conform to such official grade as aforesaid. And provided, further, that in case any regrading or other improving of said street or streets, said roadbed and rails shall, by said grantee, or his or its successors or assigns, be placed upon and made to conform to said official grade. All repairs and grades to be made under the instructions and to the satisfaction of the Street Superintendent of said city. In case the said grantee or his or its successors or assigns, fails to comply with the instructions given by said official for ten days after the same are served upon the said grantee, or his or its successors or assigns, or upon the manager or agent of said grantee or of his or its successors or assigns, in Los Angeles, he, the said official, shall enter upon the road of said grantee or his or its successors or assigns, and do the work as or directed by the Council of the City of Los Angeles, said officer to keep an itemized account of the cost of said work, which the said grantee, or his or its successors or assigns, by the acceptance of said franchise, agrees to pay immediately upon its being presented to said grantee, or his or its successors or assigns, or to such manager or agent stationed in Los Angeles.

Provided further, that said grantee and his or its successors and assigns, shall construct necessary flumes and culverts for the free passage of water under the tracks of said railroad wherever and whenever necessary, and that all such flumes and culverts, and all curves, aqueducts, turnouts and switches shall be constructed in accordance with plans and specifications approved by the City Engineer.

Provided further, that said grantee and his or its successors and assigns shall be subject to all such regulations as are now, or may hereafter be in force, to excavate and remove portions of the streets necessary to properly construct said road, and the right to erect fixed apparatus, boilers, engines and other appliances, to properly equip and run said road.

Provided further, that the City of Los Angeles in granting said franchise expressly reserves the right to pave, macadamize, renew or sewer any of the said streets, or to lay gas, water or other pipes therein, said work to be done so as to injure said road as little as possible.

Provided further, that cars shall be run each way, over the whole length of the road constructed under said franchise, at intervals of not more than ten minutes, between the hours of 6 o'clock in the morning and eleven o'clock at night, of each day, during the term of said franchise, unless prevented by the elements riots, strikes, or unavoidable causes; provided further, that cars shall be operated over said road with sufficient frequency to carry and provide with seats all passengers desiring to ride, in consideration of the fare accepting in times of extraordinary and unforeseen amounts of travel, and that said cars shall be, at all times, and in all respects, as efficiently constructed and thoroughly equipped as the cars in use upon the best electric street railroads in the City of Los Angeles.

Provided further, that the cars upon said road shall not be allowed to stand on any street or any street intersection in such a manner as to obstruct the use of the said street by vehicles or pedestrians.

That the grantee of said franchise and his or its successors and assigns shall, and will at all times upon and after the completion of said road, during the operation of the same and without extra charge, issue to and receive from passengers riding in one direction, transfers good for continuous passage over and upon any and every other line and lines of any other road or roads within the said city which the Engineers of Street Sweeping Machines at a salary of $95 per month; two Inspectors of Street Sprinkling at a salary of $90 per month each; one Inspector of Horses; one Inspector of Street Sweeping Machines at a salary of $95 per month; two Engineers of Street Sweeping Machines at a salary of $110 per month each; one Steam Roller Engineer at a salary of $3.50 per day; one Driver with cart and horse for bridge sweeping, at a salary of $2.50 per day; one Driver with cart and horse for alley sweeping at $2 per day; one Repairer of Street Signs, with horse and wagon, at $2 per day; two Drivers, each with three horses, Street Cleaning Machines, at a salary of $5 per day each; fifty-five street hand sweepers at a salary of $2 per day each; six Drivers, with teams, for street sweeping, at a salary of $4 per day each; one hundred Drivers of sprinkling wagons at $2 per day each; one Boss Carpenter at $3.50 per day; two Carpenters at $2.50 per day each; one Chief Sewer Flusher at a salary of $3 per day; nine Sewer Flushers at a salary of $2.50 per day each; one Asphalt Foreman at a salary of $3 per day; ten Asphalt Workers at a salary of $2.50 per day each; four Bridge and Alley Sweepers at one dollar per day each; sixty-five teams, with drivers, at a salary of $4 per day each; four cart drivers at a salary of $2 per day each; nine Gang Foremen at a salary of $3 per day each; one hundred and ninety-eight laborers at a salary of $2 per day each; three Gutter Layers at a salary of $2.50 per day each; one Corral Foreman and Storekeeper at a salary of $75 per month:

Provided that the persons whose compensations are herein fixed by the day shall be paid only for the time they are actually employed. All of the said employers shall be appointed by the Street Superintendent.

Sec. 2. All ordinances and parts of ordinances in conflict herewith are hereby repealed.

Sec. 3. This Ordinance is urgently required for the immediate preservation of the public peace, health and safety; and the City Clerk shall certify to its passage by a two-thirds vote of the Council, and cause it to be published once in the Los Angeles Daily Times, and thereupon and thereafter it shall take effect and be in force.

I hereby certify that the whole number of members of the City Council of the City of Los Angeles is nine, and that the foregoing Ordinance was passed by a two-thirds vote of said Council, at its meeting of February 6, 1905, by the following vote, to wit:

signs, or by the oath of the manager or presiding officer of said grantee, or his or its successors and assigns, showing the total gross receipts and gross earnings collected or received by said grantee or his or its successors or assigns, during the preceding twelve months, from all traffic over any part of the line for the construction and operation of which said franchise is granted, or over any part of the system of street railroad of which it may be an extension, and from all other sources, and within ten days after the time for filing aforesaid statement it shall be the duty of said grantee and his or its successors and assigns to pay to the City Treasurer of the City of Los Angeles, the aggregate sum of the said percentage upon the amount of the gross annual receipts arising from the use, operation or possession of said franchise, determined and computed in the manner hereinbefore provided.

And any neglect, omission or refusal by said grantee or his or its successors or assigns, to file said verified statement, or to pay the said percentage of the said gross annual receipts at the times or in the manner hereinbefore provided shall ipso facto work a forfeiture of said franchise and of all rights thereunder, to the City of Los Angeles.

That the work of constructing said road shall be commenced in good faith within not more than four months from the date of the granting of said franchise, and shall be continuously prosecuted thereafter in good faith and without unnecessary or avoidable intermission or delay; that said work of construction shall be completed within not more than three years thereafter; that said work of construction shall be commenced and continuously prosecuted, so that at least one-third of the work of constructing said road shall be completed within one year from the time of commencement; and that if said work be not so commenced, prosecuted or completed within the times, or in the manner specified, said franchise shall be forfeited.

That said grantee, or his or its successors or assigns, shall not sell, transfer or assign said franchise or any of the rights or privileges thereby granted, except in the manner aforesaid.

That any neglect, failure or refusal to comply with any of the conditions of said franchise, shall thereupon immediately ipso facto effect a forfeiture thereof, and the said city, by its City Council, may thereupon declare said franchise forfeited, and may exclude said grantee or his or its successors and assigns from all further use of the streets or any part under said franchise, and said grantee and his or its successors and assigns shall and will at all times as aforesaid, issue or cause to be issued to said passengers without extra charge, a similar transfer from and over and upon the road operated and maintained under said franchise.

That the rate of fare for any distance over said road or its branches one way, shall not exceed five cents for one passenger.

That persons under the age of eighteen years, who are regular school children of said city, shall be required to pay but half fare, provided that said pupils shall purchase their tickets in quantities of at least one dollar's worth at a time, and such tickets to be available only between the hours of eight a.m. and six p.m., in actual passage to and from school; and that the grantee and his or its successors and assigns shall sell such tickets whenever requested so to do by a pupil who shall present a certificate from a teacher, approved by the Superintendent of Schools of said city, that he or she is a pupil of said schools.

And provided further, that said grantee and his or its successors and assigns, shall, at all times, carry all regular and special policemen, police officers, firemen and letter carriers, while on duty, the Mayor and members of the City Council, and of the Boards of Police Commissioners, Fire Commissioners, Water Commissioners, Park Commissioners, and Civil Service Commissioners, the members of the Board of Health, the members of the Board of Education, City Superintendent of Schools, and the Directors of the Public Library, free over said road and over any other road or roads within said city, which said grantee, or his or its successors or assigns does now, or may hereafter own, control, or operate, subject, at all times, to such reasonable regulations as said grantee, and his or its successors or assigns may prescribe.

Provided further, that said grantee, and his or its successors and assigns shall pay to the City Tax and License Collector of the City of Los Angeles, the license upon each car that is now, or may hereafter, fixed by the ordinances of said city.

That the said grantee and his or its successors and assigns shall during the life of said franchise pay to the City of Los Angeles, in lawful money of the United States, two per cent. of the gross annual receipts of such grantee, and his or its successors and assigns, arising from the use, operation or possession of said franchise. No percentage shall be paid for the first five years succeeding the date of said franchise, but thereafter such percentage shall be payable annually and said franchise is to be forfeited by failure to make the payments provided for. Provided, that if the road for which said franchise is granted shall be an extension of an existing system of street railroad, then the gross receipts shall be estimated to be onehalf of the proportion of the total gross receipts of said system which the mileage of such extension bears to the total mileage of the whole system, and said estimate shall be conclusive as to the amount of the gross receipts of said extension.

And it shall be the duty of the grantee of said franchise and of his or its successors and assigns to file with the City Clerk of the City of Los Angeles, at the expiration of six years from the date of the granting of said franchise and at the expiration of each and every year thereafter, a statement, verified by the oath of said grantee or his or its successors or assigns

EVENTS IN LOCAL SOCIETY.

ESCHSCHOLTZIA Chapter, Daughters of the American Revolution, enjoyed one of the happiest afternoons of the year yesterday as the guests of Miss Eva Frances Pike and Miss Eugenia Hobbs, in the beautiful and artistic new home of Miss Pike, No. 2289 West Sixteenth street. A few moments were given to business when it was decided that on February 22, the Daughters, with their friends, would enjoy a ride to Riverside, with a luncheon at the Glenwood Tavern. Mrs. M. P. Peck of Iowa, who is one of the members of the society from that State, gave an informal but interesting talk on the society in the Hawkeye State. After the business session a splendid musical programme was given, Miss May Caldwell and Mrs. S. Grant Goucher, members of the Woman's Lyric Club giving a number of vocal selections. Miss Caldwell is from Council Bluffs, Iowa. She has a sweet and flexible soprano voice, which was particularly pleasing in "The Nights" (Murray.) Mrs. Goucher delighted the guests with her rich contralto voice and charming personality. Miss Pike gave a number of well played piano selections. Miss Hobbs read a paper on Washington and his early home. Mrs. Elizabeth Coe, mother of Mrs. Goucher, displayed a number of revolutionary relics belonging to her family, among which was a hand-woven napkin brought from England to be used at the wedding of Mrs. Coe's great grandparents, Eleanor and Donald Dorsey. She also showed pewter spoons made by her grandfather in 1809 for his negro slaves. There were ever so many other interesting relics shown by Mrs. Coe. After this Miss Pike made a pretty little speech inviting the guests to look over her new studio and home, which she has named Parker Hall in honor of her great grandfather, Jonathan Parker, who was one of the Boston "Tea Party." A group of pretty girls assisted in serving refreshments. Out of town guests were: Mrs. Coon of Rochester, Minn., Miss Louise E. Ranney of Cape Girardeau, Mrs. W. H. Hough of Booneville, N. Y., Mrs. William B. Sylvester of Brockport, N. Y., Mrs. Elizabeth Coe of San Francisco and Mrs. Peck of Iowa.

MRS. GRANT GOUCHER.

Authoress Entertained.

Mrs. Frank Walsh of No. 462 South Alvarado street on Tuesday afternoon entertained the Leisure Hour Club, in honor of Miss Elizabeth Miller, the clever writer whose latest production, "The Yoke" has placed her in the front rank of American authors. Miss Miller's mother, Mrs. Timothy Miller, was also a guest. Mrs. Miller was for many years one of the foremost newspaper women of the East, and is now a much sought after contributor to the eastern dailies. During the afternoon, Miss Maude Elizabeth Richards, a talented contralto, was heard in a number of delightful selections. A luncheon was served in the pretty dining-room which had been made bright with spring flowers and greenery. Beside the guests of honor, those who enjoyed Mrs. Walsh's hospitality were: Mrs. W. S. Bartlett, Mrs. R. D. Richards, Mrs. A. S. C. Forbes, Mrs. J. W. Hendrick, Mrs. W. S. Taylor, Mrs. John C. McCoy, Mrs. Harriet S. Wright, Mrs. Jefferson D. Gibbs, Mrs. Lanier Bartlett, Miss Maude Richards and Miss Mathilde Bartlett. Mrs. Miller, with her son and daughter, expect to leave soon for a trip through the southland, returning later to stay a while in Los Angeles.

D.O.C. Charity Ball.

Members of Los Angeles Chapter, Daughters of the Confederacy, are busy with plans for their charity ball which is to be given on Thursday evening of this week. Mrs. Victor Montgomery of San Diego, State president of the D.O.C., will be the guest of the chapter at this function. A number of federation women are also invited.

Mrs. Lovett Entertains.

Mrs. William Watson Lovett of No. 2810 Orchard avenue entertained yesterday afternoon at a card party about fifty women friends. The home was sweet with the fragrance of many spring flowers. Over the mantels bright daffodils nodded from among ferns, and starry-eyed daisies, mingled with their foliage, peeped from baskets swung about the rooms. Hyacinths and jonquils in low bowls were here and there, and in the dining-room baskets of the fresh-faced flowers stood about, tied with airy bows of white tulle. Scores were marked upon heart-shaped cards, marked with hand-painted sketches of jonquils. At the conclusion of the games handsome prizes were given. The hostess was assisted in entertaining by Mrs. Dan Murphy, Mrs. F. H. McKee and Mrs. Samuel Haskins. This afternoon Mrs. Lovett will entertain with a second card party, at which she will be assisted by Mrs. J. E. Cook, Mrs. Godfrey Holterhoff, Jr., Mrs. Alec Hardenberg and Mrs. Albert Carlos Jones.

Monthly Luncheon.

Mrs. George Law Smith, president of the California State Federation of Women's Clubs, was an honored guest yesterday at the monthly luncheon given by the Woman's Press Club in Christopher's Broadway banquet room. The tables were lit with red-shaded candelabra, and American Beauty roses, in high vases, and red bon-bons set here and there further graced the board. Many women of the federation were guests. After luncheon, Mrs. Smith, in a few charmingly-worded phrases, expressed her delight at being able to accept the hospitality of the Woman's Press Club.

Covers for Twelve.

Mrs. Karl Kurtz entertained at her home in the Baker Block at luncheon yesterday twelve women friends. The center of the table was covered with a beautiful Japanese cloth, upon which rested an exquisitely-wrought teak-wood stand bearing a brass jar filled with jonquils and maidenhair ferns. Small vases filled with jonquils were arranged about the room. Places were marked with cards bearing the monogram of the hostess. The guests were: Mmes. Henry T. Gage, F. J. Walker, Randolph H. Miner, A. C. Bilicke, William May Garland, Marshall Hinman, Granville MacGowan, Walter S. Newhall and John G. Mossin.

Vassar Luncheon.

Graduates of Vassar College will participate in a luncheon February 22 at the Woman's Club House on South Figueroa street. The tables will be decked with the college colors, pink and gray, and there will be toasts from every class represented. Mrs. Andrew Stewart Lobingier is president of the club.

Notes and Personals.

Miss Alice Harpham of South Burlington avenue is visiting friends in Redlands for a few weeks.

Mr. and Mrs. Arthur Sherman of Des Moines, Iowa, and Miss Laura Sherman of Salt Lake City, are the guests of Mr. and Mrs. John Wyman of No. 1562 Orange street, for the winter.

Mrs. Caspar Behrendt, Mrs. Samuel Behrendt and Mrs. John Kahn will be at home Thursday afternoon at No. 1642 South Flower street.

John C. Reed and family have moved to No. 632 Coronado street; Mrs. Reed and Miss Fannie Reed will be at home the first and second Fridays of the month.

Among the San Francisco club women attending the convention of the California Federation of Women's Clubs is Mrs. Isaac Grant, wife of the president of the so-called Pacific Coast drug trust. Mrs. Grant, during her stay here is the guest of her cousin, Mrs. W. S. Livingood of Alvarado Heights.

Mrs. A. W. Scott of San Francisco is at the Van Nuys Hotel.

Mrs. Walter R. Leeds of No. 2642 Van Buren Place has issued cards for a tea to be given on Sunday afternoon, February 19, complimentary to Miss Lila Fairchild and John G. Mott, whose nuptials are approaching.

Mr. and Mrs. William Thomas of San Francisco and their daughter, Gertrude, were guests at Hotel Raymond, Pasadena, for several weeks. Mr. Thomas left a few days ago for his home, but Mrs. Thomas and daughter will remain some time longer. Mr. and Mrs. Charles J. Ellis of No. 2329 Scarff street are cousins of the visitors, and recently entertained them at dinner.

Members of the Midwinter Assembly are planning a dance to be given on the evening of February 27, at Cumnock Hall.

Miss Irene Bangs of Oakland will be the guest of honor at a tea to be given Saturday afternoon of this week by her aunt, Mrs. William M. Van Dyke, of No. 222 West Adams street.

Stock in the Carlsbad Consolidated Oil Company is going like hot cakes. If you want a few shares, come early. Our Brokerage Contract terminates when 100,000 Shares have been subscribed.

Just Think Of It.

A little over 70,000 shares were subscribed for Monday and Tuesday, although the first advertisement did not appear until last Sunday's paper.

Nothing shoddy or cheap about this investment.

Figure It Out

and you will act quickly.

The Company, it is claimed, can sell every acre of its possession for $100.00 per acre, and has already refused $500 an acre for some of its choicest lands.

It owns in round numbers 7500 acres of deeded lands, which at $100 an acre, means $750,000, or 25c per share on the Capital of $3,000,000—Figures do not utter falsehoods—There is no reason why this stock should not be worth from $5 to $10 per share in the reasonably near future.

Read General Manager J. M. Kellerman's Report.

(Mr. Kellerman, is one of the most successful Oil men in California.)

Los Angeles, Cal., Jan. 23, 1905.

Dr. H. Bert. Ellis,
President Carlsbad Consolidated Oil Company, Los Angeles, Cal.

Dear Sir: Agreeable to the request of yourself and the Board of Directors of the Carlsbad Consolidated Oil Company, I paid a visit to the property recently purchased by the company, consisting of some 7000 acres in Eddy County, New Mexico. I have made a careful examination, covering a period of a number of days in the field, and I have this to say:

I find the geological condition in every way bearing out the report made to the company by the secretary, Mr. J. J. Lonergan, and, like Mr. Lonergan, I find the field extensive and the prospect of such an immense deposit of oil that it is difficult for me even to predict its future.

The oil belt, apparently, is about six miles in width, and in a distance of some fifty miles traversed by our party during our examination I found plenty of evidence that it was continuous at least that distance.

I find the field a very economical one to work, railway facilities, labor, hauling, etc., being very cheap, and the altitude of the field is such that the output can readily be placed in the market at points along the railways, or even at the gulf coast, by gravity pipe lines.

I cannot give you a better idea of my opinion of the immense deposit of oil that will undoubtedly be found in this field than to say that I believe these 7000 acres of land controlled by our company could supply the markets of the world.

I think enough of this field and its promising prospects to invest my own money in the stock of the Carlsbad Consolidated Oil Company, and recommend that they send some rigs into this new district at once and commence drilling. I believe we will reach the oil deposit at from 700 to 1000 feet in depth.

Very Respectfully Yours,
J. M. KELLERMAN.

REMEMBER, a few dollars invested in Carlsbad Consolidated Oil stock at the present price of 25c per share, will probably bring a profit exceeding the entire expenses of a pleasure trip from the Eastern States to California.

Carlsbad Consolidated Stock will make you money while you sleep. *Do not fail to take a "flyer" of a few shares at least.*

The next offerings of stock will probably be at nothing less than 50c per share.

Now Is Your Opportuuity

"There is a tide in the affairs of men, which when taken at the flood, leads to fortune."

The balance of the present allotment of stock of 100,000 Shares which we undertook to sell, will without doubt be subscribed for within forty-eight hours. This will complete our work. Therefore, no further advertisement will probably appear.

You are respectfully invited to call and see us.

FIRST HONOR FOR ANGELS.

Presidency of State Body is Coming Here.

Federation Women's Clubs Opens Sessions.

Large Delegation Arrives from the North.

With a large attendance and warm interest the fourth annual convention of the California Federation of Women's Clubs was formally opened in Los Angeles yesterday afternoon at 2 o'clock, with the call to order by Mrs. George Law Smith, the gracious and attractive president who has crept into many hearts since her visit to the South last fall, her masterly address of yesterday only increasing the esteem felt for her by the club women all over the State.

Mrs. Smith will not be her own successor, as Mrs. Josiah Evans Cowles of Los Angeles was nominated by the committee having the matter in hand, and she will doubtless be elected today, the polls being opened from 10 a.m. to 12:30 p.m.

It has been the expressed desire of the southern district for some time past to have Mrs. Cowles elected to this coveted position of honor. She is capable, popular and tactful to an unusual degree, and has been honored by the General Federation with a position on the executive board, and her club acquaintance extends far beyond the borders of California.

When the delegates began to get to-

gether in the auditorium yesterday, to decide on some expression of opinion for the benefit of the Nominating Committee it was apparent that the northern district were in favor of proposing Mrs. Smith for a second term. There were a great many private caucuses, and some disposition to make nominations from the floor in case the Nominating Committee should fail to put up the name of Mrs. Cowles for the presidency. After much consultation, the matter was finally settled late yesterday afternoon by the northern delegations withdrawing all objections to that arrangement.

Today the political interest will center in the proposed amendments to the constitution, for upon one of these amendments will hang the duration of the term that the newly-elected president will have to serve. If it is decided to hold the State meeting biennially instead of yearly, and to make the term of the president two years instead of one, then the president elected today will represent California at the biennial of the General Federation in 1906. If this amendment is defeated, the northern districts will have a right to elect a president at the next yearly meeting of the State Federation, the next meeting will be held in the south, and that section will have a majority of delegates, just as the southern section has in the present convention.

The south is determined to have a representative at the next meeting of the General Federation, and the result is to depend upon the passing of the apparently simple amendment to-

The Credentials Committee reported yesterday afternoon 173 accredited delegates and forty-one alternates, but the convention hall at Simpson Auditorium was well filled, and a full quota of loyal club women were present besides the delegates.

After the call to order, Mrs. Robert Burdette asked all to rise and repeat the Lord's prayer. Miss Fannie Dillon of Long Beach played several of her compositions on the piano, and then the address of welcome by the Hon. Owen McAleer, Mayor of Los Angeles, He said:

MAYOR'S ADDRESS.

It is a source of great pleasure to me to realize that the first gathering in this fair city that I am called upon as the Executive to welcome should be representative in character. I wish to assure you that I am deeply sensible of the honor, and feel that your selection of Los Angeles in which to hold your convention has conferred a distinct honor upon it. Los Angeles has in the past welcomed many memorable conventions, but you have made it possible for us to feel proud of welcoming whose membership is composed entirely of the fairer portion of our citizenship.

In the earnest work in this world of ours it has made it a busy and active one, and the earnest efforts of our women are chiefly indebted for the nobler

The Credentials Committee reported this afternoon 172 accredited delegates and forty-one alternates, but the large hall at Simpson Auditorium was filled, and a full quota of interested club women were present besides the delegates.

When the call to order, Mrs. Robert Watson asked all to rise and repeat the Lord's prayer. Miss Fannie Dillon Beach played several of her numbers on the piano, and then came the address of welcome by the Hon. McAlser, Mayor of Los Angeles.

MAYOR'S ADDRESS.

"It is a source of great pleasure to me to say that the first gathering in this city that I am called upon as Mayor to welcome should be of a character, I will say, in which I am deeply interested, and feel that your coming to Los Angeles in which to hold your convention has conferred a distinction upon it. Los Angeles has always welcomed many memorable gatherings, but you have made it possible to feel proud of welcoming a body whose membership is composed entirely of the fairer portion of humanity.

"The earnest work in this world of ours has made it a busy and active one, and the earnest efforts of our women have largely indebted for the nobler and civilizing influences that are with us today.

"We recognize the fact that you are assembled here to recount the accomplishments of the last year, to prepare plans for carrying out in the future the earnest and serious objects of your organization. I know there is no end or aim too high for your aspiration, and in the working out of these ends and aims you are accomplishing a great good in our community. I have also felt and faithfully believe that the presence of woman has made the world better and stronger, and when I assure you that our citizens are proud of this gathering, and deeply feel the honor of your presence, recognizing that an able, strong and intellectual body of women are assembled here, and that a splendid force and power for good is here, to deliberate and plan work for the future that will be of great moral benefit and strength.

"I wish you great success in your work, and I desire you to feel that whatever may be at the disposal of our city to aid or assist you in the undertaking will be freely tendered you. May the memory of our hospitality linger with you long and serve as an inducement for you to visit us again and again, always assured of that cordial welcome that I extend you now."

NO DIVISION.

Mrs. J. W. Hendrick of the local board next bade the visitors welcome to the federation, and in beautifully-chosen sentences she urged all to a oneness of purpose so that the beautiful State would not be divided. "State pride, instead of sectional pride," said she, "we are all women of California and it is all ours from San Diego to the snow-capped peak of Mount Shasta, not north, not south, but just California, the brightest star in the galaxy of States."

Mrs. Smith responded gracefully to these addresses of welcome, and then came the various greetings, first from the General Federation of Women's Clubs, given by Mrs. Josiah Evans Cowles. Mrs. Cowles read a letter to the convention from Mrs. Sarah Platt Decker, president of the General Federation, in which she said that club women are the home women, the happy women and the good citizens. "California has a population of 700,000 women, and only 10,000 club women," said the letter. "Can you not have more of them for the federation?"

Mrs. W. W. Murphy, president of the California Congress of Mothers and Child Study Circles, brought greetings from the 35,000 school children in Los Angeles, and the forty-five child-study circles. Mrs. Jefferson Gibbs brought greetings from the "elder sister of the federation, the Woman's Parliament."

The reports of officers were given by Mrs. J. E. Cowles, vice-president-at-large; Mrs. Charles N. McClouth, recording secretary; Mrs. Arthur W. Cornwall, corresponding secretary, whose report was a breezy bit of original humor, greatly enjoyed, though it was an account of the fearful labors of such a position; and Mrs. L. F. Darling, secretary for the General Federation.

After the reports of committees, Mrs. Smith gave her annual address, which was a fine piece of work, clearly delivered and voicing in graceful language the practical, useful and noble avenues of endeavor that are open for the California club women. In speaking of the many tokens of affection received from the club women in every part of the State she said: "I did not know until Santa Claus came to me last Christmas that I was like the sailor, and had a sweetheart in every port. As for you, my friends, I have locked the door of my heart since you passed in, and I have lost the key."

In the forenoon a council of club presidents was held, and some useful measures anent civil service were discussed. The majority of the club women were against the adoption of a four-day session for the convention.

A CHILLY WELCOME.

There was a remarkably good attendance in the morning in view of the unfortunate delay of northern trains the night before. The train which was due at 11, did not arrive until 2 in the morning and brought nearly 250 tired travelers, many of whom failed to find accommodations at the hotels until 4 o'clock.

Mrs. J. E. Crandall and one of her committee members were there to receive the large delegation, but no means of transportion from the station could be procured except two street cars. These cars had remained at the almost tearful pleadings of Mrs. Crandall, but not a cab could be persuaded to wait, even with the hospitality of the city at stake.

The afternoon session closed with some delightful songs, by Miss Louise Nixon Hill, whose witching beauty and talent fairly captured the convention.

RECEPTION.

Cumnock Hall was the scene of a brilliant reception last evening which embodied the social side of the State Federation. The State officers, the local board, and nearly all the prominent club women in town received the guests, and handsome gowns and beautiful decorations with remembrance of the old California song and story in the Spanish songs and dances made the evening a memorable one. Mrs. Stephen C. Hubbell, Mrs. A. S. C. Forbes and Mrs. Eugene Pettigrew planned the reception, assisted by Mrs. J. T. Fitzgerald of the Hospitality Committee.

FOR TODAY.

The programme for today includes: Report of Committee on Nominations, Mrs. Geraldine Frisbee, chairman; appointment of tellers; polls open for election from 10 a.m. to 12:30 p.m.; report of Committee on Amendments, by Mrs. Frank E. Prior; reciprocity, report of chairman, Mrs. M. R. Babson, Ebell Club, Oakland; "Reciprocity; What May Be Done with It?" Mrs. Robert Wallace, Corona Club, San Francisco; 2 p.m., reports of district vice-presidents; Mrs. Victor Montgomery, San Diego district; Mrs. Frank E. Prior, Los Angeles district; Mrs. E. D. Buss, San Joaquin Valley district; Mrs. J. E. Thane, Alameda district; Mrs. A. E. Osborne, San Francisco district, and Mrs. W. H. Lawson, northern district; discussion, "Reciprocal Obligations of the Vice-Presidents and the Clubs in Their Districts," by Mrs. A. E. Osborne, Mrs. Victor Montgomery and Mrs. E. D. Buss; forestry, report of chairman, Mrs. J. J. Scoville, California Club; "The Preservation of Our California Wild Flowers," Mrs. Alice Merritt Davidson.

Evening, 7:45, at Unity Church: Music, Mandolin Club from Sherman Institute; "California History and Landmarks;" report of chairman, Mrs. A. S. C. Forbes; "California Writers," Rev. Robert J. Burdette; "Our Public Schools: Their Artistic Betterment," Miss Mary Foy; Indian love song in costume, Miss Frankie Wiles; "California, Old and New" (illustrated lecture,) Mrs. Emma M. Greenleaf.

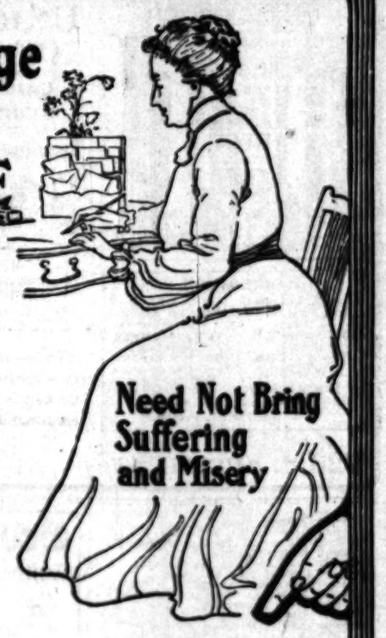
Change of LIFE



Need Not Bring Suffering and Misery

This perfectly natural change in a woman's life is too often accompanied by painful, distressing symptoms due to female troubles and slight irregularities in her delicate organism.

The woman who passes this change without the development of tumors, cancers, or chronic invalidism enters a new field of happiness and usefulness in the domestic circle and in social activity. Her physical system should receive the necessary assistance at this critical period.

Lydia E. Pinkham's Vegetable Compound

is exactly suited to woman's needs at this time. It strengthens and cures all derangements of the female organism, it overcomes the hot flashes and dizzy fainting spells, and all other distressing symptoms.

I Was in Bed for Three Weeks

DEAR MRS. PINKHAM:—I suffered a great deal during Change of Life. I flowed steadily for eleven weeks, and it made me so weak I was in bed for three weeks.

I began taking Lydia E. Pinkham's Vegetable Compound, although it was against my doctor's will and I had to hide it. I took it regularly until I had taken five bottles, and it brought me out all right, a perfectly strong, well woman. Any one can tell how healthy I am by looking at my picture, and any one can write to me or my daughter about our wonderful cures.

MRS. F. M. MUSHRUSH, East Chicago, Ind.

The whole secret of safety at this time of life is thorough preparation before the change begins. Fortify the system with a course of Lydia E. Pinkham's Vegetable Compound. This wonderful medicine has carried thousands of women through this danger period.

No such helpful advice to women who are sick can be had anywhere as will be received free by addressing Mrs. Pinkham, Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

FREE JUST 4 DAYS MORE.

Extraordinary offer to the sick and afflicted. All who place themselves under treatment before February 12th will be treated until cured free of charge. No cost to the patient except for medicines and means necessary to effect a cure.

NOT SENSATIONAL STORIES

The reported cures of Prof. Uria are not sensational stories. Many of them seem to be of a miraculous nature and almost surpass belief, but no claims are made that are not based on facts, no cures reported but what are true. Names and addresses are given, and responsible and respectable people will be there who will cheerfully attest to the claims of Prof. Uria, the medical and surgical specialist whose cures are the subject of so much talk. The cases that are published are only occasional ones out of hundreds that have occurred. Owing to the delicacy of the afflicted persons about having their names used, the more startling cures made by Prof. Uria with his wonderful system of treatment are never made public, but enough has been published to prove that Prof. Uria's methods of curing diseases are far in advance of any other system or institution in this country.

Prof. Uria treats no acute diseases, but makes an entire specialty of chronic diseases—long-standing cases given up by the doctors and pronounced incurable, he most desires to see.

ALL SUFFERERS

From nervousness, dyspepsia, liver, kidney, stomach, blood and skin disorders, catarrh, deafness, bladder and urinary troubles, heart disease, asthma, diseases of the lungs, rheumatism, paralysis, neuralgia and sciatica should call at once. Special quick treatment for private diseases of men and all diseases of women.

Goitre, Hernia, piles and Varicocele permanently cured without the use of the knife.

A LEGAL WRITTEN GUARANTEE

To cure or refund the money is given in every case.

Call and be examined and at least learn the cause of your disease, and if you can be cured. It costs you nothing and may save your life. If you cannot call, write.

MEN

We are Specialists for Varicocele, Hydrocele, Stricture, Piles, Fistula, Blood Diseases, Contracted Diseases, Private Diseases, Loss of Vital Power, Kidney and Bladder Troubles.

CONTRACTED DISEASES

Always become chronic, if improperly treated. DR. HARRISON'S long experience has brought him perfected methods that are the very best that modern medical science can give. So successful is he that many specialists make futile endeavors to copy his methods. The happy results of his treatment are becoming widely known. Cured patients are sending their friends to us from the fact that they are satisfied with our ability to cure where others fail. Contracted disorders should never be neglected. If you are unfortunate, attend to the trouble at once. Consult an experienced specialist.

STRICTURE

We always cure in as short a time as possible from the nature of the trouble; the nature of stricture is easily understood only by educated physicians and surgeons, who have had experience in this particular trouble. So-called specialists who are not physicians have no knowledge of how to treat stricture. Many a man is ruined by quackery. Consult the best and none but the best. The public will tell you of us and our ability.

VARICOCELE

It is especially gratifying to us that men now understand that DR. HARRISON ABSOLUTELY CURES VARICOCELE. There is no deception about this. It is a fact which can be proven by referring to dozens of leading business men whom we have cured. This matter has been placed before the public so plainly by us that there cannot be the shadow of a doubt of our ability to do exactly as we say. Ask every man afflicted with varicocele to note and remember that DR. HARRISON will give $1000 for a case of varicocele he cannot cure, and $1000 for a case of varicocele that can be cured other than by his methods. Call and see us about it. No charge for consultation.

Vital Decline Can Be Cured

Vital decline, commonly called weakness, is the result of a diseased condition, which awakens the vital nerve center. This disturbing cause is nearly always found in the prostate gland, where the nerve center is located. The prostate becomes affected by one or more of several things, such as badly treated local diseases, indiscretions, excesses, varicocele, etc. We published years ago the first information ever given out on the prostatic trouble as the cause of vital weakness; since that time our theories have been accepted by all the best Eastern specialists and at the same time every pretender specialist copies our advertisements, knowing absolutely nothing of our successful means of relieving men of this trouble. No one but a thorough specialist can succeed in curing these conditions. Anybody can advertise, but the genuine specialist only can satisfy the patient and give him value received.

STEAMER FOUNDERS.

British Steamer Damara Springs Leak off Nova Scotia Coast and Passengers and Crew Take to Lifeboats—Some Fail to Reach Shore.

[BY THE ASSOCIATED PRESS—P.M.]

HALIFAX (N. S.) Feb. 7.—Word reached here tonight that a large steamer is ashore off Musquodobit harbor, about sixty miles to the eastward of Halifax. It is thought the steamer is on Egg Island. Communication with that part of the coast is difficult.

The steamer has been sending up signals of distress for some time, but the weather is so thick she cannot be made out.

Later reports says the steamer is the Damara (British.) Capt. Gorst, from Liverpool, via St. Johns, N. F., for Halifax, and that she has since foundered.

The chief officer, with eighteen members of the crew, reached shore in a lifeboat.

The captain, with three passengers and the balance of the crew, also left the steamer at the same time, but are still missing.

The chief officer reported that the steamer struck some object about five miles off shore early today and at once sprang a leak and began to settle. A blinding snowstorm was raging.

When the lifeboats drew away the steamer was deep in the water.

Capt. Dorst and the others who were in the second boat stood by the steamer and nothing has been heard of them since.

The Damara left St. Johns, N. F., last Saturday, with 900 tons of cargo.

The weather is stormy along the coast and a heavy sea has been running all day.

Tugs left here tonight to search for the steamer and the missing lifeboat.

TIED UP IN ICE.

Two Lake Steamers in Sight of Chicago but Unable to Dock—Weather Conditions in the East and South Little Improved.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Feb. 7.—[Exclusive Dispatch.] Two lake steamers, the City of Racine and the F. & P. M. of the Barry line, each carrying a number of passengers, are icebound within sight of the Chicago shore, but when they will get into the docks no one will attempt to say.

The boats left Milwaukee Monday morning, after a hard struggle with the ice that is piled up along the Milwaukee shore. All along the west shore of the lake the ice is piling up.

WIRES IN THE SOUTH.

[BY THE ASSOCIATED PRESS—A.M.]

MEMPHIS (Tenn.) Feb. 7.—Wire communication with southern points is slowly being restored by the telegraph and telephone companies through the efforts of hundreds of linemen. The temperature in Memphis today was 18, a fall of 7 deg. in twelve hours. The situation in North Texas is reported to be the worst in years. A blizzard has been raging over the cattle ranges in the western part of the State, and live stock has suffered severely.

'WAY DOWN IN IOWA.

[BY THE ASSOCIATED PRESS—A.M.]

DES MOINES (Iowa) Feb. 7.—Twenty-one deg. below zero was reported here today. Charles City is the coldest spot in Iowa, the thermometer registering 26 deg. below at that place.

LABORITE ALLEGES TELEPHONE BRIBERY.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Feb. 7.—[Exclusive Dispatch.] The secret of the alleged deal by which the Illinois Telephone and Telegraph Company ordinance was rushed through the City Council came out today, when T. P. Quinn of the Chicago Federation of Labor Committee selected to present charges against the city legislators told how $110,000 was carried in a satchel from the Chicago National Bank by E. J. Judd, who was accompanied by two men, one of whom is designated as "a former Alderman now under indictment." It is the most sensational assertion thus far made by men who are forcing the investigation which is bound to develop a great scandal.

Quinn says in part: "The money was paid over, or part of it, in the very room in Powers & O'Brien's saloon where the original job to steal the rights of the city was concocted. When Judd came to this room in the saloon, he was by two powerful men, Powers and O'Brien, the men who had the city and State legislation, too, for that matter by the throat, he was accompanied by two men, one an Alderman now under indictment. There they met twelve Councilmen, with whom they split up part of the money."

TROUBLE IN NORTHWEST.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA, Feb. 7.—[Exclusive Dispatch.] The Pacific States Telephone Company is having more or less difficulty in absorbing the independent and cooperative telephone lines owned chiefly by the farmers in Eastern Washington. At Sunnyside, the Christian Cooperative Telephone Association has 170 stockholders, with 200 'phones in use and an investment of $20,000. The association has been desirous of making connections with the Pacific States Telephone Exchange at North Yakima. Negotiations looking to this end have been rejected because the contract offered by the telephone company was not in harmony with the association's understanding of the proposition. Members of the association believe their company would be strangled by the contract offered by the Pacific States Company.

FLASHES FROM THE WIRES

The January statement of the London Board of Trade shows increases of £8,619,500 in imports and £4,532,000 in exports.

QUARREL AND HYSTERICS.

Mrs. John Faber, wife of a Southern Pacific employé who resides at No. 226 South Olive street, was taken to the Receiving Hospital at midnight because it was supposed she had taken poison. She and her husband had a quarrel and he left the house. She became hysterical and became so violent that she broke dishes, furniture, tore her clothing and then fell unconscious to the floor. Others in the house summoned the police thinking the woman had taken poison, but at the hospital it was found that she was suffering from acute hysteria.

Leading Specialist

DR. O. C. JOSLEN,
The Leading Specialist,

SEVENTEEN years of successful practice in men's diseases, with hardly an instance where I have not effected a complete cure in all the cases I have treated. This would be sufficient reason for me laying claim to the title of "Leading Specialist." But I have done more. I have discovered methods of treating Men's diseases which are practiced by no physician other than myself—distinctive local methods that never fail.

WEAK MEN

and men who are afflicted with contracted ailments should not experiment or delay. Consult me and I will be frank and honest with you. If I can't cure you I will say so at the start. My knowledge gained by my long practice, enables me to distinguish the incurable cases, and these I utterly refuse to treat. But any case I accept, so sure am I of securing a complete and radical cure, that

I Am Always Willing to Wait for My Fee Until Cure is Effected

I cure "Weakness," Contracted Disorders, Irganic Diseases, Lost Vigor, Varicocele, Stricture, Piles, Specific Blood Poison and Reflex Ailments.

ATHLETIC MEET.

An important event in athletics that has just been arranged is the meet between the local Y.M.C.A. and the Occidental College. It will take place on March 4, and will mark the first time that a Y.M.C.A. team has come against a college aggregation.

Physical Director Braden of the Y.M.C.A. and Coach Edward Merrill of the Occidental are arranging the details of the events are to be the usual ones. The meets, including running high jump, 100-yard dash, pole vault, 12-pound shot put, 12-pound hammer throw, 440-yard run, 880-yard run, 220-yard hurdles, mile run and mile relay. Among the local athletes who will take part in the meet are Clyde Crowley, Frampton, Hotaling, La-Tyler, Caldwell, Owen, Lisk, Flansburgh and Wheeler.

Special medals will be given for first in each event and there will be a handsome trophy for the winning institution. On the day of the event contestants will dine together and in the evening there will be awarding of prizes and a public reception by the Young Men's Auxiliary of the Y.M.C.A. Entries are to be in by February 25.

BAD BOY TYNG.

Fred Tyng, a young man scarcely 20 years, who is well known in Pasadena, was arrested last night for burglary, alleged to have been committed in Los Angeles. He was lodged in a cell at the City Jail, where the police say they have a good case against him of stealing some field glasses and a gun. Young Tyng was raised by his uncle, Prof. Charles E. Tyng and wife, Dr. Anita Tyng. Dr. Tyng is badly burned and had to spend some time in a hospital, and Prof. Tyng died, thus breaking up the family. It is said that Fred then began to run wild. He has had one or two scrapes with the police before, but the burglary charge is the most serious.

ALTADENA CUT UP.

Superintendent of Roads Byer of Altadena has been looking around since the storm and finds the wealthy suburb cut up with washes to such an extent that in some places roads are impassable. It would take several thousand dollars to put the little city back in its antideluvian condition. It is said that about twenty-five bridges and drains were washed out. Among these bridges were two on Mountain street, a large one on Santa Rosa, one on Elizabeth street and one on Altadena avenue. On North Lake avenue the pipes are filled and bridges washed out. On Dakota street the gutters are filled. Mariposa Drive, which is the first street north of the railroad track and runs east and west through Altadena,

BOSSES JOBS FROM A CELL.

PASADENA CONTRACTOR BUSY UNDER DIFFICULTIES.

Deemore Inclined to Go to Rochester and Face Grand Jury's Charge Without Fighting Extradition. More Problems for City Turned up by the Storm Aftermath.

PASADENA, Office of The Times, No. 38 South Raymond avenue, Feb. 8. Park Deemore, the wealthy contractor, who was arrested Monday night on information from Rochester charging him with grand larceny, is still in the City Jail. Deemore naturally enough does not like very much to get out and yesterday exchanged several telegrams with relatives and attorneys in the East who are making an endeavor to get him admitted to bail. His brother, who is a wealthy resident of Rochester, left yesterday for Rochester and stated that he will do what he can to settle matters or at least to arrange bail if possible.

Deemore's brother wired him to fight extradition but the prisoner said yesterday that he is rather disposed to follow his advice but intends to go back and face down the charges. The indictment is by the grand jury. In justice think the man would be foolish to attempt to block his extradition. Sheriff Bailey is expected to leave Rochester at once to get Deemore, but it will be at least five days before he can arrive here. The contractor has been attending to business, directing operations from his cell.

A little new light has been thrown on the case. As near as can be learned, Deemore is specifically accused of having received $700 from the Commercial American Bank of Rochester on a worthless draft signed "E. H. Rollins." But back of this is said to be a series of fraudulent operations involving about $11,000. The accused man was interested in the Foster Automobile Manufacturing Company of Rochester. This concern was financially embarrassed and it is declared that about two years ago Deemore and others planned to brace up the toppling concern by issuing fictitious notes. It is said to have gone to the Philippines without announcing his intention to leave and from there arranged to pay back the lost money at the rate of $1000 a month, with the understanding that when the last payment was made all proceedings against him would be dropped.

DRAINAGE PROBLEM.

The aftermath of the storm continues to bring problems for the future. At a meeting of the city council yesterday three delegates from North Pasadena were there to complain and find a remedy. H. R. Porter who lives on the corner of East Orange Grove and Garfield avenues told how his dwelling had been pretty nearly converted into a raft by the water that came down Garfield and Orange. He said the foundations, doors and windows are all right and the water is still there. He seemed to think that the council would carry the water off. Mayor Gavin remarked that the council had been stopped by the people of East Orange Grove. Porter assured that something would be done to relieve his redress.

Others who resided at the north end of Lincoln avenue, had a somewhat similar Noah's Ark story to tell and Prof. Graves of North Lake avenue, a little protest. The rush of water damaged him about $25 and it seemed to think that the city should be reimburse him. But in the end, the council and the city attorney did not coincide.

The proposed of the flood question then jumped incongruously to the wedding. The mayor presented a petition to the council. There are a man employed in sweeping and cleaning by hand at $2 a day and four men employed at a cost of $14 per. The petition seemed to be in favor of letting the work out by contract.

ATHLETIC MEET.

The important event in athletics that has been arranged is the meet between the local Y.M.C.A. and the Occidental College. It will be held on March 4, and will mark the first time that a Y.M.C.A. team has competed against a college aggregation.

Physical Director Braden of the Y. M. C. A. and Coach Edward Merrill of Occidental are arranging the details. The events are to be the usual ones at such meets, including running high jump, running broad jump, 100-yard dash, 220-yard dash, pole vault, 12-pound shot put, 12-pound hammer throw, 440-yard run, 880-yard run, one-mile run and mile relay race. Many of the local athletes who will take part in the meet are Clyde Lamb, Perry Wood, Dr. L. C. Dempsey, Frampton, Hotaling, Lamb, Caldwell, Owen, Lisk, Flanagan and Wheeler.

Handsome medals will be given for each event and there will be a handsome trophy for the winning institution. On the day of the event the athletes will dine together and in the evening there will be awarding of the medals and a public reception by the Ladies' Auxiliary of the Y.M.C.A. Invitations are to be in by February 25.

Tyng, a young man scarcely twenty, who is well known in Pasadena, was arrested last night for burglary charged to have been committed in Los Angeles. He was lodged in a Pasadena jail, where the police claim they have a good case against him, having some field glasses and other articles. Young Tyng was raised by Rev. Prof. Charles E. He has had one or two scrapes with the police before, but this charge is the most serious.

ALTADENA CUT UP.

The resident of Roads Byer of Altadena has been looking around since last and finds the wealthy suburb all cut up with washes to such an extent that in some places roads are impassable. It would take several thousand dollars to put the little village in its antidiluvian condition. It is said that about twenty-five bridges and drains were washed out and that these bridges were two on Lake street, a large one on Mariposa, one on Elizabeth street and one on Altadena avenue. On North Lake avenue the pipes are filled and washed out. On Dakota Place are filled. Loma Drive, which is the first street east of the railroad track and runs west through Altadena, doesn't look like a drive. The damage to it is such that a new road will practically have to be built. Byer now has a force of men working and will get the Supervisors to inspect the damage as soon as possible.

BAND CONCERTS.

Manager Linnard of Hotel Maryland gave assurance last night that the band concerts in the park will be begun next Saturday. The band will play alternately in Central and Library parks. The work of securing funds is progressing. About $1000 is necessary for the season's concerts. The Crown City Band will get the job.

AFTERNOON AT CARDS.

Miss Grace Whitcomb of Northwood, Iowa, was the guest of honor at a card party given yesterday afternoon by Mrs. Fred E. Nash of East Colorado street. In the reception hall, drawing-room and library the card tables were placed and these apartments were beautified with a variety of fair blossoms, including narcissus, relieved by quantities of smilax, callas and pink carnations. The dining-room decoration was particularly pretty; here pink carnations were used in profusion, with all the dainty pink accessories which go to the ornamenting of the table. Mrs. Nash, who was gowned in pale blue ribbon grenadine over white taffeta, was assisted in receiving by her guest of honor and Miss Abbie McHenry. Miss Whitcomb wore cream lace over white and Miss McHenry was gowned in white net over blue. The score cards were artistic creations embellished with pen and ink sketches of pretty girls' heads.

Miss Whitcomb added to the pleasure of the afternoon by giving several vocal selections.

The prizes were handsome cut-glass dishes, and were won by Miss Mabel Doolittle, and Mrs. Edward Groenendyke. Those who were entertained were Mmes. Jack Bragdon, Theodore Gittings, Carl Nash, Robert O'Neil, Hiram Barlow, Robert Ford, Mortimer Henderson, Ben Whitmore, D. M. Linnard, Edward Groenendyke, Carrie Goodrich, Misses Withington, Lulu Conger, Ransom, Kennan, Claypool, Elizabeth Jones, Fay Claypool, Markham, Alice Karkham, May Barker, Gates, Mary Gates, Corrine Wood, De Frieze, Mabel Doolittle, Dake, Wilmifred Webb, Mrs. Robert Kennan and Mrs. Robert Ford and several others.

GLEANINGS.

John P. Barton, aged 44 years, died Monday night at his home, No. 366 Park street. The funeral will be held Thursday morning at 10:30 o'clock from the parlors of Adams, Tuner & Stevens.

According to the rain gauge kept by Frank T. Holderat, No. 840 South Orange Grove boulevard, the rainfall for the season has been 14.02 inches.

Mrs. Will B. Smith of No. 144 North Euclid avenue has received word of the death of her mother, Mrs. Klemme, at Omaha, Neb.

At a meeting of the Woman's Aid Society of the First Presbyterian Church yesterday afternoon $3000 was pledged to the new building fund.

Yesterday the local postoffice was flooded with mail, and the postmen will be kept busy during the next few days distributing it.

The Board of Trade is beginning to plan for the annual banquet, of which Rev. Robert J. Burdette is to be toastmaster.

Mr. and Mrs. Frank Pixley are at the Green. Pixley is the author of "King Dodo" and other catchy comic operas.

CLAREMONT.

RIIS FIGHTS THE SLUMS.

CLAREMONT, Feb. 7.—Jacob A. Riis addressed the students and friends of Pomona College last evening on the "Battle with the Slum."

"It means the fight for the people's homes and for that reason means a fight for the life of the republic," said the speaker in the course of his address. "Tenements murder and kill the home. When the home is wiped out what is left? Nothing. The home is the core of the whole republic. When it is killed, the republic is killed."

In giving statistics to present more forcibly the awful condition of the slum, he made the statement that "when the Tenement House Commission investigated the condition of the tenements, they found 380,000 rooms ('pig sty rooms,' he called them,) in the tenement district of New York."

Mr. Riis left this morning for the East.

POMOLOGICAL CLUB.

The Pomological Club met yesterday in Holmes Hall chapel. It was a continuation of the joint meeting held two weeks ago in the Fraternal Aid Hall at Pomona, where the water question was discussed and a committee appointed to look up details. The committee, through its chairman, Mr. Adamson, reported that the committee had investigated along three lines power to be used, cost of plant and amount of stock that consumers would subscribe. The amount of horse power that would be actually used at the beginning amounts to about 760; estimated cost of plant, with capacity of 3... horse power, $110,000, with an additional expense of $40,000 for transmission lines.

A paper by Mr. Richardson of Ontario, manager of the Electric Light and Power Company, was read by C. W. Foote; Mr. Richardson gave a minute description of the use of electricity as a fuel. A paper by Prof. Fortier, United States government expert, on "Consolidation of Power" was read.

Prof. A. J. Cook spoke on the "Red Scale."

SAN PEDRO.

SHALL "BOSS" RULE?

SAN PEDRO, Feb. 7.—At last night's meeting of the Board of Trustees an ordinance was placed upon its first reading providing for the calling of a special election to determine whether the city of San Pedro shall reorganize and change from the sixth to the fifth class.

This is the fine-laid scheme of "Boss" Craig, walking disturber of the local labor union, to "recall" the present municipal officers and elect those more to his liking. The law provides that the election shall be held two weeks after the passing of the ordinance. There is little probability of the election to reorganize being favorably voted upon, and the totem "boss" will likely be squelched promptly and effectually.

THE Murine Eye Remedy Co., Chicago, will home eye book free upon request.

CATALINA ISLAND.

RAINS SAVE THE SHEEP.

AVALON, Feb. 7.—The storm which began last Wednesday night culminated in a great downpour yesterday morning about 9 o'clock, which gave .92 inch, making 3.16 inches for the storm.

Last year the Banning Wool Company lost over 5000 lambs because of the drought. This year the rains came just in time to prevent a similar experience, and now the mountain-sides and valleys the fairly alive with the playful creatures, they and their mothers reveling in the abundant grass. There will be no loss this season.

Charles F. Howland, one of the men composing the San Clemente Wool Company, with his wife and two children, are at the Grand View, en route to San Clemente Island. They are waiting the arrival of the company's schooner to convey them to their destination.

William Mueller, the builder of the steamers Cabrillo, Hermosa No. 2, and the Warrior, is here, and will superintend the new building which will replace the old one occupied by Ben Rosin, opposite the postoffice.

Capt. C. H. Jenks, division superintendent of the Great Northern Railway's Grand Forks division, accompanied by his wife, is passing some time at Hotel Metropole. Capt. Jenks has been railroading in the Northwest for over thirty years. The large farms, the large crops and the large cargoes of grain shipped out of there by the Great Northern's two largest ships in the world, the Dakota and the Minnesota, make his place important.

Miss Lottie Humphreys of Sierra Madre is the guest of Mrs. Thomas Manning.

G. E. Lamb and wife of Saginaw, Mich., and Mrs. S. C. Jackson of Albuquerque, are at the Grand View to do some fishing.

Mr. and Mrs. F. C. Bradley and Miss H. L. Tuttle of North Haven, Ct., who make an annual tour to California, are again at Hotel Grand View for a few weeks.

Following are the arrivals at Hotel Metropole today: Mary Gladwin, Pomona; C. F. Hotchkiss and wife, Miss Mary Hotchkiss, Buffalo, N. Y.; Joseph Corrigan, Cleveland; J. J. Raddon, Mr. and Mrs. Charles Haas, A. H. Dwight and wife, Chicago; Mr. and Mrs. F. W. Goodrich, Portland; B. F. Shaw and wife, Ithaca; Mrs. McDonald, Pasadena; Miss Wilkinson, Germantown, Pa.; Morris Goldman and wife, Gilbert Goldman, St. Louis; E. M. Ogle, Indianapolis; Mr. and Mrs. Henry Barnard, Rochester, N. Y.; John Bacon, Mrs. M. B. Conway, E. B. Conway, Louisville, Ky.; C. B. Monoghan, and wife, Santa Ana; Harry C. Parker, Fitchburg, Mass.; Mrs. J. S. Shute, Los Angeles; Fred C. Borngasser and wife, Miss Catherine Borngasser, La Salle, Ill.

POMONA.

HOTEL IS SOLD.

POMONA, Feb. 7.—The Pacific hotel has been sold by Mrs. Eugenie Caldwell to J. D. Corbill, of Winnemucca, Nev. The consideration is reported to be 10,000. O. D. Williams the present occupant has a lease of the building for four years.

FOR MARMALADE.

A meeting of representative orange growers was held this afternoon to consider the advisability of forming a stock company for the manufacture of marmalades and kindred dry products. The growers expressed their hearty sympathy with the movement and appointed a committee consisting of C. E. Rammage W. B. Curtis, V. V. LeRoy, Dr. Baker of La Verne, W. S. Jones to arrange the best plan of organization and report at a meeting to be held in the evening in the near future.

HOLLYWOOD.

GRATIFYING YEAR'S WORK.

HOLLYWOOD, Feb. 7.—The directors of the Board of Trade last night elected as president, Col. J. J. Stradman; vice-president, C. J. Wade; treasurer, J. Eugene Law; secretary, E. R. Walker. The chairman of committees are: Membership, R. B. Lyon; legislation, Robert Young; advertising, A. G. Bartlett; reception, F. M. Douglas; streets and parks, E. C. Hampton; public meetings, Eugene Law; finance, C. J. Wade; transportation, W. D. Campbell; education, E. C. Hampton; new enterprises, P. J. Beveridge.

Work for the coming year was discussed. The Board is gratified with its success during the past year in securing three fine school buildings, and will endeavor to secure more teachers and more money for next year. Tree planting will be encouraged, and an Arbor Day held the 22nd inst.

The most difficult problem is how to care for the storm waters. Public sentiment favors a bond issue at once to provide proper courses. One great difficulty is to find a proper place to discharge the water after it is carried through the city. The legal problems involved are in charge of a committee. The city trustees have tendered the directors the use of the temporary city hall for their meetings, which will be held on the first Monday in each month.

MONROVIA.

FRUIT PESTS ERADICATED.

MONROVIA, Feb. 7.—The Monrovia-Duarte Fruit Exchange, Spence Fruit Company and the Citrus Union plants have temporarily suspended packing oranges, because of the impediments to shipping. Few growers are picking. Up to this time all plants were working full time, and a larger amount of fruit had been shipped than is shown by the records of any previous year. The high quality of the products has been reflected in good prices. The Monrovia-Duarte Exchange reports that the fruit has ben sweet beyond all expectations, and oranges are larger than usual. There is a shortage in the lemon crop, but the fruit is standard in quality. The conditions are very encouraging to ranchers. The best indication has been the entire absence of smut, which accompanies black scale. This pest has been determinedly fought here for years, and the last campaign has brought good results. It was led by Inspector Payne of the Horticultural Commissoin, and back of him was the Farmers' Club, organizations of growers and the independents as well, for it was realized that the entire district must be swept clean to secure permanent good. Monrovia, Duarte, Sierra Madre and Lamanda Park now boast clean groves. The positive proof of their good condition is in reports from the packing-houses. Not an orange has been washed this year. With the eradication of the pests there has also disappeared the "puffy" orange, which brought despair to the hearts of so many horticulturists. This orange disorder has seemed to yield to general care and scientific irrigation.

NOTES OF THE TOWN.

C. O. Barnes has contracted to build a packing-house on the Chapman ranch at Arcadia. The plant will be 32x50 feet and equipped for handling all kinds of citrus fruit. It will cost $1000,

and will front on Santa Anita avenue.

Visitors to Capt. and Mrs. A. ... Johnson are Mrs. Harry D. Clark and family of Hot Springs, Ark. They were delayed on one of the eastern trains which pulled into Los Angeles late Saturday night.

The vacant property on Myrtle avenue, which is known as the Badeau place, will be cleaned up within the next ten days. It is unsightly from accumulated weeds and rubbish, and as much complaint has been caused by its appearance that the agents have rented it to a traveling show, who will clean it for its use.

Charles Sanson, the street preacher of Los Angeles, who disturbed public worship here three weeks ago, was arrested today on a lunacy charge, and taken to Los Angeles by Marshal Miller. Sanson engaged W. A. Hyde in a religious discussion this afternoon, and his statements were so wild and his manner so threatening that Justice Holloway decided it was dangerous for him to be free.

OCEAN PARK.

WHO'LL REBUILD PIER?

OCEAN PARK, Feb. 7.—Although nothing has as yet been said about it officially, it is readily seen that there is to be a question as to who is going to repair the damage to the pier. This much is gathered from a perusal of the local press.

The piling was driven in the first place as a protection to the Santa Monica sewer outfall. The scheme of a recreation pier was an afterthought, a local firm having been given a twenty-year right to maintain a plank walk on the piling. The consideration for this concession was that the local firm was to keep the structure in repair. Since the sewer is broken several hundred feet inshore from the lapse in the pier the city is not immediately concerned in the repair. It is looking to the individuals holding the contract to make the repairs, and it would seem they expect the work to be done by the city. There has been one meeting of the City Trustees since the high tide got in its work, but there were no proceedings looking to the reestablishment of the wharf.

OCEAN SAND DRIBBLINGS.

The sale of a frontage of 100 feet at the corner of Kinney street and Ocean Front to A. E. Hiles of Los Angeles is reported. The price as given out is a little better than $200 per front foot. It is further stated that the purchase is to be improved by the erection of brick buildings.

Prof. Larkin of Mount Lowe has purchased property on Mildred avenue and will erect a handsome seaside home.

The Woodmen ball that was to have been held at Playa del Rey Thursday night has been postponed, owing to the illness of F. A. Falkenburg.

The City Trustees have granted the Abbot Kinney Company permission to grade and curb Speedway in the vicinity of Venice. The work to be done now is to be of a permanent character, similar to that which is in view for the whole length of the thoroughfare.

A flower scheme has been adopted for the flower garden and park plots fronting on the canals of Venice. Each canal is to have its flower and the electrical decorations by night are to be of a color corresponding to that of the flower's color.

Men, I'll Cure You!

Or Ask No Pay.

I want to talk to men who have pains and aches, who feel run down physically, who realize that the old "fire" and energy which was so evident in youth is absent now; men who can't stand the amount of exertion they could years ago. I want you—if that means you—to come to me, and if I say that I can cure you, I don't ask you to pay me until I DO so. That is fair, surely. You take no chances, as I know what I can do, and I'll run the risk.

If it were not for the prejudice to the great number of fakes in the land, I would not be able to handle the business that would come to me. The "Free Belt" fraud and the "Free Drug" scheme, which are not free at all, have made every one skeptical, but I know that I have a good thing, and I'll hammer away until you know it.

"I feel like a different man since I have been using the Belt, and thank you a thousand times for it."—J. D. Benham, Long Beach, Cal.

I have a cure in every town. Tell me where you live and I will give you the name of a man I've cured.

"Tell me your trouble and I will tell you honestly whether I can cure you or not. If I can't cure you I don't want your money. I have been in this business 24 years, and I am the biggest man in it today by all odds, and I am growing yet, because I give every man all he pays for. If you will come and see me, I'll explain it to you. If you can't call let me send you my book, full of the things a man finds inspiring to strength and courage. Free if you send this ad.

TORRID TIMES OF TORRENCE.

Accused Judge Explains His Undignified Conduct.

Chews Tobacco on Bench and Takes Whisky Straight.

Denies That Witnesses Ever Saw Him Drunk.

[BY DIRECT WIRE TO THE TIMES.]

SAN DIEGO, Feb. 7.—[Exclusive Dispatch.] In his testimony before the Assembly Investigation Committee this afternoon and evening, Judge Torrance, against whom the proceedings are directed, denied the statements of nearly every witness who, in direct or cross-examination had testified about seeing him intoxicated. Either he denies the accusations flat-footed, or declares the witnesses to have been mistaken in their conclusion. Not only did he differ with witnesses as to his condition at specified times, but as to utterances both on and off the bench.

POKER AND RED LIGHT?

At the forenoon session E. F. Goddard, a hack driver, testified to seeing Torrance in a drunken condition on a Sunday morning in November. Torrance wanted to borrow money, saying that he had been playing poker all night and was cleaned out. Goddard also testified to driving the Judge to the house of Dr. R. M. Powers, after which he urged him to let him take him home. Torrance refused, declared the witness, saying: "Hell, no. Take me down to the Turf" (a red-light joint.) The hack-driver said he obeyed orders, and the Judge went upstairs. In response to further orders the hackman returned in a short time, but he failed to see Torrance.

To rebut this testimony, the committee was furnished transportation to Dr. Powers's house, the doctor being too sick to leave the house. Dr. Powers testified that the visit to his house was not on the date stated. Judge Torrance told the committee that the visit was a long time ago, when Torrance was a director and Powers was president of the Bank of Commerce.

Deputy County Clerk Neale testified that Torrance never told him he was too drunk to call the calendar.

President Sweet of the Bar Association, one of Torrance's attorneys in the investigation, testified that he had not seen Torrance drunk on the bench; and it was his opinion that his judicial abilities had not been impaired.

TALK INSTEAD OF SPIT.

Walter S. Buchanan testified in rebuttal of the testimony of Attorney Collier, who swore to having seen Torrance drunk, January 16, as did also Clerk Salmons and Miss I. A. Thresher and F. Bartlett Goodman.

Fred H. Robinson, court stenographer, although much in Torrance's company, day and night, said he had not seen him drunk in the two years. He explained Torrance's failure of distinct enunciation by saying that he chewed tobacco on the bench, having the habit of holding tobacco in his mouth and talking when he ought to spit first.

This afternoon Paul Conners, night watchman at the courthouse, testified to Torrance's habit of working nights in the law library.

E. Swift Torrance was called to rebut testimony concerning a Christmas Day incident. A stipulation was also offered showing that Torrance did not hold court between certain dates in December.

Attorney Avery introduced a copy of the city ordinance against gambling, the game of draw poker, alleged to have been played by Torrance.

Attorney Shortridge gave the committee his version of what happened the night Torrance made the decree as to attorney's fees in the Golden Cross case. Shortridge also denied the testimony that Torrance was drunk in Los Angeles, upon one occasion when he was with the Judge.

Prof. Baldwin, County Superintendent of Schools, testified to Torrance's habit of working nights.

TWO HOURS OF DENIAL.

The last two hours of the afternoon session were occupied by Torrance in explaining various and sundry matters testified to. He first denied the statement of Mr. Neale, Deputy County Clerk, in his department, which was that he had once seen the Judge under the influence of liquor. He explained his habit of chewing tobacco on the bench, saying that it accounted at times for his incoherency of speech.

At to Attorney Hizar's testimony about seeing him boxing with a man in the Eintracht saloon, the judge said he merely, in a joshing way, tapped the rim of the longshoreman's hat.

Judge Torrance detailed to the committee how he was afflicted with insomnia and his habit of spending much of his time night's at the county law library.

He said that his associates were largely the plain people, that he did not move in society and that the only time he indulged in a dress suit was in 1894, wher he was nominated for the Supreme bench, which was as far as he got.

He denied Judge Puterbaugh's statements as to his words and conduct, particularly the assertion that he had said: "I've got to decide that case in favor of the Jew, but I hate to."

TAKES WHISKY STRAIGHT.

Torrance denied the testimony of Attorneys H. E. Mills and Fred O'Farrell. O'Farrell had said that Torrance had spoken of drinking beer all one day, and whisky the next. "As a matter of fact," said Torrance, "I never drink beer save in hot weather. I drink whisky straight."

He declared that Mills is no friend of his, being an attorney for the Anti-Saloon League. Attorney Collier, who had testified against him, the Judge averred, is also unfriendly toward him, although a near neighbor.

He denied the testimony of Attorney J. Z. Tucker as to his being under the influence of liquor, and his version of the dialogue between himself and Attorney Grant Jackson differed materially from the story as told by Attorney Eugene Daney. Mr. Daney, he declared, was mistaken. According to Torrance's statement, Jackson was treated with the utmost courtesy when Jackson was trying to get him to settle a bill of exceptions in the Tingley-Times case. But he said he would not settle them at that time, and he did not.

At the evening session two hours was occupied by Judge Torrance in further denials of statements and explanations of incidents testified to by witnesses for the prosecution, including the narratives of Attorneys Daney, Wright, Sprigg, Police Officer Pringle, Messrs. Goddard, Buser, Perrin, Storey, Roscoe, Howard and Collier.

As to the statement of Hack Driver Goddard, driving him to Dr. Powers and then to Mamie Goldstein's Turf saloon, he could not remember where Goddard left him, only he was sure it was not at the Turf.

NOT A GOOD BOXER.

In response to cross-examination by Mr. Avery, Torrance denied that he was good at boxing. Judge Torrance declined to answer some of Mr. Avery's questions, and the committee declined to allow the prosecuting attorney to introduce a new incident concerning Torrance's condition at Bradley's saloon, related by Hack Driver Goddard. Goddard stated he might be mistaken as to the date he took Torrance to the Turf, but not as to the incident. All efforts by Mr. Avery to secure the attendance of Goddard's employer, with the hack book, failed, but he announced that he would have both at the Los Angeles hearing.

The proprietors of the Grotto saloon testified that Torrance had not been removed from their place drunk.

As Avery could not secure the presence of the main witness, the section of the memorial charging Torrance with leaving town immediately after deciding the Gay case, and being intoxicated most of the time for several weeks, it was necessary to pass over it.

For Torrance, W. R. Jackson, a cigar dealer, testified that Torrance was in the habit of coming to his shop between 4 and 5 o'clock each afternoon to play solo. Invariably they would first go to the Brewster after a drink, many times walking arm in arm, which was not because Torrance was drunk. It was a way they had.

District Attorney Carter testified that during the last two years Torrance had been more irritable than formerly.

Torrance examined the last half dozen witnesses. The hearing was adjourned at 10:30 o'clock. The committee will leave tomorrow morning for San Bernardino, where the investigation will be resumed.

ATTORNEYS COME TO BLOWS.

As a side incident to the investigation, there are rumors tonight of an encounter today between Attorney V. E. Shaw and L. L. Boone, at the former's office, in which blows were exchanged. One report is that Boone knocked Shaw down. Shaw has been of counsel for Mrs. Gay and Boone for Mr. Gay in the Gay divorce case, and their relations have been somewhat strained at times.

MET HIS OWN SUIT.

"Borrowed" toggery did not disguise Daniel Hogan on Spring street yesterday morning.

Hogan is a youth with a debonaire style, freckles and good clothes. At least he had the good clothes until they were claimed by Daniel Lynch of No. 520 Maple avenue yesterday morning. Lynch levied on the raiment while Hogan was parading the streets, and his claim was cinched by having a policeman called instanter. Lynch says his room was burglarized several days ago, and several suits of clothes were stolen. He did not report the matter to the police, but yesterday when he met Hogan, Lynch says he recognized one of his suits of clothes on the fellow. The latter is held in jail while the police are investigating the alleged burglary.

ARGENTINE REVOLT SUPPRESSED

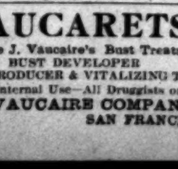
BUENOS AYRES, Feb. 7.—The local newspapers announce that the insurrection has been suppressed at Cordoba, the city to which it had been restricted, without any further fighting. The insurgents surrendered unconditionally and their leaders fled.

Dr. Lyon's PERFECT Tooth Powder

Cleanses and beautifies the teeth and purifies the breath. Used by people of refinement for over a quarter of a century. Very convenient for tourists.

PREPARED BY

J. H. Lyon, D.D.S.



If you can't sit before a big fire these nipping days, just drink Ghirardelli's Ground Chocolate with your meals. It's marvelous how warm and energetic you'll feel afterwards.

Made instantly with hot milk.
